THE BENGAL VETERINARY INSTITUTION

NOTIFICATION—No 1Agri

The 2nd January 1894

1 The Bengal Veterinary Institution has been established on the Belgachia-Dum-Dum Road, about five miles from Government House, mainly through the munificence of Babu Sheo Baksh Bogla of Calcutta, who contributed Rs 30,000 and 3½ bighas of land and of Sir Dinshaw Manockjee Petit, Bart, of Bombay, who made a further contribution of Rs 25,000, the Government of Bengal supplying such other sums as were required to complete the school and hospital The Institution is under the management of a Committee, appointed by Government, consisting of Government Officers and native gentlemen

2 The Institution at Belgachia consists of a Veterinary School and of a Veterinary Hospital, the former includes a large school building in which are a large lecture room, museum, Assistant Superintendent's Office, pharmacy, library, reading-room and Superintendent's office, the hospital consists of four horse wards and four cattle wards, a *post mortem* room forge, and stables for isolated cases, there are also the Assistant Superintendent's residence, servants' quarters, durwans' lodges, store rooms, &c

3 Full clinical and other facilities will thus be afforded to meet the educational requirements of veterinary students in the Bengal Presidency Students may also be admitted from any other part of India The special objects of the school are to train thoroughly practical and competent men for veterinary service under Government, Native States, Municipalities, District Boards, and private employers

4 Government has undertaken to bear the cost of the establishment, which consists of a military veterinary officer as Superintendent, an Assistant Superintendent, two lecturers, and a considerable working staff

5 The rules contained in the following Notifications (1) for the admission of students to the Bengal Veterinary School, (2) for the admission of animals into the Hospital, of the Bengal Veterinary Institution are issued provisionally and are liable to reconsideration if any regulations are hereafter laid down by the Government of India as to the qualifications required for veterinary officials, and as experience shows alterations to be necessary

Secy to the Govt of Bengal

NOTIFICATION—No 2Agri

The 2nd January 1894

Rules for admission of students to the Bengal Veterinary School

1 The course of study for the certificate of qualification will extend over at least two years Each year will comprise nine teaching months, and will be divided in accordance with the terms of the Calcutta Medical College

2 Each candidate for admission as a student is required to produce the following certificates —

(*a*) of age (no applicant under sixteen years of age can be admitted as a student),

(*b*) of physical fitness and of good morals,

(*c*) that he has passed the Entrance Examination of the Calcutta University, or has been promoted to the first class of a High School or has passed the middle English Scholarship Examination

As the teaching will be in English, a good colloquial knowledge of that language is important

There will be no restrictions as to the caste or nationality of students

It is desirable that students should on admission be between 18 and 26 years of age

3 All applications for admission as a student are to be made in writing to the Superintendent of the Bengal Veterinary Institution, who will decide on the advisability of admission in all doubtful cases

4 Government offer for the first year 15 stipends each of Rs 5 a month These 15 stipends will be awarded on the first admission of students to those whose general educational qualifications appear to the Superintendent and to the Committee of Management to be the highest, and who are otherwise approved by the Superintendent and the Committee At the end of the first session the list of stipendholders will be revised after an examination, and the successful candidates on the revised list of stipendholders will hold their stipends until 1st November 1894. From that date the number of stipends available will be 30 The conditions on which they will be given will be announced hereafter

5 In addition to the Government stipends the Sheo Baksh Bogla Veterinary Scholarship of Rs 10 per mensem will be available It was founded by Dr Kenneth McLeod, late Professor of Surgery at the Calcutta Medical College, in 1892, in recognition of Babu Sheo Baksh Bogla's liberality in connection with the establishment of the first Veterinary School and Hospital in Bengal, and is subject to the following conditions —

(1) that the candidate must have passed (*a*) the Entrance Examination of the Calcutta University or (*b*) middle English or (*c*) the middle vernacular scholarship examination, preference being given to these examinations in the order stated,

(2) that in awarding the scholarship, preference be given to an inhabitant of the district of Jessore,

(3) that in the event of more than one candidate possessing the necessary qualifications coming forward, preference be given to the candidate who has attained the largest number of marks in the examination,

(4) that the scholarship be tenable for a period of three years in connection with the Bengal Veterinary Institution.

6 It is hoped that Native States, Municipalities, District Boards and private employers will hereafter also be able to give stipends to deserving candidates to enable them to attend this Institution

7 The Superintendent will select such candidates as he may consider fit to fill the vacancies in the list of Government stipends and to obtain the Sheo Baksh Bogla scholarship according to the prescribed conditions He will report his nominations to the Committee

13 The certificate of qualification as "Veterinary Assistant" will be awarded to students who have gone through a full course of study at the school and have passed the final examination Special certificates of proficiency will be awarded to students who have passed the final examination, and who have, during their period of study, been elected clinical clerks and prosectors

14 Strict discipline will be maintained within the Institution Infringement of rules and regulations by students will be punished by fines, rustication, expulsion, or such other punishment as may be considered advisable by the Superintendent after due enquiry Each student, when his name is enrolled on the school books, will receive a copy of the rules and regulations, and on entering the institution he will be required to acknowledge by signature his acceptance of such rules and regulations as are in force when he enters, and also such as may be authoritatively introduced from time to time

15 All officials and servants of the Institution will be under the control of the Superintendent for discipline and the due performance of their duties

16 The Officers of the Institution in accepting their appointments will be considered to accept the rules and regulations then in force and such modifications as may be made from time to time under due authority Each officer will be held responsible for the exact performance of the duties in his branch of the school work, and for the results of his teaching

17 The Superintendent and Assistant Superintendent will exercise general supervision over all departments and be in immediate charge of the hospital wards, pharmacy, library and other parts of the Institution The officers engaged in instruction will every month make a report to the Superintendent of the attendance of the students at their classes, and of the individual progress as shown at weekly oral and monthly written examinations They will record the matter taught by them in the form of a syllabus for the information of the Superintendent and Examiners

18 The Instructor in practical shoeing will be in immediate charge of the forge building, and will be held responsible for the condition of the feet of all animals in hospital

19 Clinical clerks will be selected from the senior and more experienced students, and each in turn placed in charge of one of the wards of the hospital to superintend the medical treatment, nursing of the patients, and proper record of cases Satisfactory performance of the duties of clinical clerk will be recognised by the award of a certificate on graduation

20 Every student who is not a clinical clerk will in his turn perform the duties of dresser. He will be responsible that all instructions as to the nursing and medical treatment of the animals under his charge are carried out by himself

21. Two students, to act as prosectors, may be appointed by the Lecturer on Anatomy every session To them will be entrusted the preparation of all "subjects" required to illustrate his lectures, the hanging of diagrams, placing of specimens on the lecture table, &c Satisfactory performance of these duties will also be recognised by the award of a special certificate

22 The Superintendent will furnish a monthly report during the terms to each person or body of persons by whom the students are supported at the Institution, as to their regularity of attendance, progress, and conduct while on the school premises The progress of each student will be judged from the weekly *vivâ voce* and monthly written examinations

23 Damage to property in the Institution (as writing on or defacing the doors or walls) is strictly prohibited The Superintendent will periodically inspect all the buildings of the Institution and inquire into any damage that may have been done

24 Tables of the times and subjects of the Lectures will be posted on the Notice Board at the commencement of each term, to which both teachers and students will adhere

28 The records of the Institution will be kept by the clerk under the immediate supervision of the Superintendent or Assistant Superintendent

29 The records of the Hospital will be kept by the clinical clerks under the immediate supervision of the Assistant Superintendent

30 The class rooms and library of the Institution will be available for students' meetings at the discretion of the Superintendent No students' society, bearing the name of the Institution, may be formed without his consent

31 The dissecting room will be open during daylight to all students, but advanced students only will be allowed to dissect there under the supervision of the Instructor on Anatomy, whose duty it will be to distribute "parts" and "subjects," and record attendance and work

32 Dissections will be carried on throughout the cold weather session between 1st November and 28th February, and no student shall, on any pretext whatsoever, be exempt from this most important part of his duties The strictest discipline, cleanliness and order is at all times to be preserved in the dissecting room

33 A small plot of ground will be arranged on the premises as a Botanical garden in such a way as to render it of value to the students in obtaining practical acquaintance with medicinal, dietetic and poisonous plants It will at all times be open to the students, and the gardener will so far as possible supply them with plants for the practical study of botany

34 *Post-mortem* examinations are to be made in the case of all animals dying in the Hospital except when the owner has expressed a wish to the contrary The results will be recorded in a book kept specially for the purpose

35 The Isolation wards will, when occupied, be placed in charge of a special clinical clerk fully instructed as to the measures necessary for the protection of the attendants and the prevention of contagion

36 The Pharmacy and Drug Store will be in the immediate charge of the Assistant Superintendent No student or attendant will be allowed to enter into this part of the hospital without special permission The Hospital Assistant will be responsible for the proper preparation of medicines, and that neither waste nor mistakes in dispensing be made

37 Menial servants of the Institution as sanctioned by Government are to be mustered monthly in the presence of the Superintendent and then receive their pay They will hold their posts during good behaviour and satisfactory performance of their duties Their work will be explained thoroughly to them before they join, and they will be constantly in attendance daily for such hours as may be determined from time to time

GENTLEMEN,

We have the honour to report that the Cash Accounts of the Corporation of Calcutta, for the year ending 31st March 1893, have been audited on our behalf, and have been found correct

2 We have signed the printed statement of the annual accounts of the Corporation for the year 1892 93 in token of our having been satisfied with the audit exercised on our behalf and we herewith transmit that statement with a formal certificate that the accounts set forth in that statement have been correctly extracted from the books kept in the Accounts Branch of the Office of the Corporation

3 We have at the same time to invite attention to the defects detailed in the accompanying Note which exist in your accounts and to the suggestions which, as noticed in the Note, were made in previous reports, but have not yet been acted on

4 We would add that none of the reconciliation statements of the Store Accounts for the year 1891 92 have as yet been presented for audit

Note on the audit of the accounts of the Calcutta Municipality for the year 1892 93

1 The following heads in the General Fund Ledger closed with the balances noted against each, but the details of these balances in the audit register have not been worked out, nor agreed with the balances in the main ledger —

	Rs	A	P
Debit Balances			
Road, recoverable	666	8	2
House Drainage	15,853	13	1
Bustee	15,166	15	2
Credit Balances			
Income tax, General Fund	109	15	4
Ditto, Water rate	5	3	1
Ditto, Lighting rate	7	7	1

With regard to the debit balances against the first three heads we suggest that during the current year all items, prior to the first April 1890 (*i e*, of three years and more and therefore barred by limitation) should be transferred to the debit of "profit and loss" and that in future the charges for supervision should be adjusted under 'profit and loss' instead of being credited to these accounts

We further suggest that, at the close of each year the items that are irrecoverable being barred by limitation should similarly be written off under profit and loss so that the balances under those heads may represent actual and not as at present, partially fictitious assets

With regard to the credit balances under 'Income tax' in the General Fund Water rate and Lighting rate ledgers we have to suggest that an absolute agreement be effected between the ledgers and the audit registers during the current year

2 The following heads in the General Fund ledger closed with the balances noted below, and the details have been worked out in the audit register and agreed with the main ledger —

	Rs	A	P
Debit Balances			
Advance account	2 721	10	5
Tramway recoverable charges	626	7	9
Credit Balances			
Deposit account, General Fund	59 968	6	9
Ditto, Water rate	6 926	4	0
Suspense account	2 681	8	10
Interest on contractors deposits	1,791	6	3
Do Mullick Ghat account	499	1	0
Extra peons wages	809	5	3
Shamagore Burning Ghat account	243	6	0
Conservancy, recoverable	179	6	5

With regard to the above heads we suggested in paragraph 3 of the note, which accompanied our report on the accounts of 1890 91, that the details should be carefully examined, and all doubtful items eliminated, but our suggestion has not been acted upon

	Credit Balance Rs	A	P
3 License Deposit Account	1 116	10	1

Fully one half of the details of this balance is composed of items of three years and over We suggest that all items prior to 1st April 1890 should be written off to the credit of miscellaneous receipts and should any refund be claimed hereafter, it should be debited against miscellaneous receipts and merely *noted* against the particular item in the old audit register containing the license deposits to prevent a second payment of the sum

	Credit balance Rs	A	P
4. Deposits for appeals against assessment	695	10	3

In paragraph 4 of our Note on the accounts of 1890 91 and again in paragraph 15 (3) of our Note on the accounts of 1891 92, we suggested that the whole of this amount should be credited to arrear house-rate accounts,' our suggestion, however, has not been acted upon

	Credit balance Rs	A	P
5 Town Hall, recoverable	1,673	7	6

The details of this balance appearing in the audit register should be closely scrutinised to ascertain how the debit balance of Rs 147 14 at the end of 1890 91 has been changed to a credit balance of Rs 1,153 15 at the end of 1891 92, which was further increased to Rs 1,673 7 6 at the end of 1892 93

	Credit balance Rs	A	P
6 Excess receipts against property distrained	106	8	0

In paragraph 15 (5) of our Note on the accounts of 1891 92 we suggested that this amount should be credited to "miscellaneous receipts,' but our suggestion has not been acted upon

7 The balance of the outstanding "miscellaneous bills" on the 31st March 1893 amounted to Rs 66 660 6 7, and purported to be in the hands of the following officers of the Municipality —

Name	General Fund	Water rate	Loan	Total
	Rs A. P	Rs A P	Rs A P	Rs A P
Joint Collector ..	30,355 4 1	2 440 9 9	292 5 6	33,088 3 4

Total	42 477 7 11	4,047 15 11	20,134 14 9	66,660 6 7

The Personal Assistant to the Vice Chairman has taken stock of the bills but departmental returns verifying these balances have only been given in the Administration Report by the Joint Collector and Warrant Officer We suggest that similar returns should be published for each officer dealing with these miscellaneous bills

8 The comparison of the outstanding balance on account of miscellaneous bills at the end of 1891 92 and 1892 93 is as follows —

	Rs A P	Rs A P
Outstanding balance, 31st March 1892		1 03 202 11 11
Add new bills during 1892 93		1 74,133 11 3

		2 10 676 0 7
Balance, 31st March 1893		66,660 6 7

9 During the year the large sum of Rs 58,469 11 5 was cancelled from the stock of miscellaneous bills distributed as follows —

Out of the stock held by the—	On account of General Fund miscellaneous bills	On account of water rate miscellaneous bills	On account of Loan account miscellaneous bills	Total

Total	30,932 14 7	994 6 4	26,542 6 6	58 469 11 5

10 There are still some old bills included in the balance of Rs 66,660 6 7 outstanding on the 31st March, *viz* —

In the hands of—	General Fund
Warrant Officer—	Rs A P
Bill No 718 of 1884 85	114 4 0
Assessor—	
Bill No 714 of 1884 85	4 11 0
Engineer—	
Bill No 1310 of 1884 85	906 0 0
" 630 of 1886 87	46 6 0
Vice Chairman—	
Bill No 605 of 1885 86	69 9 0
" 1159 of 1887 88	407 6 0
" 1561 of 1887 88	8 3 9

These should, if possible, be either settled during the current year or finally removed from the accounts

Special attention should be given to the realisation of the bills of 1890 91 included in the outstanding balance during the current year, as otherwise they will become irrecoverable under the Limitation Act by the 31st March 1894

11 The outstanding consolidated rate bills on the 31st March 1893 amounted to Rs 4,55,150 11-11, distributed as follows —

	Rs A P
Collector	66,175 8 0
Joint Collector	15,232 5 3
Warrant Officer	2 76,094 4 9
Assessor	97,648 9 11
	4,55,150 11 11

but the departmental returns from those officers are as follows:—

	Rs	A.	P.
Collector	66,175	8	[illegible]
Joint Collector	15,232	5	3
Warrant Officer	2,76 068	10	3
Assessor	97,695	2	2
	4 55,171	9	8
Total as per departmental returns	4 55,171	9	8
" annual account	4,55 150	11	11
Difference	20	13	9

This difference is the net difference of the following officers —

Warrant Officer—

Total as per annual account	2,76 094	4	9
" departmental return	2,76 068	10	3
Difference	25	10	6

Assessor—

Total as per departmental return	97 695	2	2
" annual account	97,648	9	11
Difference	46	8	3
Assessor's difference more	46	8	3
Warrant Officer's less	25	10	6
Net difference	20	13	9

and these same differences were noticed two years ago in paragraph 11 of our report on the accounts of 1890 91 As the net amount involved is small, we suggest that the Account Depa ment should write these differences off during 1893 94, so as to bring their accounts into harmony with those of the depart mental officers

12 The outstanding arrear house-rate bills on the 31st March 1893 amounted to Rs 2,560-9 5, distributed as follows —

	Rs	A	P
Joint Collector	3	12	0
Warrant Officer	1 061	2	8
Assessor	1,495	10	9
	2,560	9	5

but the departmental returns from those officers are as follows —

Joint Collector	3	12	0
Warrant Officer	1,079	4	5
Assessor	1,504	14	6
	2,587	14	11
Total as per departmental return	2,587	14	11
" annual account	2,560	9	5
Difference	27	5	6

This difference is the total of the differences of two officers —

Warrant Officer—

Total as per departmental return	1,079	4	5
" annual account	1,061	2	8
Difference	18	1	9

Assessor—

Total as per departmental return	1,504	14	6
" annual account	1,495	10	9
Difference ...	9	3	9
Warrant Officer's difference	18	1	9
Assessor's "	9	3	9
Total of difference ...	27	5	6

These differences should be adjusted before the close of the current year, and in order that the adjustment between the Account Department and the departmental officers should be accurate, we suggest that the actual stock of bills in the hands of the Warrant Officer and the Assessor should be taken at once by the Personal Assistant to the Vice-Chairman

13 The outstanding night-soil fees on the 31st March 1893 amounted to Rs. 1,099 13-2, distributed as follows :—

	Rs	A	P
Joint-Collector ...	2	3	0
Warrant Officer ...	869	3	8
Assessor ...	228	6	6
	1,099	13	2

but the departmental returns are as follows —

	Rs	A	P
Point-Collector	2	3	0
Warrant Officer	869	3	8
Assessor	228	13	3
	1 100	3	11

	Rs	A	P
Total as per departmental return	1,100	3	11
" annual account	1 099	13	2
Difference	0	6	9

This difference is in the return of the Assessor —

	Rs	A	P
Total as per Assessor's return	228	13	3
" annual account	228	6	6
Difference	0	6	9

and this same difference was noticed two years ago in paragraph 13 of our report on the accounts of 1890 91 This difference should be adjusted during the current year and in order that it should be accurate, the stock of night soil bills in the hands of the Assessor should be taken at once by the Personal Assistant to the Vice Chairman

14 The outstanding Professional Refuse Fees on the 31st March 1893 amounted to Rs 7 8 as per the annual account against the Warrant Officer, but does *not* appear in the departmental return of that officer

This should be adjusted during the current year

15 The outstanding Market Rent Bills on the 31st March 1893 amounted to Rs 7,634 13 9, distributed as follows —

	Rs	A	P
Warrant Officer	35	15	9
Market Superintendent	7,598	14	0
	7 634	13	9

but no departmental return has been received of these bills from either of those officers

This same defect was noticed in paragraph 16 of our report on the accounts of 1890 91, but has not yet been remedied

The outstanding Arrear Water Police and Lighting rate bills on the 31st March 1893 amounted to Rs 1,154 3 11, distributed as follows —

	Rs	A	P
Warrant Officer	1,072	2	2
Assessor	82	1	9
	1,154	3	11

but the departmental returns from those officers are as follows —

	Rs	A	P
Warrant Officer	1 053	0	3
Assessor	75	6	0
	1 128	6	3

	Rs	A	P
Total as per annual account	1,154	3	4
" departmental return	1,128	6	3
Difference	25	13	8

This difference is the total of the differences of two officers —

Warrant Officer—

	Rs	A	P
Total as per annual account	1,072	2	2
" departmental return	1,053	0	3
Difference	19	1	11

Assessor—

	Rs	A	P
Total as per annual account	82	1	9
" departmental return	75	6	0
Difference	6	11	9

	Rs	A	P
Warrant Officer's difference	19	1	11
Assessor's "	6	11	9
Total of differences	25	13	8

This difference should be adjusted during the current year and in order that the adjustment be accurately made the stock of bills in the hands of both officers should be taken at once by the Personal Assistant to the Vice Chairman

16 No stock lists are apparently prepared of the stock of articles in the following departments —

Printing Department for presses, types, &c, Gowkhanah Department for live stock, rolling stock, tools and implements, &c

Health Officer's Department for Library, Laboratory instruments, fittings, &c

All departments for iron safes, Chubb's locks, money scales, office furniture, &c

The cost of the above articles has been debited to revenue year by year, and no transfer has ever apparently been made to the Block account

Engineer's Department for surveying and mathematical instruments, Library, tools and implements, &c, for construction of works

Surveyor's Department for surveying and mathematical instruments &c
Road Department for tools and implements, &c, for construction of works
Conservancy Department for tools and implements, &c, all the Pumping Stations, for tools and implements for repair work

The cost of the above articles has been charged from time to time direct to works, and does not appear as distinct items in the Block account

This defect should be remedied as soon as possible We have therefore to suggest that stock should be taken at once of the articles mentioned above, and the value transferred to block under distinct heads, so that the total value of the stock of each head may be seen at a glance, and also that the articles enumerated in each stock list are in actual existence from year to year A percentage should be written off the value each year for depreciation and debited to revenue, the cost of any new articles added during the year, if met from revenue, should be transferred to the Block account at the close of the year

17 In paragraph 4 of our note on the accounts of 1891 92 we observed that bills paid by cheque did not bear the signature or initials of the Vice Chairman to the payment order, and it was suggested that every bill passed for payment should be signed or initialed by that officer Our suggestion, however, has not been carried out

18 In paragraph 6 of the same note it was observed that payments were frequently made on letters or memoranda without requiring the preparation of bills in proper form, and we suggested that no sum should be disbursed without a properly prepared voucher being presented Our suggestion, however, has not been acted upon

REVISED ADVERTISEMENT

A Dictionary of the Economic Products of India

BY DR GEO WATT, C I E,

Reporter on Economic Products

Published under the authority of the Government of India in the Revenue and Agricultural Department

The first five volumes and Vol VI, Parts I II III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing No 8, Hastings Street, Calcutta, and will be supplied to non subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made) packing and postage in India, 8 annas per volume, for England Rs 2 6 per volume For copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal vegetable, and mineral, each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular and European names, habitat or source, history, properties and uses (both chemical and industrial), trade statistics markets, &c The work is arranged alphabetically according to scientific nomenclature but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication Numerous contributors have however, furnished the results of new discoveries and confirmed the vernacular names so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B, and consists of 559 royal octavo pages, Vol II embraces the letter C in 689 pages, Vol III contains the letters D, F, F and half of G Vol IV latter half of G to middle of L, and Vol V contains the latter half of L to end of O, Vol VI, (which will consist of four parts) Part I, contains letters P to R The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF THE MUNICIPALITIES IN BENGAL DURING THE YEAR 1892-93

MUNICIPAL DEPARTMENT—MUNICIPAL

Calcutta, the 30th December 1893

RESOLUTION—No 4168M

READ—

The reports from the several Commissioners of Divisions on the working of the Municipalities in Bengal (except Calcutta) during the year 1892-93

Read again—

The Resolution reviewing the Divisional Commissioners' reports on the working of Municipalities during the year 1891-92

The following Resolution reviews the reports submitted by Commissioners of Divisions on the working of Municipalities during the year 1892-93 The table given in the margin shows that there was again great delay in the submission of the reports, the last having been received more than six weeks after 31st July, the prescribed latest date The Government of India insist on the punctual submission of the Provincial statistics, and this is obviously impossible unless the Divisional Reports are received in good time The delay is attributed in most cases to the non-receipt of correct and complete information from the municipalities, and steps should be taken to provide against this recurrent shortcoming The Commissioner of Burdwan, Mr Power, recommends that, the orders issued at various times for the preparation of the report and the statements should be embodied in the form of a manual, but the Lieutenant-Governor does not think that the orders have yet become so complicated as to render this necessary, it would probably be sufficient if the Divisional Commissioners were some time before the close of the year to draw the attention of Chairmen to the necessity for the punctual submission of reports and at the same time refer them to the various Government orders on the subject

2 *Amendment of the Bengal Municipal Act, III of* 1884 —The Government of India having accorded sanction to this measure, the Bill to amend the Bengal

Municipal Act, III of 1884, was introduced in the Bengal Legislative Council in July 1892, and it was at once referred to a Select Committee, by whom numerous additions and alterations were made, some of which involved important questions of principle It was then, in accordance with the recommendation of the Select Committee in their preliminary report, republished for general comment, both official and non-official The opinions thus invited disclosed a good deal of opposition to certain of the provisions embodied in the Bill, on the ground that they tended to interfere with the principles of local self government. Sir Charles Elliott took note of these objections, and as he has no wish to insist on reforms distasteful to the majority of those concerned, where the administration can be satisfactorily carried on without taking such a step, he formally withdrew, in a speech made at a meeting of the Legislative Council held towards the beginning of January, 1893, some of the provisions of the Bill against which hostile criticism had chiefly been directed The other points objected to by the public were left to the consideration of the Select Committee, to whom the opinions received were communicated When proceedings had reached this stage the reorganisation of the Legislative Council on a mixed basis of election and nomination was in progress, and it was decided not to proceed with the Bill till the Council, and with it the Select Committee on the Bill, had been revised and enlarged Nothing further therefore could be done before the close of the year

3 *Number of Municipalities* —The total number of municipalities in existence during the year was 146, or one more than in the previous year This increase was due to the establishment, with effect from 1st April 1892, of a new municipality at Patuakhali in the district of Backergunge The municipality has been included both in the first and second schedules of the Act, so that the Commissioners—nine in number—are all appointed by Government, and their Chairman also The population of the new municipality consists of 4,885 souls, of whom 875, or 17 9 per cent, are tax payers

4 *Population and rate-payers* —The statement in Appendix A shows the date of establishment of each municipality in the Province, the population within municipal limits, and the actual number of rate-payers in each municipality The inhabitants of the 146 municipal towns number 2,731,182 persons, and even including Calcutta the municipal population bears a much smaller proportion* to the total population of these provinces than it does in any of the large provinces of the empire as shown by the recent census The following table classifies by the number of their population the towns in which the Municipal Act is in force —

	Percentage of urban to total population *
Bengal	4 8
Madras	9 9

5 The total number of rate payers was 464,800, representing only 17 01 per cent of the municipal population The percentage varies from 34 4 in Birnagar, a small town in the Nadia district, to 8 3 in the Cuttack Municipality, which is remarkably low for so important a place, forming the head-quarters of a district and of a Division The municipalities named in the margin, which are also the head-quarters of districts, show very low figures, and although in a certain limited number of places, of which Raniganj is an instance, the small percentage of rate payers (9 8) may be accounted for by the presence in the town of a large number of day-labourers who pay no rates on holdings, the Lieutenant-Governor can hardly avoid the conclusion that at all events in the towns named in the margin many people who are properly liable to assessment have escaped taxation, more especially in those municipalities such as Bankura, Darbhanga,

Bankura	12 8
Darjeeling	11 3
Dacca	11 7
Muzaffarpur	12 7
Darbhanga	9 7
Motihari	11 3
Monghyr	12 1
Bhagalpur	10 7
Hazaribagh	12 4

Motihari and Hazaribagh, where the personal tax is in force. The Commissioner of the Orissa Division correctly observes that it cannot be believed that there is a greater proportion of poor people in the town of Cuttack than in those of Jajpur and Kendrapara in the same district, where the percentages are 17·1 and 18 0 respectively

6 *Elective System, and results of Elections held during the year*—The system under which two-thirds of the total number of Commissioners fixed for each municipality are elected, by the rate-payers is in force in 118 municipalities, whilst in 122 cases the Commissioners enjoy the privilege of electing their own Chairman In the few remaining towns Government has reserved to itself the power of appointing the Commissioners or the Chairman as the case may be, owing either to the backwardness of the locality, or to protect the interests of the public in places where party feeling runs high It is only in 15 municipalities that Government exercises complete control in the appointment of both Commissioners and Chairman

7 General elections were held in the municipalities of Cossipore-Chitpur and Maniktala in the district of the 24-Parganas all the elections were contested except in one ward of Cossipore-Chitpur. The attendance of voters ranged between 85 8 and 24 9 per cent, the average being 61 3 in the former and 29 3 in the latter municipality in every 100 of the total number of electors qualified to vote The results of the bye-elections held during the year, as also of the general elections mentioned above, are shown in detail in the statement in Appendix B There were in all 88 bye-elections, of which 43 were uncontested, the percentage of attendance of voters varied in the contested cases from 85 8 at Cossipore Chitpur to 2 3 at Baduria Two only of the bye-elections failed—one at Berhampore in consequence of the failure of the electors to nominate a candidate within the prescribed time, and the other at Cuttack owing to the non-attendance of voters In twenty of the bye-elections only did the proportion of voters reach one-quarter of the number actually entitled to the privilege The Lieutenant-Governor agrees with the Presidency Commissioner in thinking that the low percentage of attendance in the majority of cases indicates that the average voter sets but little store by the privilege of the franchise, or else has very little preference for one candidate over another

8 *Constitution of Committees*—The following table shows separately for each Division, the constitution of the Committees of the municipalities it contains together with the professions or occupations of their members —

Name of Division	Number of Members			Race		Occupation or Profession

The proportion of members of the legal profession is highest in the Chittagong, Chota Nagpur and Dacca Divisions, where it is 38 3, 35·4 and 34·9 per cent., respectively. In the Burdwan and Presidency Divisions the percentage of this class is only 20 7 and 14 9 respectively. The landholding class are best represented in the Patna Division (28 8 per cent.), the Presidency (26 2 per cent)

Burdwan (24 2 per cent), and Dacca (20 0 per cent) The percentage for the whole province of officials and of Europeans respectively has varied but little, while that of merchants and money-lenders has risen nearly 2 per cent

9 *Attendance at Meetings*—The statistics regarding the number of meetings held by each municipality, the number postponed or adjourned owing to the absence of a quorum, and the average percentage of attendance of Commissioners at each meeting, have under recent orders been included in Form I, and the special table for the purpose appended to previous resolutions has been discontinued The total number of meetings held during the year was 2,534, of which only 228, or 9 per cent had to be adjourned The largest number of meetings during the year in any municipality was thirty nine, held by the Municipal Commissioners of Ranaghat, but fifteen of these meetings had to be adjourned In Kumarkhali thirty-eight meetings were held, all of which were successful, and no adjournment was necessary In each of the following forty-one municipalities the number of meetings held exceeded twenty —

10 In 1891-92 thirty-seven municipalities attained this standard, against twenty in 1890 91. It is also noticeable that only fifteen municipalities (five of which are in the Presidency Division alone, and none in the Rajshahi, Chittagong, and Orissa Divisions) held less than one meeting a month, against twenty-two municipalities in the year preceding The worst cases of default as regards the small number of meetings held are noted in the margin The Commissioner of Burdwan reports that out of nineteen meetings held at Vishnupur and eight at Kotrang, eleven and five respectively were abortive owing to the absence of a quorum The small number of meetings held by the Municipal Commissioners of Khulna is due to the protracted illness and death in December last of Dr K D Ghose, then Chairman

	Number of meetings held
Jagdispur	5
Tangail	7
Kotrang	8
Khulna	8
Nadia	8
Jamalpur (in Monghyr)	8

11 As regards the percentage of attendance of Commissioners at the meetings, the results compare very unfavourably with those of the previous year It was only in eighty-six municipalities against one hundred and two in 1891 92 that the attendance was more than 50 per cent, whilst in three cases, viz, Chatra, Daltonganj, and Jhalda in the Chota Nagpur Division, the attendance reached the absurdly low figures of 8 2, 4 0, and 4 5 per cent respectively of the total number of Commissioners No explanation has been given of these extremely unsatisfactory results, which seem to show that there is something radically wrong with the working of the Municipal Act in these towns the Commissioner of the Division will be asked to submit a report on the subject By far the highest percentage of attendance was attained in the Buxar and Jagdispur Municipalities in Shahabad, where it is shown to have been 83 3 and 82 2 respectively, or 8 per cent better than in any other town, the highest percentage of the previous year was 87 5 The lowest percentage in 1891-92 was 30 7 at Ranchi, while in the year under review no less than five municipalities have returned smaller figures These figures show a falling off from those of the previous year, but the Lieutenant Governor trusts that the fluctuation is due only to accidental causes and not to any real decline in the interest of the Commissioners in their duties

12 *Ward Committees*—The opinion of local officers appears generally unfavourable to the formation of Ward Committees, as tending to decentralize and weaken the executive power of the Chairman The Commissioner of the Presidency Division, however, says that he has found them extremely useful as standing Sub Committees for special enquiries and for carrying out special work The system has been extended to very few municipalities during the year under report, and even the plan recommended in the Resolution of 1891-92 of issuing to the Commissioners counterfoil books for reporting to the Chairman irregularities brought to their notice does not appear to have been generally adopted The Lieutenant-Governor desires again to commend the subject to the attention of Municipal Commissioners, for even where regular Ward Committees have not been constituted with the full powers contemplated by the Act they can be very usefully employed in the manner and to the extent indicated by Mr Westmacott

13 *Assessments*—The statement in Appendix C shows the mode of assessment prevailing in each municipality in the province, *i e*, whether it is a rate on holdings or a tax on persons according to their circumstances and property within municipal limits, the percentage at which the tax was levied, and the result of any revision of assessment made during the year. As in the previous year, the rate on holdings was in force in thirty-six municipalities, and it was levied below the legal maximum (which is, with two exceptions, 7½ per cent on the annual value of holdings) in the twelve towns mentioned in the margin. It is

Name of Municipality	Rate of tax	
Hooghly and Chinsura	6¼	
Krishnagar	6	
Ranaghat	6¼	
Santipur	6¼	
Darjeeling	6	The legal maximum for these two municipalities is 10 per cent on the annual value of holdings
Dacca	8	
Naraingunge	6¾	
Monghyr	6¼	
Jamalpur	7	
Bhagalpur	7	
Purnea	6

obvious that these towns cannot plead the want of funds as an excuse for their failure to carry out sanitary or other improvements. It is satisfactory to notice, however, that the Municipalities of Darjeeling, Naraingunge, and Bhagalpur have so far realized their responsibilities that they have increased the rates of taxation by ½, ¾, and 2 per cent respectively. The Commissioners of the Suri Municipality increased the rate of tax on persons by ⅛ per cent.

14. The average incidence per head of municipal taxation of all kinds throughout Bengal (excluding Calcutta) was Re. 0-12-8 as shown in Form II against Re. 0-12-4 in the previous year. The incidence of taxation amounted to one rupee or upwards per head of the population in the twenty-nine municipalities in the margin. The Rajshahi Division shows the highest taxation generally, as out of eleven municipalties in the Division the names of nine appear in the table above, whilst on the other hand none of the towns of the Patna, Bhagalpur, Orissa and Chota Nagpur Divisions find a place in it.

* The incidence in 1891-92 was only Re. 0-11-1.

15. It is strange that in important cities such as Patna and Bhagalpur, where money is urgently needed for carrying out improvements, the incidence of taxation should be so low as Re. 0-11-5 and Re. 0-12-10 per head of population, when in the small market towns of Nalchiti and Jhalakati in the district of Backergunge it amounts to Re. 1-1-1 and Re. 1-4-11, respectively. No doubt percentages are frequently misleading, and allowance must be made for variations in the material condition of the people in different places, but it is also true that, speaking generally, the need for improvements is proportionately much greater, while the inhabitants are comparatively more prosperous in large than in small towns. Considering their importance, the following towns seem to have been very lightly taxed:—

Name of Municipality	Incidence of taxation	Name of Municipality	Incidence of taxation
	Rs. A. P.		Rs. A. P.
Bankura	0 6 10	Cuttack	0 10 11

Chapra	0 7 2	Daltonganj	0 6 10
Motihari	0 7 7	Purulia	0 8 8
Monghyr	0 10 7	Chaibassa	0 7 3

In sixty-three as compared with sixty-seven municipalities in the previous year, the incidence amounted to 8 annas or less per head, and it was lowest in Ramjibanpur in the Burdwan Division and at Jagdispur in the Patna Division (Re. 0-3-3).

16. The general or partial revisions of assessment that came into force during the year resulted in an increase of income in thirty six and a loss in twelve municipalities. The largest increase occurred in the municipalities of Hooghly and Chinsura (Rs. 2,132), Howrah (Rs. 8,152), Cossipore-Chitpur

(Rs 5,326), Baranagor (Rs 2,269), Pabna (Rs 2,380), Naraingunge (Rs 3,085), Nasirabad (Rs 2,365), Patna (Rs 5,713), and Bhagalpur (Rs 4,302) The largest reduction, viz., Rs 896 was at Maniktola, due to reduction of assessment by the Appellate Committee The following remarks of the Magistrate of Darbhanga on the subject of the revision of assessment in the Darbhanga Municipality deserve reproduction —

"Although the number of poor people in Darbhanga is very large, there is no doubt that generally the assessments are unduly light Rich men do not pay what they should One of the main causes of this undoubtedly is the system under which the assessment is made, viz, that the Commissioners of each ward assess only their own wards Although this system may be correct in theory, it does not work well in practice, as the Commissioners have not a perfect faith in the assessment made by their fellows, and accordingly do not like to appear extra-strict in the assessments made by themselves on their own neighbours and friends The appointment of a Government Assessor is a great desideratum in Darbhanga"

17 In the Patna Municipality a number of inconsistencies in the matter of assessment having come to the notice of the District Magistrate, the Municipal Commissioners have, on the advice of that officer, appointed an experienced special assessor for the work This wise measure is expected to have a very beneficial result, and it is hoped that other municipalities will follow the example thus set to them, for there can be no doubt that even with the best intentions Municipal Commissioners frequently fail in the difficult task of making a uniformly fair assessment Mr. Brajendra Nath De, Magistrate of Khulna, no doubt represents the facts accurately when he writes that they "generally commence the work of revision with an earnest desire to do it properly, but by the time they complete it, and, especially during the hearing of objections, their zeal and earnestness evaporate more or less completely, and they succumb to the various influences that are brought to bear on them"

18 *Demands, collections, remissions and outstandings on account of taxes* —The statement in Appendix D shows for each municipality the demands, collections, remissions and outstandings for all sorts of taxes taken together The total demand, including arrears, amounted to Rs 26,73,682, of which Rs 21,25 283, or 79 4 per cent, were collected, and Rs 1,22,756, or 4 5 per cent, remitted, leaving an outstanding balance of Rs 4,25,643, being about 16 per cent of the total demand The arrear demand has slightly increased having been Rs 4,21,006 at the beginning of the year The current demand was Rs 22,52,676, of which Rs 18,60,231, or 82 5 per cent, was realised, against 80 per cent in the previous year, whilst of the arrear demands 62 9 per cent was realised against 67 1 in 1891-92 The table below shows the percentages of collections attained by the municipalities in the respective Divisions, as compared with the previous year —

The Dacca and Chittagong Divisions have more than maintained their position of the previous year, whilst those of Rajshahi, Patna and Chota Nagpur also exhibit a praiseworthy advance, but in the important Divisions of Burdwan and Presidency the results are again bad The municipality which occupies the solitary place in the last group in the statement above is Maniktala, where the collections amounted only to 41 3 per cent

19. The result of the collections in the twenty municipalities named in the margin shows what can be done with careful administration The percentage of collections in every case exceeds 96, the remissions were less than 1 per cent, and the balance at the close of the year was small, in five cases there was no balance at all, and at the same time the remissions were less than 1 per cent The following statement shows the other side of the shield, and gives the twelve towns where the remissions amounted to more than 10 per cent —

In the Resolution on Municipal Administration in 1891-92 the Lieutenant-Governor called the attention of Divisional Commissioners to the danger of a tendency towards clearing off outstanding balances by wholesale remissions The figures for 1892-93 give less ground for suspecting such a tendency, though the remissions in Balasore are extraordinarily large on the contrary, the statement above shows that in many cases large remissions and heavy outstanding balances go hand in hand The results in the South Suburban Municipality and in Nadia are discreditable, and the excuses given are insufficient In fact, the position of the Commissioners of a municipality in which large remissions have continually to be made is illogical and indefensible, for it is clear that in such a case either the assessment is bad or the work of collection is neglected There is probably much truth in what Mr Duke, the Magistrate of Hooghly, says on the subject —"There is no desire in most municipalities to collect completely or punctually, and this apathy I suspect to be largely due to a consciousness of the incorrectness or unfairness of the assessment"

20 Although, considering the subject of collections in its entirety, the Lieutenant Governor finds that the result of the past shows some improvement over that of the previous year, the result is yet far from satisfactory, and His Honour hopes that Commissioners of Divisions and District Officers will continue to devote particular attention to the subject of collections, since it is impossible for municipal administration to be successfully carried on if the demand is not punctually realised

21 *Fresh imposts levied during the year* —License fees on offensive and dangerous trades were for the first time levied, under section 261 of the Act, at Dacca and Raniganj a tax on professions and trades, under the above section, was also levied at Kotrang The latrine tax was levied in Bankura from the second quarter of the year, and was also imposed for the first time in the municipalities of English Bazar, Utterpara, Kumarkhali, and Sherpore (Bogra) Fees on the registration of carts were levied at Jahanabad and

Madhubani, and a tax on carriages and on horses was imposed in the latter municipality The Municipal Commissioners of Debhata in the district of Khulna realised for the first time tolls at a ferry over a *khal* within their jurisdiction, to the levy of which they had obtained sanction in the preceding year

22. *Extension of various provisions of the Municipal Act and Bye laws sanctioned during the year* —The conservancy and other provisions of Part VI of the Act were extended entirely or partially to the Municipalities of Kotrung, Serampore, South Suburbs, Taki, Brahmanbaria, Siwan, Dacca, and Jajpur. The provisions of Part IX of the Act relating to the construction and cleansing of latrines were extended to the entire area of the Uttarpara Municipality, and to portions of the Municipalities of South Barrackpore, Krishnagar, and Kumarkhali The provisions of Part IX of the Municipal Act (cleansing of latrines), which were in force in only three wards of the Balasore Municipality, were extended to the remaining three wards, but ultimately the Commissioners were compelled to withdraw these provisions from the entire municipality as it was found that they caused real hardship to the majority of the rate-payers, and the tax was remitted with retrospective effect from the beginning of the third quarter of the year under review Bye laws framed under section 350 of the Act by the Commissioners of the Gobardanga, Hajipur, and Sitamarhi Municipalities were confirmed during the year The new Hackney Carriage Act was extended to the municipalities of Hooghly, Chinsura, Serampore, Bhadreswar, Baidyabati, and Utterpara

There is a total discrepancy of Rs 1,422 between the closing balance of 1891-92 and the opening balance of 1892-93, mainly owing to the writing off, under the orders of the Lieutenant Governor, of a sum of Rs 1,500 claimed by the Colgong Municipality as due from Government on account of certain balances since the year 1878 79 The other differences are slight and are due to revised figures having been shown in the present accounts The Lieutenant-Governor observes that in a large number of municipalities, the names of which are given below, the accounts for 1892 93 closed with unduly large balances, as compared with the income during the year —

Except in the few cases in which the money has been allowed to accumulate in order to the carrying out of drainage projects, these large balances suggest, in the opinion of the Lieutenant Governor, inefficient control over works and expenditure, and he trusts that in future successful endeavours will be made by the Municipal Commissioners to fully utilise their income It would appear unnecessary in any case to reserve more than 10 per cent of the year's income as the working balance for the succeeding year, unless funds are being accumulated for some specific purpose

INCOME

24 It is satisfactory to notice that there was a total increase of Rs 2,39,091, in the income of the municipalities or, excluding the increase of Rs 23,677 under debt and suspense heads, a net increase of Rs 2,15,414

26 Thus the total income from taxation during 1892-93 shows an increase of Rs 79,197, or 3 7 per cent over that of the previous year, as against an increase of 5 2 per cent during 1891-92 The increase in the five Divisions named in the margin ranged between 16 0 and 4 5 per cent of the previous year's income, whilst there was a falling off in the remaining four divisions, varying from 7 4 per cent in the Chittagong Division to 4 per cent in the Patna Division In the Presidency Division there was a falling off in all the districts except Jessore,

where there was a small increase of Rs 307, the total income of the Division showing a falling off of 4 4 per cent Of the five municipalities in the Chittagong Division, three show a falling off, viz, Chittagong, Cox's Bazar, and Brahmanbaria, in the first of which the income was reduced by Rs 4,332 It may, however, be remarked that the comparison of the figures under this head for any two years does not correctly show whether the income is in fact increasing or declining, owing to the variations that occur from year to year in the actual amounts collected But the figures in column 6 of the statement given above, which refer to five years, show that, on the whole, there has been a steady increase in the income from taxation in all divisions except in Chittagong Omitting the figures for the Presidency Division for all the years, we find that the income, which amounted to Rs 14,90,590 in 1888-89, has been increased by Rs 2,48,321, which is equivalent to a percentage of 4 1 per annum

27 The statement in Appendix E shows the details of income under each head separately for each Division as compared with that of 1891-92. The total receipts from the municipalities show an increase under all the heads, except three, as shown below —

Heads of revenue	Amount of increase		Percentage of increase
	Rs		
Taxation —			
Rate on houses and lands	18,775		2 4
Tax on professions and trades	4,641		20 1
Tolls on roads and at ferries	488		4
Water-rate	6,119		20 6
Lighting rate	456		1 2
Conservancy (including scavenging and latrine rates)	39,819		11 0
Miscellaneous (penalties, &c)	13,030		100
Total taxation		83,328	6 1
Realisations under special Acts	5,420		4 7
Revenue derived from municipal property and powers apart from taxation	20 765		7 5
Grants and contributions	81,177		75 2
Miscellaneous	28,855		18 8
Realisations of sinking fund for repayment of debt	6,054		100
Advances	19,866		13 9
Deposits	4,757		10 5
		1,66,894	22 3
Total increase		2,50,222	11 9

On the other hand, there was a decrease under the three following heads only —

Heads of revenue	Amount of decrease	Percentage of decrease
	Rs	
Tax on animals and vehicles	3,392	1 8
Tax on persons according to their circumstances and property	739	13
Loans	7 000	11 1
	11,131	1 3

There was thus as already stated an increase of Rs. 2,39,091 or 8 2 per cent in the total income under all the heads taken together

28 *Rate on houses and lands* —This rate is levied in thirty-six municipalities but as these, with a few exceptions, comprise the most important towns in the province, the total revenue from this rate amounts to Rs 7,97,804, against Rs 5,63,646 realised in the remaining one hundred and ten municipalities, where the alternative tax on persons according to their circumstances and property is in force. In none of the municipalities in the Chota Nagpur Division is the

rate on holdings in force The increase of Rs 18,775 in this rate was shared by five Divisions, viz, those of Burdwan, Rajshahi, Dacca, Bhagalpur, and Orissa, in the Presidency and Chittagong Divisions the revenue from this source largely decreased, while in the Patna Division it was almost stationary Better collections and in some cases the enhancement of existing assessments caused an increase in the income of all the municipalities in the Burdwan Division, where the tax is in force, except in the Hooghly and Chinsura Municipality The collections at Raniganj rose from Rs 7,094 during 1891-92 to Rs 13,950, while Burdwan and Howrah show large increases of Rs 3,035 and 7,167 respectively In the Rajshahi Division, the town of Darjeeling shows an increase of Rs 4,008, due to the raising of the rate of taxation from 5½ to 6 per cent on the annual value of holdings In the Dacca Division there was an increase in both the Dacca and Narayanganj Municipalities, that in the latter town, amounting to Rs 3,015, was due mainly to an enhancement in the rate Of the five municipalities in the Bhagalpur Division in which this tax is in force, there was an increase in all except Purnea, where there was a small falling off In Bhagalpur the large increase of Rs 6,019 was due to the tax being levied at a higher rate There was a slight increase in Puri, in the Orissa Division, due to greater energy in collection Among the seven municipalities in Presidency Division where a rate on holdings is in force, there was a large decrease in the municipalities of Cossipore Chitpur (Rs 1 260), Maniktala (Rs 4,303), South Suburban (Rs 2,114), and Santipur (Rs 6,461), whilst the remaining three show a slight improvement The decrease in Cossipore-Chitpur, as well as in Chittagong, is more nominal than real, as there were smaller arrears to collect during 1892 93 than in the previous year. The decline elsewhere was caused by short collections.

29 *Tax on persons according to their circumstances and property* —As an alternative to the rate on holdings this tax is in force in one hundred and ten municipalities, distributed among all the nine Divisions In the Rajshahi and Orissa Divisions the income increased by Rs 8,581 and Rs 1,855 respectively, in all the other divisions it decreased Among the municipalities there was an increase in revenue in forty, and a decrease in sixty-nine towns, excluding the newly-created municipality of Patuakhali It occurred chiefly in the municipalities of Bansberia (Rs 1,738), South Barrackpore (Rs 2,621), Rampur Boalia (Rs 1,470), Dinajpur (Rs 2,283), Darbhanga (Rs 1,439), and Jajpur (Rs 1,522), whilst in Lalbagh and Arrah the income fell off by Rs 3,198 and Rs 1,903 respectively Apart from such inconstant quantities as the amount of energy infused into the work of collection and the amount of arrears left from previous years, the decrease in the income from the tax is ascribed generally to the pressure caused by the high price of food grains, and the increase to revision of assessment, and in one case (Pabna) to an increase in the rate of the tax in some cases even the revision of assessment resulted in the reduction of income The Lieutenant Governor is also inclined to agree with the Presidency Commissioner that the results might be better if the collecting establishment were paid by commission instead of by fixed salaries, and His Honour would be glad to see the experiment introduced in those towns where the collections are now indifferent

30 *Tax on animals and vehicles* —The receipts from this tax rose considerably in the Rajshahi Division, notably in the Rungpur Municipality, where there was an increase, partly due to the collection of arrears from Rs 3,978 in 1891-92 to Rs 6,558 In the Dacca and Chittagong Divisions the revenue was almost stationary, and in the remaining six Divisions it fell off, the Presidency Division showing the largest decrease The general falling off is attributed either to dulness of trade during the year or to laxity of supervision The Lieutenant-Governor desires to invite attention to the following apposite remarks made by the Commissioner of the Presidency Division on the subject of levying fees on the registration of carts —

"There appear to be some very objectionable features in the taxation of carts, which are often taxed, not for plying regularly within a town, but for carrying agricultural produce to a bazar In fact, many of the municipalities are not towns at all, but consist only of a bazar and a group of villages, with a large area of arable land, and I doubt much whether it was ever the intention of the Legislature that carts should be taxed only for coming into such places A case is now before me in which a municipality, having by their taxation on carts driven trade to a place outside their limits, are applying to have their limits extended in order to include that place, an application which I do not view with

favour, as they show very little in the way of administration, and make no attempt at conservancy in the area now under their control, and therefore are scarcely entitled to ask that more should be made over to them In another case, that of Chanduria in the district of Khulna, out of a total income of Rs 2,300, Rs. 1,300 are raised by taxing the carts which bring in raw produce to a certain sugar factory To the taxation of carts regularly plying in a town, which, I presume, is what was intended by the Legislature, I see no objection, but I do see considerable objection to the tax as it is actually levied, where, in the first place, there is no town, and in the second, the carts are employed only on import into the place"

The real difficulty lies in the use in the act of the term 'habitually.' No hard-and fast rule can be given defining what should be considered to be habitual use, but the Lieutenant Governor is clearly of opinion that a cart which comes into a municipality once or twice a week on bazar days, but during the rest of the week is employed elsewhere, cannot equitably be taxed by the municipality

31 *Tax on professions and trades.*—The Presidency and Patna Divisions each show a large increase, which in the former Division was distributed in small amounts among several municipalities The Patna Municipality shows a large advance of Rs 4,238, no explanation of which has been furnished

32. *Tolls on roads and at ferries*—The income under this head improved in the Presidency, Bhagalpur and Orissa Divisions, while there was a falling off of Rs 10,588 in the Patna Division. Taking the case of individual municipalties, the receipts increased largely at Lalbagh (Rs 2,275), Dinajpur (Rs 1,212), Monghyr (Rs. 1,500), Bhagalpur (Rs 2,143), and Cuttack (Rs 2,736), whilst they declined at Muzaffarpur (Rs. 8,125), Chapra (Rs 1,414), and at Daudnagar, where the income fell off from Rs 1,153 in 1891-92 to Rs 204 during 1892-93 At Lalbagh the increase was due to the Jiyaganj ferry being taken under direct management, whilst in other places the increase is attributed either to competition among the bidders for the farm of the ferries or to the prompt collection of rents. The very large falling off at Muzaffarpur was caused by the opening of a bridge over the Little Gandak river by the District Board of Muzaffarpur, and the consequent closing of the Akharaghat ferry

33. *Water-rate*—This rate was levied only at Burdwan, Darjeeling and Bhagalpur. Although at Dacca the residents enjoy a filtered water supply, in accordance with the terms of the gift of the Nawabs, who paid Rs 1,50,000 towards the cost of the works, they are not required to pay any tax There was an increase of Rs 2,136 in Burdwan, due to better collections, of Rs 2,979 in Darjeeling, owing to the tax being raised ½ per cent, and of Rs 1,069 in Bhagalpur, owing to the realisation of arrears

34 *Lighting rate*—This is levied only in Howrah, where there was a small increase of Rs. 456 caused by an improvement in the system of collection.

35. *Conservancy (including scavenging and latrine rates).*—The increase of income under this head was distributed among the Divisions named in the margin, whilst in the remaining two Divisions (Presidency and Chittagong) there was a falling off of Rs. 5,311 and Rs 85, respectively. The large comparative increase in Patna is contributed by Patna city, and in the Orissa Division by all three head quarter municipalities. The following municipalities show the largest fluctuations in the receipts as compared with the previous year —

Division	Amount of increase	Percentage of increase
	Rs	
Burdwan	20,626	16 6
Rajshahi	8,011	17 3
Dacca	4 601	7 2
Patna	4,403	40 9
Bhagalpur	2,437	12 7
Orissa	5,208	60 9
Chota Nagpur	137	4 3

Name of Municipality	Amount of increase	Name of Municipality	Amount of decrease
	Rs		Rs
Burdwan ...	5,159	Cossipore-Chitpur ...	2,073
Raniganj .	1,642	Maniktala	2,003
Utterpara	1,580	South Suburban ...	2,459
Howrah . .	10,304		
Sherpur	1,218		
Rangpur ...	2,462		
Jamalpur (in Mymensingh)	1,371		
Patna	4,805		
Cuttack	4,217		

The latrine-tax was levied for the first time in the towns of Bankura, Utterpara, Kumarkhali, English Bazar (Malda), and Sherpur (Bogra). The increase in other places was due either to revised assessment as in Howrah, or to the realisation of arrear taxes, or to better collections. In Cuttack the increase was nominal, being caused by the fact that certain collections of the last quarter of 1891-92 were brought into account during 1892-93 The decrease in the Cossipore-Chitpur and Maniktala Municipalities was, as in the case of the tax on houses, due to inefficient collections. In the South Suburban Municipality the decline is nominal, being accounted for by the transfer to the proper head of an item wrongly credited under Conservancy in previous years.

36. *Miscellaneous (penalties, &c)* —This sub-head has been newly opened to show the penalties realised on the collection of arrear demands of taxes The total receipts amounted to Rs 13,030, and were largest in Patna, Dacca, Balasore, and Barisal

37 *Grants from Provincial and Local Funds* —The table below shows the grants received by municipalities from Provincial and Local Funds in 1892-93 and in the previous year —

In Government Circular No 7M, dated 31st January 1893, containing certain instructions for the preparation of Municipal Reports, Commissioners of Divisions were asked to show separately the ordinary annual grants received by municipalities, as also any special grants received for special purposes These instructions have not been followed in all cases, and the attention of the Divisional Commissioners is again drawn to the subject.

38 The Lieutenant-Governor has read with satisfaction the record in the Commissioners' reports of gifts of money or land made, and of works of public utility executed, by private individuals, within municipal limits The following instances of private munificence are specially deserving of acknowledgment —Lala Bangsa Gopal Chandó erected a town hall at Burdwan at his own cost, with the intention of making it over to the municipality, and also paid Rs 500 towards the cost of repairing the ward for females attached to the Burdwan Charitable Dispensary The untimely death of the donor prevented the transfer of the building to the municipality, but under the terms of his will, the executors will hand it over The People's Association at Baidyabati commenced erecting a building for the accommodation of *Ganga jatris* from the interior Babus Kanai Lal Khan and Uma Charan Khan excavated a large tank at Mankundu, and erected two pucka ghats for the use of the public at a cost of about Rs 5,000 Babu Sham Das Mandal constructed a pucka bathing ghat at Bhadresvar, at a cost of about Rs 7,500 Babus Kedar Nath Mukerjia and Tarini Charan Roy, who expended a large sum of money in constructing two masonry ghats in Bally, spent Rs 2,500 and Rs 1,750 respectively in erecting sheds over those ghats Babu Chuni Lal Khetri, of Calcutta, who owns some house property in the Bally Municipality, is constructing a masonry ghat on the Ganges, at a cost of Rs 8,000 In South Barrackpore a bathing ghat was erected by Babu Trannath Banerjee at a cost of Rs 30,000. In Naihati a contribution of Rs 9,000 was made by Srimati Monmohini Dasi for the construction of a ghat with a shelter on the bank of the river Hooghly, while a similar ghat was constructed by Pandit Rakhal Das Nayaratna at a cost of Rs. 2,500 The Sarada Prasanna Charitable Dispensary and a school at Gobardanga are maintained and managed solely by the local zamindar,

Babu Girija Prosonno Mukherjee, who is Chairman of the Municipality. Babu Ram Gopal Rakshit, a merchant, also maintains a charitable dispensary at his own expense in the Gobardanga Municipality The Narail zamindars have empowered the Chairman of the Jessore Municipality to re-excavate at their cost a tank belonging to them in the municipality, the Chairman estimates the expenditure at Rs 1,500 The owners of the Dighapatia estate in Rajshahi sent a cheque for Rs 1,000 for the re excavation of a tank belonging to them within the Jessore Municipality, and also paid Rs 1,755 to the Rampur Boalia Municipality for the excavation of a large tank in that town At Kandi there is a dispensary maintained by an endowment made by a member of the Paikpara family, whose ancestral residence is in that place In Debhata, a dispensary and library are maintained by the zamindars In Sirajganj, a substantial iron latrine, costing Rs 1,000, was presented to the municipality by the Manager of the local jute mill Babu Kali Kumar Mozumdar, the Sirajganj Jute Company, Limited, and Syed Hossen Uddin Ahmed have gratuitously given lands for the construction of four masonry wells in different parts of the town The Bogra Municipality received a subscription of Rs 1,973 in aid of the construction of the Municipal Middle Anglo Vernacular School building A masonry building, intended as a shelter for cremation parties, was constructed at the Bogra Municipal burning ghat by Babu Rajani Kant Majumdar, Chairman of the Municipality, in memory of his deceased daughter Raja Janaki Ballav Sen of Dimla, Chairman of the Rangpur Municipality, made a donation of Rs. 1,200 to the municipality towards the cost of the new Municipal Office building Some private gentlemen at Faridpur contributed Rs 1,500 for the construction of a masonry building for the female ward attached to the local charitable dispensary Raja Surjya Kanta Acharjee Bahadur, of Muktagatcha, paid to the Nasirabad Municipality Rs 65,000 out of his promised donation of Rs 1,12,500 for the construction of the Raj Rajeshvari water-works, and Rs 1,000 for the construction of a concrete drain in that town Srimati Bidyamoyee Debya Chaudhurain, of Muktagatcha, paid Rs 4,000 for the construction of a ward for females attached to the Nasirabad Charitable Dispensary Rai Abhoy Charn Mitter Bahadur, of Chittagong, has constructed a burning ghat at a cost of nearly Rs 2,100 Babu Raj Rajeswari Proshad Singh, zamindar of Surajpura, has given Rs 1,50,000, and Rai Jai Perkash Lall Bahadur, C I I., of Dumraon, Rs 25,000 for the construction of water-works at Arrah Messrs Burrows, Thomson and Mylne, of Bihia, contributed Rs 1,903 towards the maintenance of the Jagdispur dispensary, and of a middle class English school. Babu Nandan Lall, a zamindar of Muzaffarpur, contributed Rs 2,000 towards the cost of draining the town of Muzaffarpur Chowdhry Mohadeo Proshad of Nonpur, made a gift of Rs 2,000 for the construction of a cholera ward to be attached to the Sitamarhi dispensary, and has also promised to make a further grant for the purchase of a site for the purpose The late Maharaja of Bettiah constructed a hospital for females in the Bettiah town at a cost of about Rs 60,000, which was opened by His Honour the Lieutenant-Governor for the treatment of the sick on the 12th April 1893 Babu Udit Narain Singh paid Rs 6,000 to the Bhagalpur Municipality for the water-works in that town, out of his promised contribution of Rs 26,000

EXPENDITURE

39 The total municipal expenditure of the province (excluding Calcutta) was Rs. 31,21,532, against Rs 28,66,056 of the previous year, showing an increase of Rs 2,55,476 The total balance at the close of the year, as has been noticed above, was Rs 4,19,397, against Rs. 3,99,028 of the year 1891-92 The statement in Appendix F shows the percentage that the expenditure incurred under each of the principal heads in every municipality in the province bears to the total outlay (excluding debt and suspense heads) Taking the province as a whole, every Rs 100 of municipal expenditure was distributed as follows —Conservancy 29 07, Public Works 19 21, Establishment 11 3, Medical 9 47, Lighting 5 28, Education 4 6, Drainage 3 56, and Vaccination 65. The conditions of the different municipalities vary so much that it is unsafe to draw conclusions, except of a very general character, from the

Divisional statistics, but so far as efficiency may be inferred from expenditure, it appears that conservancy receives the greatest attention in the Presidency and Orissa Divisions, and is least cared for in those of Dacca and Chittagong. Upon public works the expenditure was comparatively highest in the Bhagalpur, Presidency, and Chittagong Divisions, while in those of Burdwan and Chota Nagpur it was much below the provincial average. The proportionate cost of establishment was highest in Orissa, Chota Nagpur, and Patna, and lowest in Dacca. Towards the medical needs of the people the greatest comparative liberality was shown by the Municipal Commissioners in the Chittagong, Chota Nagpur, Patna, and Bhagalpur Divisions, while the Presidency Division is last in this respect. In respect of education, on the contrary, the municipalities of this Division take the second place, being surpassed only by those of Chittagong. Extraordinary variations from the general average occur in individual municipalities which are due to special circumstances and will doubtless receive the attention of the local officers.

40. The abstract statement in Appendix G shows the details under each head as compared, Division by Division, with those of the previous year. The largest outlay was as usual incurred on conservancy (Rs. 8,41,573), roads (Rs. 4,10,297), hospitals and dispensaries (Rs. 2,74,125), office establishment (Rs. 1,89,831), lighting (Rs. 1,52,825) collection of taxes (Rs. 1,40,085), and public instruction (Rs. 1,33,275). A large sum of Rs. 2,16,467 was also spent in a small number of municipalities on improving the water-supply.

41. The chief differences in expenditure as compared with that of the previous year (excluding the debt and suspense heads) are the following:—

Increase

Heads of expenditure	Amount of increase	Percentage of increase
	Rs.	
Lighting	13,310	9.5
Water-supply	1,26,691	141.1
Drainage	8,370	8.8
Conservancy	41,208	5.1

42. *Office and Collection Establishment*.—The total cost on account of office establishment and collection of taxes and tolls shows an increase of only Rs. 2,597, or less than 1 per cent. as compared with the previous year, but the figures are misleading, for they have been reduced by the transfer to the proper head of account of Rs. 7,175 expended in Darjeeling on account of Public Works establishment, but wrongly credited in previous years to that of general establishment. Notwithstanding the remarks made in the Resolution on the working of Municipalities during 1891-92, expenditure on establishment has again increased in all Divisions except in Rajshahi. Almost all the Divisional Commissioners comment unfavourably on this tendency, and are fully alive to the necessity of opposing it. Little therefore will be gained by giving Divisional figures, but the Lieutenant-Governor desires to draw particular attention to the municipalities named in the margin, where the expenditure on office and collecting establishment alone exceeds one quarter of the annual income. A special enquiry should be made by the Commissioner into each of these cases.

43 *Lighting*—The total expenditure under this head increased from Rs 1,39,515 in 1891-92 to Rs 1,52,825. The increase occurred in all Divisions except Bhagalpur, where there was a slight falling off In Howrah the contract with the Oriental Gas Company expired, and negotiations were in progress for having the whole town lighted by electric light The Commissioners of both the Presidency and Patna Divisions are opposed to money being spent in lighting the streets of rural municipalities where there is no night traffic, and recommend that in such localities the Municipal Commissioners should content themselves with supplying lanterns to the police The Lieutenant-Governor doubts if any Municipality can be properly described as having no night traffic, and is under the impression that the provision of street lamps is highly valued by the inhabitants

44 *Water-supply*—Rs 2,16,467 were spent in improving the water-supply, as compared with Rs 89,776 in the year 1891-92 This large increase was shared by all the Divisions except Rajshahi, where there was a falling off of Rs 4,236 It was most noticeable in the Burdwan and Dacca Divisions, where it amounted to Rs 48,753 and Rs 69,237 respectively In the former Division the increase amounted to Rs 35,079 in the Municipality of Burdwan and Rs 11,338 in Howrah At Burdwan the Commissioners are taking measures to extend and improve the water-supply in the town, and with this object they spent Rs 37,356 chiefly in purchasing machinery for the extension of the water-works The Municipal Commissioners of Howrah acquired a tank at a cost of Rs 8,000, and spent Rs 3,411 in sinking wells and in filling tanks with water from the river during the hot season when water was scarce A large scheme for the supply of filtered water to the town was still under the consideration of Government at the close of the year The Commissioners of the Hooghly-Chinsura Municipality spent Rs 1,472 in sinking a well, in re excavating and leasing tanks and in repairing tube wells The East Indian Railway Company having resolved to make Hooghly a main pumping station, and to draw water there from the river, the Chairman of the Municipality, acting on the Commissioner's suggestion, asked the Agent of the Company to allow large tanks situated at convenient distances from the main channel to be filled by means of branch pipes, the Municipality paying for the water the Agent has expressed willingness to comply, but the exact terms have not yet been settled In the Dacca Division the large increase is due to the expenditure of Rs 92,177 on the construction of the Raj Rajeswari water works at Nasirabad, the gift of Raja Surjya Kanta Acharjee Bahadur the work was in progress, but not completed during the year The falling off in the Rajshahi Division was due to the completion of the water-works at Kurseong and to less capital expenditure having been incurred in the extension of the water works at Darjeeling In the Presidency Division the expenditure rose from Rs 2,655 to Rs 5,753, no expenditure at all having been incurred by thirteen Municipalities, among which are all those of the Murshidabad district and all those of the Khulna district, except the Khulna Municipality itself The increase occurred mainly in the Barasat, Jessore, and Khulna Municipalities The water supply at the latter place is good, thanks to the exertions of the late Dr K D Ghose, who arranged for the pumping up of water from tanks into reservoirs for settling The Cossipore-Chitpur Municipal Commissioners lately received from the Corporation of Calcutta Rs 12,700, being their share of the fund raised by the late Suburban Municipality for extending the Calcutta water-supply to the Suburbs, and this sum it is proposed to devote to the carrying out of a scheme for the supply of filtered water from the Falta water-works The Commissioners of the Maniktala Municipality obtained sanction to a loan of Rs 25,000 from Government for the purpose of supplying the town with filtered water from the Calcutta mains The Commissioners of the South Suburban Municipality also have applied to the Corporation of Calcutta for the extension of the filtered water-supply to the most important wards in the former, and negotiations on the subject are, it is reported, progressing A supply of good drinking water is still much needed in all the three municipalities in the district of Jessore as to the Jessore Municipality, the Commissioner reports that it is proposed to throw up an embankment which would convert the old bed of the Bhairab river into a lake, and this scheme is at present engaging the attention of the Sanitary

Board The question of supplying the town of Arrah with pure drinking water from the River Sone was fully discussed during the year, and a scheme set on foot by the Magistrate, Mr Skrine, has been finally sanctioned by Government. The Arrah Municipality and the District Board have each promised to contribute a lakh of rupees, and, as already stated, Babu Raj Rajeswari Pershad Singh, Zemindar of Surajpura, has paid Rs 1,50,000 and Rai Jai Perkash Lall Bahadur, C I E, of Dumraon, Rs 25,000 towards the project The work has commenced, and the contractors are under heavy penalties to deliver filtered water from the Sone river throughout the town on or before the 28th February 1894 At Gaya a sum of Rs 2,249 was spent in experimentally sinking a well in the bed of the Falgu river, to ascertain whether a sufficient current of water can be found beneath the sandy bed in the dry season Besides the municipalities mentioned in this paragraph, in several others expenditure was incurred in sinking wells, or excavating tanks, or improving existing wells or tanks, and in many towns wells or tanks were specially preserved from pollution The supply of pure water for drinking purposes is one of the first municipal needs of a town, and the Lieutenant-Governor fully agrees with the Commissioner of the Presidency Division that all municipalities should be required to provide for it, according to the resources and opportunities of each, either by the excavation of wells or tanks, if the supply is insufficient, or by protecting and reserving the existing sources of supply

45 *Drainage* —The four Divisions named in the margin incurred the increased expenditure noted against each, whilst the expenditure in the Chittagong Division was almost stationary in the remaining Divisions there was a falling off of expenditure The decrease was due mainly to the laudable desire on the part of the Municipal Commissioners to proceed cautiously on an approved plan after taking a proper survey and levels of the area to be drained The following Municipalities spent comparatively large sums on drainage —

Division	Amount of increase Rs
Orissa	7,1[illegible]6
Rajshahi	4,673
Dacca	1,948
Bhagalpur	1,174

	Rs		Rs

Rampur Boalia	6,695	Cuttack	2,139
Dacca	4,812	Puri	9,144

The reports show that the Municipal Commissioners are generally alive to the necessity for the improvement of drainage, and that several schemes are in various stages of progress Levels have been or are being taken in the towns named in the margin preliminary to the preparation of satisfactory drainage schemes In Serampur the new main channel to Konnagar, for which Government lent Rs 30,000, is approaching completion In Darjeeling nearly all the drains that receive foul water have been remodelled and made of concrete and cement or half-round glazed tiles In Rampur Boalia several culverts and a large drain were constructed to facilitate the flushing of tanks and ditches with river water, and the main drainage channels were overhauled and properly levelled The drainage scheme of the Patna Municipality was sanctioned during the year, and a loan of Rs 3,18,000 has been granted by Government to carry out the project the work has already been taken in hand, and is being pushed on vigorously under the supervision of the District Engineer The drainage of the town of Darbhanga is very defective, and a comprehensive scheme is much needed plans and estimates have, it is reported, been framed, but it is quite clear, as the Magistrate points out, that until the income of the municipality is placed on a proper footing, nothing further can be done Considering that this town takes the fourth place among the mufassal municipalities in point of population, the average incidence of taxation (Re 0-5-7) is extremely low, and the Lieutenant-Governor trusts that the Municipal Commissioners will see their way to increasing their income during the current year, or that they will at least raise the rate of tax (at present so low as

1 per cent.) with effect from the 1st April 1894 The improvement of the main drainage system of the town of Cuttack engaged the attention of the Commissioners during the year, but the Executive Engineer of the Puri Division, who was also a Commissioner, being consulted, reported that owing to the natural features of the town, no effective scheme of drainage was possible The Baradanda drainage work of the Puri Municipality, for which a loan of Rs 25,000 has been sanctioned by Government, was begun towards the close of 1891-92, Rs 15,000 were drawn during the year, of which about Rs 9,000 were spent

46 On the general question of drainage and water-supply in municipalities, the Commissioner of Burdwan writes —

"I am of opinion that the action of municipalities in respect of schemes for water-supply and drainage should at first be limited to an expression of their desire for some such general scheme and of the maximum expenditure they can afford in respect of it If the Sanitary Board considers the sum sufficiently large to justify action, then the work of execution, including preliminary surveys, plans and estimates, and supervision, should be left wholly to professional officers appointed by and responsible to that Board"

It is beyond question that the absence of professional supervision affords a great obstacle to the execution of these schemes of sanitary reform, but the Lieutenant-Governor considers it improbable that municipalities would agree to surrender the management of matters which concern their own welfare so nearly Moreover, if any policy such as that proposed by the Commissioner were adopted, it would be necessary very largely to increase the establishment at the disposal of the Sanitary Board at the cost not of Municipal, but of Provincial revenues, and this step the Lieutenant Governor is not at present prepared to take One solution of the difficulty, and perhaps the most practicable, lies in the adoption of the plan indicated in Government Resolution No 199T M, dated the 31st May 1893, namely, in arranging with the District Board that the work shall be carried on by the District Engineer and his staff The Magistrate of Nadia, Mr Bernard, has already made this arrangement, and strongly commends it The system is ordinarily more suitable to small schemes than to large, but it has been adopted for the supervision of the extensive operations in Patna, and apparently is working well. Mr Westmacott, the Commissioner of the Presidency Division, alludes to a further difficulty, namely, that the drainage schemes prepared by the Sanitary Board for small municipal towns are sometimes so expensive as to be utterly beyond the resources of the Commissioners This condition of affairs, the Lieutenant-Governor regrets to observe, is inevitable in many of the worst drained towns in Bengal In such matters perfection cannot be attained in a day The beginnings of reform must necessarily be small, but if the Commissioners follow some well-considered scheme, after careful examination as suggested above, it is certain that they will in the end achieve some solid result instead of allowing municipal funds to be frittered away according to the theories of the Chairman or Vice-Chairman for the time being.

47 *Conservancy (including road-cleaning and watering) and latrines*—The total expenditure on this item was Rs 8,41,573, against Rs 8,00,365 in the previous year Increased expenditure was incurred in all Divisions except those of Dacca and Chittagong, notably in the Patna, Burdwan, and Presidency Divisions, where it amounted to Rs 12,954, Rs 11,642, and Rs 7,210 respectively In the Burdwan Division the increase was shared by several municipalities, among which may be mentioned Howrah (Rs 6,056), Burdwan (Rs 2,154), Bankura (Rs. 1,075), and Utterpara (Rs 1,647), whilst the expenditure fell off by Rs 1,177 at Serampore and Rs 1,403 at Midnapore Although Part IX of the Municipal Act was extended to the Kalna Municipality several years ago, effect was given to it for the first time in 1892-93 Similarly, the Commissioners of Katwa and Bally Municipalities have shown most unwarrantable dilatoriness in levying latrine rates, no steps having yet been taken to impose the tax, although Part IX of the Act has been for some time in force in both these towns In the Presidency Division the Cossipore-Chitpur Municipality shows an increase of Rs 9,261 owing to the acquisition of a new trenching ground In the Rajshahi Division nine municipalities show an increase of expenditure on conservancy, which was due in Darjeeling to the remodelling of public latrines, in Rampur Boalia and Rangpur to the increase of conservancy establishment, and in Nator to the construction and improvement of the municipal

latrines The increase in the Patna Division was shared generally by the Municipalities in the Division, the advance being most marked at Muzaffarpur (Rs 1,999) and Patna (Rs 2,103) The purchase of ten patent iron latrines accounts for the increase in Muzaffarpur The Lieutenant Governor has perused with regret the following remarks by Mr Williams, the District Magistrate, on the conservancy arrangements of the town of Darbhanga —"This branch of the municipality is almost as bad as it can be The trenching ground is in the middle of the town, the refuse carts are old and out of repair, and the system of latrines is thoroughly inefficient, but it cannot be much improved till Part IX of the Municipal Act is introduced into the town" Considering the very low rate of taxation prevailing in Darbhanga, His Honour sees no reason why the provisions of Part IX of the Act should not be enforced, and desires that the Commissioner will submit a full report with his own views on the subject, for the information and orders of Government The conservancy arrangements of the Chapra Municipality are reported to be all that can be desired, and in Patna a number of the well-privies have been closed At Dacca an economy of Rs 3,304 was effected in cost of establishment and of feeding cattle

48 The ratios to total expenditure of the sums spent by the various municipalities on their conservancy arrangements, as shown in Appendix F, again display most remarkable variations The average expenditure throughout the province was 29 07 per cent of the whole against 30 1 in the previous year, and under this head the figures vary between 60 7 in Maniktala and 6 at Bazitpur in the district of Mymensingh The Lieutenant-Governor regrets to notice that in the twenty-one municipalities shown below, less than 10 per cent of their expenditure was devoted to this object —

Name of Municipality	Percentage of cost 1891-92	Percentage of cost 1892-93	Name of Municipality	Percentage of cost 1891-92	Percentage of cost 1892-93

Most of these municipalities spent very little on this account in the previous year also, and it is not satisfactory to find that so little improvement has been shown in this matter after particular attention was drawn to it in the Resolution for 1891 92 The Lieutenant Governor trusts that when scrutinising the next year's municipal budgets, Commissioners of Divisions will insist on proper provision being made for the conservancy and cleaning of every municipality

49 *Hospitals and Dispensaries* —The total expenditure under this head rose from Rs 2,58,514 in 1891-92 to Rs 2,74,125, the increase being contributed to by all the Divisions except Rajshahi and Patna, where there was a falling off of Rs 1,604 and Rs 381 respectively The statement in the margin gives the names of the towns where the expenditure varied much from that of the year 1891-92 The increase is attributed variously to the cost of repairs to buildings, to higher prices of food-grains during the year, to the purchase of instruments or furniture, to increments of pay to the medical officers in charge on passing the septennial examination, and to other causes In Howrah the Commissioners increased their contribution to the General Hospital

from Rs 200 to Rs 300 a month At Sahibganj a new building was constructed for the accommodation of the hospital In Bankura the fact that the charges in the previous year were unusually large owing to the construction of a masonry ward accounts for the falling off in the year under review Nineteen municipalities incurred no expenditure on this account, whilst four others spent less than Rs 100 each on medical charity For a comparatively small expenditure the plea may be urged that there are private institutions in the town supported by individual charity, but reliance should not be entirely placed on such assistance, and the Commissioner of the Division should enquire whether there is any valid excuse for entire absence of all contribution towards hospital provision in the municipalities named in the margin

The percentage of expenditure throughout the province was 9 17 of the whole, against 9 7 in 1891 92 In the municipalities named in the margin the percentage was excessively high, and the Lieutenant Governor desires that Commissioners will enquire whether it should not be reduced by inducing the District Boards to contribute some share to the cost of maintenance From Statement II it appears that at present only three of these towns receive any help from the District Board The Lieutenant Governor notices with satisfaction that the Municipal Commissioners of Chittagong have agreed with the District Board of Chittagong and the Port Commissioners to replace their present small hospital by a central hospital which will provide suitable accommodation for males and females, both Native and European, as also for the treatment of sailors from the port

50 There was no very marked advance made during year in extending medical aid to women The Burdwan Municipality spent Rs 32 on account of the salary of a midwife to be attached to the dispensary, who resigned in June, and a successor was not appointed until just before the close of the year In Uttarpara a passed female Hospital Assistant was entertained on a salary of Rs 30 a month A nurse for women was employed in the Faridpur Charitable Hospital, her salary being contributed almost entirely by the European residents of the place The Barisal Municipality also entertained a female assistant at the dispensary A satisfactory arrangement has been made at Monghyr by which half the pay of a female Hospital Assistant is to be contributed by the Municipality and the other half by the Committee of the Dufferin Fund The Dufferin Hospital at Darbhanga, maintained by the Maharaja, continues to do good work The foundation of a small zanana hospital at Khulna is projected, and at Berhampore and Kandi female hospitals have been started by private liberality To commemorate Sir Charles Elliott's visit to Chota Nagpur in November 1892, some of the leading zamindars of the Division have made liberal donations to the Countess of Dufferin Fund, to be expended in establishing zanana hospitals at Hazaribagh and Ranchi

51 *Female medical education* —The only municipalities which contributed towards the support of a female student at any Government medical school were those of Burdwan, Serampore, Rampore Boalia, Patna, and Dumraon In a few instances offers of scholarships were made, but no candidates came forward to claim them

52 *Vaccination* —The statement in Appendix II shows the result and cost of vaccine operations performed in the municipalities during the year under review Two hundred and fifteen vaccinators were employed at a cost of Rs 19,039, they performed a total number of 91,609 vaccinations, including 85,768 primary operations and 5,841 revaccinations, each vaccinator performing on an average 426 operations The highest average was attained in the Orissa Division, where it came up to 755, and the lowest in Chittagong, where it was only 219 As in the previous year, 3 1 per cent of the total municipal population received protection during the year besides those who were re-vaccinated

The provisions of the Compulsory Vaccination Act are in force in all the municipalities of the Province except Pirojpur, Patuakhali, and Raghunathpur, and arrangements are being made for the extension of the provisions of the Act to the last two towns There was only one prosecution under the Act, viz, at Kendrapara, where the offender was fined one rupee The average cost of each successful operation was three annas and one pie

53 *Public Works*—The expenditure under this head amounted to Rs 5,56,127 as compared with Rs 5,42,018 in 1891 92 The greater part of this sum, namely Rs 4,40,297, was spent on roads The expenditure on Public Works establishment was greater by Rs 14,108 than in the previous year Part of this increase is nominal, being due, as before stated, to the transfer to this head of account of Rs 7,175 spent in Darjeeling, which had been wrongly credited in previous years under "General establishment" The rest of the increase occurred chiefly in Dacca Municipality, where the expenditure under this head is shown to have been Rs 5,496, against nothing in the year 1891-92 No explanation of this sudden increase is given, but apparently it is due to the fact that the expenditure was wrongly shown in previous years under the head of "Roads" The outlay on buildings fell from Rs 55,025 in 1891 92 to Rs 46,358 No works of importance were completed during the year

54 *Public Instruction*—The total expenditure incurred by municipalities on public instruction, as shown in Form III, was Rs 1,33,275, against Rs 1,30,068 in 1891 92, showing an increase of Rs 3,207 All the Divisions contributed to the increase more or less, except those of the Presidency and Dacca, where a decrease occurred of Rs 539 and Rs 3,094 respectively The largest increase was, as in the previous year, in the Rajshahi Division, where it came to Rs 2,310 out of the eleven municipalities in that Division, eight show an increase, the largest difference being in Bogra, where the expenditure rose from Rs 1,820 in 1891-92 to Rs 4,141 This was due mainly to an expenditure of Rs 1,970 incurred on buildings and furniture for the local middle vernacular school, the maintenance and management of which were transferred by Government to the Municipality The large falling off in the Dacca Division was shared by thirteen municipalities, the expenditure at Sherpur having been reduced from Rs 1,284 to Rs 270, owing to the reduction of the municipal grants to secondary schools

55 The statement in Appendix I gives the details of expenditure incurred on education in each municipality The total expenditure as shown in the Appendix is Rs 91,504, against Rs 1,33,275, returned in Form III, whilst Subsidiary Table IV appended to the Provincial report on Public Instruction during 1892-93 shows the amount to have been Rs 84,581 (deducting Rs 425, the expenditure incurred in Calcutta) Since the issue of the last Resolution on Municipal Administration, attempts have been made to make certain of uniformity in the method of compilation of these statistics in order to remove the discrepancy noticed from year to year in the figures returned from the different sources The outcome of the correspondence which took place on the subject was that Commissioners of Divisions were instructed to exhibit in the special Appendix for Education to the Municipal Report, for which a new form was prescribed, the same figures as are included in Subsidiary Table IV appended to the Education Report This, however, has not been done in all cases, and there is a small discrepancy of Rs 5,925 between the two sets of figures, which appears to be due to the inclusion in Appendix I to the Divisional Report from Chittagong of an item of Rs 5,820 on account of the Chittagong Municipal School, which is reported to have been met from schooling fees credited to the Municipality, this item having been omitted from the statistics of the Education Department There are also some slight discrepancies in the figures for the Presidency, Rajshahi, Patna, Bhagalpur, and Chota Nagpur Divisions Care should be taken to avoid these discrepancies in future returns

56 The total actual expenditure on primary education was Rs 33,024 (total of columns 10 to 18 of Appendix I), against Rs 23,033 in 1891-92 This amount falls far short of the standard fixed by Government in paragraph 53 of the Resolution on Municipal Administration during 1891-92, viz, 3 2 per cent of the ordinary annual income of the municipalities during the year, for that would have amounted in 1892-93 to Rs 67,028, but the Lieutenant-Gover-

nor is glad to notice a substantial increase in expenditure, and he understands that the reports for the current year will show that the wishes of the Government in this matter have been fully complied with The increase of expenditure was shared by all the Divisions except the Presidency Division, where there was a slight falling off of Rs 233. It was most marked in the Burdwan, Patna and Bhagalpur Divisions, where it amounted to Rs 3,658, 3,783 and 1,280, respectively No expenditure was incurred on primary education in the seventeen municipalities named in the margin, no less than eight of which are in the Dacca Division The failure of Dacca, with an income of a lakh and a half of rupees, to spend anything on primary education should be specially enquired into and explained by the Commissioner

57 No satisfactory comparison can be made between the expenditure incurred on secondary education during 1892-93 and that incurred in the previous year, as the present statistics show, with one or two exceptions only, the net cost to municipalities on account of secondary schools maintained by them, whilst the gross cost was included in many cases in the previous year's returns A perusal of the Commissioners' reports shows that in accordance with the policy of Government in the matter, a general reduction has been effected in the municipal contribution to secondary education, with a more than corresponding increase in the grant for primary education The Commissioner of Burdwan has explained to the Commissioners of the small municipalities in his Division that their existing "grants to English schools should be reduced year by year until they disappear altogether"

58 No expenditure whatever was incurred on education in the Municipality of North Dum-Dum in the 24-Parganas and in the newly created Municipality of Patuakhali in Backergunge The names of these towns have been omitted from Appendix I

59 *Loans* —Although considerable activity has been displayed by municipalities in preparing schemes for water supply and drainage for which loans were sanctioned in several cases, the amount actually advanced as loans during 1892-93 was Rs 56,000, against Rs 63,000 in the previous year The statement in Appendix K shows the loan transactions of municipalities during the year Besides those mentioned in the Appendix, sanction has been accorded to applications for loans from municipalities named in the margin, but the amounts quoted had not been drawn when the year closed The Muzaffarpur Municipality have been promised a loan of Rs 60,000 for drainage works

60 *Embezzlements* —Several cases of embezzlement and misappropriation by municipal employés occurred during the year, but few of them present any remarkable features, and in almost every case they were facilitated or made possible by laxity of supervision and a neglect of rules and of ordinary precautions In some cases the amount misappropriated or part of it was recovered from the security of the defaulter or from his relatives, and in two instances at least convictions were obtained and heavy sentences were inflicted A sarkar in the employ of the Uttarpara Municipality collected certain sums, but did not credit them he has been dismissed and the amount recovered from him Another case of embezzlement has occurred in the South Suburban Municipality, the culprit being a collecting sarkar, who has misappropriated Rs 638-11 the embezzlement was discovered by the local Auditor in the course of his inspection of the municipal office All the outstanding bills, as required by the rules, were made over to the Auditor, and he found a deficit of Rs 638-11, and reported the matter to the Chairman, who brought it to the notice of the Magistrate of the district Before any steps could be taken against the sarkar, he absconded,

but a warrant has been issued for his arrest At Santipur certain funds were embezzled by the tax daroga, who was prosecuted and convicted by the Court of Sessions under section 409, Indian Penal Code, and sentenced to rigorous imprisonment for four years The same municipality lately dismissed their overseer and a number of daffadars on suspicion of embezzlement In Debhata the municipal clerk was suspected of having embezzled a sum of Rs 10 and was dismissed One of the collecting sarkars of the Bogra Municipality embezzled Rs 67 11 of his collection the amount has been recovered with the help of his surety without resorting to a civil suit the man was criminally prosecuted, and has been convicted and sentenced to two years' rigorous imprisonment and to a fine of Rs 30 His Honour regrets to find that in several cases either no securities have been taken from municipal employés authorized to handle money, or they have been taken in such a way as to make the realization of any money from the deposits difficult The special attention of Municipal Commissioners was drawn to this subject during the year under review, and it is hoped that proper securities will before long be taken by them from their servants under the terms of section 49 of the Act The remarks of Mr Duke, the Magistrate of Hooghly, on this subject are so much to the point that they are reproduced below —

"My opinion formed on my inspections of the municipal offices, and on the papers which have come before me in these cases, is that the system of collection is everywhere exceedingly lax, and that there is no proper supervision Defalcations may eventually be detected, but the detection is not sufficiently swift and sure to be deterrent and the defaulter has usually time to destroy or confuse the evidence of his crime I have done the best I can to induce municipalities to adopt a safe and reliable system of collection, but, as far as I can judge without tangible result All strictness is unpopular both with the public and the office and therefore municipal executives soon tire of it I expect no improvement until there is a great awakening of public opinion, which apparently will not be yet awhile, or until Municipal Chairmen and Vice Chairmen can be made liable for defalcations facilitated by their laxity "

61 *The Sanitary Board* —The Sanitary Board continued to render effective service as the official advisers both of Government and of municipalities and District Boards The following extract from the Resolution recorded by the Lieutenant-Governor on the Sanitary Commissioner's Report for 1892 shows the work done by the Sanitary Board in regard to urban sanitary works —

"Owing to the frequent absence of some of the members on tour, the Sanitary Board was not able to hold more than one formal meeting during the year Much business was, however done in an informal way The most important subjects which came under their consideration were the drainage and water-supply of the town of Pabna, and the drainage of the towns of Dinajpur and Jamalpur Rough estimates were also prepared of schemes for draining the towns of Meherpur and Bettiah A survey for the drainage of the town of Serampore has been completed, and similar schemes for the towns of Burdwan and Monghyr are being worked out A survey of the town of Howrah for the same purpose is still in progress Besides these projects, the Sanitary Board helped in the preparation of drainage schemes for Bally and Uttarpara, and gave their advice to municipalities on various projects, notably on the large scheme for the supply of filtered water to the town of Arrah In fact the number of projects for water-supply and drainage proposed by Municipal Commissioners and District Boards became so numerous during the year that the Lieutenant-Governor found it necessary to define the duties of the Sanitary Board with regard to the preparation of such projects, and precise instructions on the subject have been issued "

62 *Working of the Porters' and Dandiwallas' Act at Darjeeling* — In the words of the Deputy Commissioner of Darjeeling —"This law, which had previously been virtually a dead-letter, was enforced during the year, or at least during the latter three-fourths of it The Municipality has now a special officer to look after and prosecute offending dandimen and porters, and the Vice-Chairman in his capacity of Honorary Magistrate was empowered to receive and try complaints under it without reference to the Municipal office The Police were also instructed to be on the look out for and report all breaches of the law that came to their notice, and if necessary arrest under section 57, Code of Criminal Procedure The result has been a marked improvement in discipline and behaviour to visitors Every porter and dandiwala is now to be seen with his tin badge ostentatiously exposed to view Considerable and widespread passive resistance was at first experienced, but this was gradually overcome by steady pressure and with the zealous co-operation of

the Vice-Chairman " The total number of porters and dandiwallas registered during the year was 1,021, against 579 in 1891 92, whilst the number of prosecutions for offences under the Act rose from 9 in 1891-92 to 67 during 1892-93.

63 *Working of the Pilgrims' Lodging-house Act*, 1871 —The statement in Appendix L shows at a glance the year's history of the working of the Act The total income of the year, including the opening balance of Rs 12,367, was Rs 37,817, against Rs 31,152 in the previous year, and the total expenditure Rs 26,722, leaving a balance at the close of the year of Rs 11,096 The closing balance as compared with the year's revenue was unduly large in most of the places, and specially at Deoghur, and in the accounts of the *chatties* along the Jaganath road in the districts of Cuttack and Balasore These large balances should be reduced by the application of the money to some useful purpose in accordance with the terms of the Act The percentage of acquittals to prosecutions was heavy, and the worst result was attained at Garhbeta, where only one person was convicted, out of every ten prosecuted for offences under the Act The Commissioner of Burdwan reports that the provisions of the Act have never been properly worked in Danton or Garhbeta At the latter place especially the accounts were wrongly kept and licenses illegally granted The matter is engaging the attention of the local authorities, and the Lieutenant Governor looks for an improvement in the current year

64 *General working of the Bengal Municipal Act III of* 1884 —Mr Power, Commissioner, Burdwan Division submits the following observations as well as extracts from the District Officers' reports on the working of municipalities —

Burdwan Division

Mr Duke, the Officiating Magistrate of Hooghly, has as usual written much that is worth quoting He expresses his conviction that municipal management under the existing law is not a genuine success —" The really popular feeling is that almost everything that a municipality can do except the maintenance of roads and schools is a nuisance, and that taxation is merely the greatest nuisance of all The Municipal Commissioner therefore gains his place by promising not in any case to lend himself to increase taxation " The most obvious fault of all the municipalities except Uttarpara and Jahanabad is bad assessment and inadequate taxation The taxes never are collected with any approach to punctuality except in Jahanabad, which is non-elective

' Nearly all electors wear shoes, and therefore desire roads Consequently most municipalities have more roads than they can repair Many electors, though not probably a majority, want schools, particularly English schools Therefore there is a tendency, which it is very difficult to check, to spend an undue amount on English schools Only a few electors object to promiscuous defæcation, therefore there is a general want of public latrines Not 5 per cent believe that there is any question of the purity of water so long as it does not stink, therefore there is no demand for a water-supply until the tanks really dry up " * * * " Part IX is very fairly popular, and has been widely extended, because it enables the class which has private latrines, not a majority, to compel the class which has not got latrines to pay their expenses In Serampore the greater part of the cost of the latrine system is defrayed by people who have no latrines " Mr Duke thinks the present Municipal Act " would have probably been a more striking success if the elective system had been much more restricted and if greater facilities had been given to the governing class to make the proletariat pay the piper " He is also of opinion that " there has grown up, especially amongst the legal profession, an overweening sense of the rights of property," which he says, " our system of law must have some tendency to foster This shows itself in a perpetual tendency to exaggerate private rights as against those of the public, it operates to the constant reduction and disappearance of public easements and causes an excessive reluctance to deal with public nuisances " The present system of Municipal Government he considers to be unduly advanced both for those who are governed by it and for those who govern

In these remarks I entirely agree Mr Grierson, the Magistrate of Howrah, writes — " In Howrah I have got on very amicably with the Commissioners, and though the year has necessarily been one of retrenchment, I believe that the Municipality did the best that it could with the small amount of funds at its disposal Taxation in Howrah must be raised before any real progress can be made " In Bally there was a good deal of faction Since the conclusion of the year, it is said that the two parties have been reconciled " In both municipalities," Mr Grierson says, " there have been of late symptoms of opposition to anything like increasing the burden on the poorer rate-payers This is no doubt due to the fact that most of the voters are poor men, and that a general election is due in December "

65 Mr Westmacott, Commissioner of the Presidency Division, writes —

Presidency Division

The principal question which occurs to me is whether the municipal bodies have made any such advance in the character of their administration as would justify the authorities in giving them a freer hand, and in relaxing the control now exercised over them It does not appear that such has been

the case I find the same laxity of supervision, the same incapacity for dealing with subordinates for punishing their misdeeds and for getting good work out of them, and the same want of sympathy with classes other than that to which they themselves belong, and contemptuous neglect of the requirements of the lower orders. A keen interest is taken in the maintenance of a dispensary, with a qualified medical practitioner and a supply of medicines which benefits the educated classes but I do not find the Municipal Commissioners bestirring themselves to provide hospital accommodation for in-patients, or decent arrangements for female patients, as their own class do not desire such a form of relief. In education, controlling authorities find it necessary to be constantly checking the tendency to lavish expenditure on English teaching schools and higher education, which benefit the children of the educated classes, but it is only by incessant goading and peremptory orders that any provision for primary education is secured. Lamp posts are erected and roads repaired with no regard to the requirements of the people generally, but with regard only to the convenience of residents of a certain class. Besides this narrowness and want of sympathy with classes other than their own, I find a want of appreciation of sanitation even under the main heads of water-supply, drainage and innocuous removal of *maila*. Among Municipal Commissioners, and especially among Chairmen and Vice-Chairmen, I find men who are not only able and capable, but who do appear really desirous of working with energy on the right lines, when those lines are pointed out to them, but it is very rare to find even the best of them taking the initiative, and even where a commencement has been made, I cannot feel any confidence that the effort will be sustained if the motive force from outside be withdrawn. If all the rate-payers and inhabitants of a place belonged to the same class as the Commissioners themselves, I would give municipal administration a free hand, considering that the interests of the people were in the hands of their proper representatives. This is very far from being the case. The great majority in almost every municipality consists of people of whose feelings the Commissioners know little, and for whose convenience they care nothing, and so long as that is the case, external control is necessary as a safeguard to the interests of the general body of the people. Municipal Self-Government is not at present the government of the people by themselves, but the government of the people by a class whose contempt for the orders which they consider beneath them was not exceeded by that of a French *grand seigneur* of the last century for the peasants who cultivated his lands. As regards conservancy there is still less reason to relax the watchfulness maintained by the superior servants of the State. Again and again my personal pleading for the reservation of a tank or two for drinking-water has been met with the reply that it is the custom of the people to wash their persons, their clothes and their cattle in the water which they drink, and that the customs of the people must be respected. Well-privies are considered by most Municipal Commissioners a very convenient and sufficiently wholesome arrangement. The imposition of a latrine-tax and the introduction of a decent system of conservancy is generally opposed, and if the supervision of the officers of the State were withdrawn, would, I believe, be generally abandoned.

66. Mr Nolan, Commissioner of the Rajshahi Division, takes a more favourable view of municipal administration, or the municipalities in his Division are under better management:—

Rajshahi Division.

"I consider that, except in Nator, municipal administration has attained a fair degree of efficiency, and that during the year under report there was a distinct improvement. I am particularly impressed with the attention paid by the Commissioners to an important branch of the work which I would not have considered to be very attractive to them—that of conservancy. But much remains imperfect, and we should look for progress during each successive year."

As regards the Nator Municipality, Mr Price, the Magistrate, writes:—

"The working of the Nator Municipality has not been good. On the occasion of my visit to Nator in February last, I noticed the wants of the town to be—(1) good drainage, (2) good sanitary arrangements, (3) all the privies should be removed from the banks of the Laldighi, for fæcal matter, especially in the rains, get into and pollute the water, (4) people should not be allowed to bury their dead in the compounds of their houses, and (5) more than all, the impure water of the Laldighi and the concentric moats round the town should be drawn off and clean water introduced. The owners of the tank have not paid their promised contribution towards the purification of the water of the Laldighi, and the evil continues unabated. The Municipal Commissioners were urged, under orders of Government, to take action under section 200 of the Municipal Act III of 1884, in order to compel the proprietors of the tank to do their duty. But the proprietors have since paid up their promised subscriptions."

67. Mr Luttman-Johnson, the Commissioner of Dacca, has the following guarded observations:—

Dacca Division.

"Personally I am of opinion that though the Act is somewhat above our plane, and the rules under it in some cases too elaborate, still we make progress. So far from curtailing our municipalities, I would extend municipal institutions to every village. When the conditions under which they and their fathers have lived are considered, I think that the Municipal Commissioners show quite extraordinary facility in the reception and adoption of new ideas

I think that we give some support to the conservative and some discouragement to the radical element on Municipal Boards by proposing schemes which are beyond their means But on the whole I think the municipalities in my division are a benefit to their inhabitants, and that as years go on they become more and more useful and, perhaps, more and more popular "

68. The Commissioner of Chittagong, Mr Oldham, reviews concisely the condition of the few municipalities in his Division —

Chittagong Division

" Owing to the energy of its Chairman, Mr Good, with the support given to him in office administration by the Vice Chairman, Babu Satis Chandra Sen, the Chittagong Municipality now occupies by far the first place in the Division for efficiency in all respects Mr Good, in his report, says that he has found the work discouraging in many respects, particularly as regards the apathy shown by all his colleagues, except the Vice-Chairman, and the instances of loss which are coming to light as wholly due to previous neglect * * * * The success therefore attained by the Chittagong Municipality in present conditions is by no means a testimony in favour of municipal administration The position at Comilla was much the same for some years under Mr H M Weathrall, as Chairman Mr Weathrall, however, is no longer the autocrat he used to be The municipality has lost in efficiency, or at least has made no progress It no longer occupies the foremost place which it held for so long, and for many months past I hear complaints that time is wasted at its meetings by fruitless personal wrangles The Noakhali Municipality, on the other hand, deserves favourable notice for the way in which it has answered to the pressure put on it, and exerted itself to cast off the reproach of neglect of all its business which had to be recorded in 1891 I inspected it in December 1892, and was able to submit a favourable report to Government There is nothing fresh to say about Brahmanbaria The municipality is still administered by the first and second masters of the local school They expend the little income which they raised to the best advantage in keeping the place externally neat and clean, and this is all that can be done with taxation at under five annas a head There is no real conservancy the municipal administration of Cox's Bazar is in the hands of the Subdivisional Officer "

69 Mr. Forbes, Commissioner of Patna, has recorded the following remarks —

Patna Division

" So far as time has allowed, I have during my tours enquired into the wants and inspected the working of the municipalities in this Division, principally with a view of making use of the information thus acquired in dealing with the budget estimates when they come up for orders before the commencement of the financial year In some cases I have drawn the attention of the Commissioners to certain matters on the spot, and in future will do so in the systematic manner lately directed in Government order No 10 P M, dated 1st July 1893 though I am inclined to think that advice offered through the medium afforded by the control of the finances vested by the law in the Divisional Commissioner is most likely in practice to have the desired effect Speaking generally, I am glad to be able to say that I have found no reason to be dissatisfied with the attitude shown by the municipal bodies towards the supervising Government officials I have been much impressed with the general desire on the part of Municipal Commissioners to do what is right, and with their willingness to listen to advice The difficulty one most feels is in arousing them to a proper sense of their responsibility in respect of making assessments and of keeping down the cost of establishments But in those as in all other matters of real importance I feel certain that we are steadily gaining their confidence and full support "

70 Mr. Quinn, Commissioner of the Bhagalpur Division, writes —

Bhagalpur Division

" The comments of the District Officers generally are not very favourable, but the report and statements, I think, show that some progress has been made, and that the municipal funds have on the whole been judiciously administered Of the municipalities where the Chairmen are non-officials, Bhagalpur, Monghyr, Jamalpur, and Sahibganj are presided over by gentlemen who devote much time and attention to municipal work The want of funds accounts for many of the deficiencies which still exist, and if the Commissioners are to blame, it is for their hesitation to improve their incomes by increased taxation rather than for any failure to make a proper use of their present revenues Bhagalpur is much handicapped by the heavy charge thrown on its finances by the maintenance of its water-works, little margin being left for other sanitary improvements As in previous years, the general defect has been the want of close executive supervision Very few Municipal Commissioners care to spend their time in looking after outdoor work, however willing they may be to assist in the transaction of business at meetings During the year under report I inspected the Monghyr, Sahibganj, and Malda Municipalities I was on the whole favourably impressed by the management of the two former, though the conservancy arrangements in both still leave much to be desired There were some slight indications of improvement in the Malda Municipality, but the strictures of the District Magistrate on the management, especially in financial matters, are, I think, fully justified The former Chairman has since resigned, and there is reason to hope that the management will improve under a more efficient President."

71 The Commissioner of the Orissa Division, Mr Cooke, reports favourably on all the working of the Act in all the Municipalities of his Division except Balasore, which is torn by faction—a circumstance which leads to violent action and re-action, to a desultory and irregular policy, and to no permanent results so far as the administration is successful In Cuttack and Puri much of the credit is due to the Civil Surgeon, who is Chairman of the Municipality in each case, but the great defects in the sanitation of Puri, to which Sir Charles Elliott drew special attention during his visit to the place in 1892, have not yet been fully cured

72 Mr Grimley, Commissioner, Chota Nagpur Division, observes —

Chota Nagpur Division

"The proceedings of the Municipal Commissioners in this Division are regularly submitted to the Commissioner, a practice which, though not enjoined by law, serves the useful purpose of keeping him informed of all that is being done, and enabling him to give advice or exercise control where needed The result of my observation is that the business has been carried on without any friction, and in my opinion the Commissioners have, as a rule, worked with singlemindedness and honesty of purpose There is a remarkable absence of that element of party strife which is so detrimental to the despatch of business in some municipalities There is one direction in which the usefulness of the Commissioners might be extended with advantage, and that is outdoor inspection and supervision of subordinates —a kind of work which they do not take up with any keen desire This is in a great measure due to the fact that the Commissioners are mostly men of business with little time at their disposal to devote to sanitation and conservancy matters, and the result is that all outdoor work is left to the control of the Vice-Chairman with occasional help from the Chairman"

73 The Lieutenant Governor rises from a perusal of the interesting and careful reports submitted on the municipalities of Bengal with no feeling of dissatisfaction, for he recognises the fact that although none of them as yet attain to the standard of administration which Government has placed before them, yet in many respects there has been a desire for progress, and in some cases the results have been very praiseworthy There has been a slight but general increase in the proportionate expenditure on conservancy, drainage, and the supply of medical aid, while a corresponding reduction has been effected in the expenditure on establishment and roads The proportion of the total demand collected during the year is 2 per cent higher than in 1891-92 Some effort has been made to give effect to the Lieutenant Governor's policy in regard to primary education, and the importance of good water and drainage is now more widely appreciated than ever before The faults of municipalities seem to be the reluctance of the Commissioners to impose taxation even where the legal limit has not been reached and the wants of the community are great the irregularity of assessments in some places, and in very many municipalities laxity of practice in collecting their dues Nothing but time and the gradual education of public feeling will eradicate these failings, but the new Municipal Bill, if passed into law, will it is hoped greatly facilitate the efforts of those who really desire reform, and for the rest the Government must be content to wait until a spirit of healthy emulation is engendered and until Municipal Commissioners set before themselves a higher standard of administration, and meanwhile the Lieutenant Governor trusts that year by year the Annual Reports will attest the gradual development and spread of these useful influences

By order of the Lieutenant-Governor of Bengal,

J A. BOURDILLON,

Offg Secretary to the Government of Bengal

LIBERALITY OF BABUS KRISHNA MOHAN LAL AND BRIJ MOHAN LAL, ZAMINDARS OF ULAS IN THE DISTRICT OF MONGHYR

No 4128Med, dated Calcutta, the 29th December 1893

From—J A BOURDILLON, Esq, Offg Secy to the Govt of Bengal, Municipal Dept,
To—The Commissioner of the Bhagalpur Division

No 2111J, dated the 27th November 1893
No 2208J, dated the 12th December 1893

I AM directed to acknowledge the receipt of your letters noted in the margin, in which you bring to the notice of His Honour the Lieutenant-Governor the liberality of Babus Krishna Mohan Lal and Brij Mohan Lal, zamindars of Ulas, in the district of Monghyr, in contributing a sum of Rs 1,300 each towards the erection of a new building for the existing dispensary at Begusarai

2 In reply, I am directed to say that the Lieutenant-Governor acknowledges with much pleasure the liberality of the gentlemen named, and I am to request that an expression of His Honour's gratification may be conveyed to them

* Means of 6 days

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed at percentage saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. Rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, *i.e.* from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 30th of December 1893

Explanation — indicates that no rain has fallen If the return for any day has not been received the corresponding space is left blank If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank With reference to the column of rainy days the definition of a rainy day is when at least 1 0 inch of rain has fallen

CALCUTTA, *the 2nd January* 1894

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A M, SATURDAY, THE 30TH OF DECEMBER 1893

THE meteorology of the week under review has again been of little importance, as throughout the greater part of it weather has been of ordinary north-east monsoon character On the 24th of December, or the first day of the week a rather rapid fall of pressure had occurred, and pressure had become below the normal usually by amounts varying between 0 06″ and 0 08″ Temperature had also become higher than the normal by from 1° to 2°, except at the extreme eastern stations, where defects were registered The winds blowing over the province were a little variable in direction, but were usually more or less northerly, though very light in force On the 25th and 26th the changes of conditions were of no practical importance except that temperature was increasing On the 27th pressure had fallen slowly to moderately over the province, the fall being largest in Central and North Bengal, and the lowest pressures in Bengal were reported at such stations as Malda, Bhagalpur and Rampur Boaliah With this abnormal distribution of pressure southerly winds set in over a large part of South Bengal, bringing up considerable amounts of moisture to the province and causing a rather rapid increase in the temperature, and on this day the mean temperature was generally from 2° to 5° above the normal A rapid increase in cloud proportion also occurred during this very slight period of disturbance On the 28th, however, pressure had increased rapidly, the rise ranging up to nearly 0 09″ at some of the stations in the north of the province, while the increase was very slight at the southern stations Hence the normal distribution of pressure was re-established, and the southerly winds at once disappeared, northerly winds setting in at almost all stations Humidity, temperature and cloud proportion also decreased, but the mean temperature was still in excess of the normal by moderate amounts A further increase of pressure occurred on the 29th, though a slight fall was recorded on the 30th, and at the close of the week pressure was still below the normal at the great majority of stations The temperature changes on these dates were also small, and at the close of the week the mean temperature was still in excess by about 1° to 3° Winds on the 30th had also again become rather variable in direction, but weather was fine and skies almost cloudless

Pressure—The mean pressure for the week has been below the normal at all stations, the usual defect ranging from 0 03″ to 0 06″ Usually the defects have been smallest at the south eastern stations and largest in the north and west of the Province

Temperature—Has been in small to moderate excess at practically all stations almost throughout the week The average excess for the whole province has equalled 1 8,° and in the divisions of Orissa, South-West Bengal, and South Bihar the excess has been from 2° to 3°

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum, and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period The variations it will be seen have been large in both the night and day temperatures The minimum temperatures have, however, shown the largest excess, and at such stations as Cuttack, Patna, Purnea and Gaya, the night temperatures have been about 4° higher than usual during the week

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground

NOTICE

No 41B

OPIUM

THE HON BLE D R LYALL, C S I

IT has been brought to the notice of the Board that certain Marwari firms bid at the Government monthly opium sales through persons who are called *gumashtas* and are not their duly constituted agents, and that these persons not only sign for these firms the sale accounts kept in the sale room, but also the promissory notes taken there under the sale conditions for payment of deposit money on account of the opium purchased With a view to put a stop to this irregular practice, it is hereby notified that on and after the 1st of February 1894, no signature to any paper or document relating to opium sales will be accepted at this office on account of any individual or firm unless such signature is that of a principal or a member of the firm concerned, or of any of its legally constituted agents Exception will be made in the case of persons who are duly authorized to sign *per procuration* according to existing mercantile usage

THE SECOND SCHEDULE ABOVE REFERRED TO

(Scheme for the management of the Prince Albert Victor Asylum for Lepers)

1 The said Treasurer of Charitable Endowments shall stand seized and possessed of the said lands and buildings described in Part I of the first schedule to this notification, as also of such additional lands and buildings as may hereafter be acquired or erected as hereinafter provided upon trust to permit the same to be used as an asylum for lepers, such asylum in memory of His Royal Highness the late Prince Albert Victor, to be henceforth known as "The Albert Victor Asylum for Lepers" and to be managed and conducted as hereinafter provided

2 The said Treasurer of Charitable Endowments shall permit the Committee to be constituted as hereafter provided to expend out of the monies specified in Part II of the first schedule hereto or which may hereafter come to his hands the necessary sums for—

(1) the acquisition of the site adjoining the present asylum, and the erection thereon of suitable buildings for the accommodation of female lepers,
(2) the thorough repair and extension of all existing buildings, and
(3) the remodelling of the existing wards of the present buildings so as to provide additional space for male patients, and so far as may be separate accommodation for non-Asiatics, and shall stand possessed of the balance of the said monies and the invested trust funds specified in Part II of the said first schedule to this notification and of all other funds for the time being in his hands on account of the said asylum in trust to permit the Committee of the said asylum to use and apply the dividends, interest and yearly income to arise therefrom for the maintenance and support of the said asylum

3 The executive charge of the said asylum shall, as heretofore, be vested in the Commissioner of Police, Calcutta, under the supervision, management and control of a Committee of seven persons, of whom four shall be *ex-officio* members, namely, the Inspector-General of Civil Hospitals as President, the Secretary to the Government of Bengal in the Medical Department, the Chairman of the Corporation of Calcutta, and the said Commissioner of Police, Calcutta, and of the remaining three members, one shall be nominated by the Committee of the District Charitable Society, one directly by His Honour the Lieutenant-Governor of Bengal, and the remaining one by the Committee of the Prince Albert Victor Memorial Fund, and when that Committee shall have ceased to exist, by the other members of the Committee above described

4 The said Committee shall take early steps to acquire the necessary site for the erection of suitable buildings for the separate accommodation of the female patients and the construction of such buildings, and shall make immediate arrangements for the repair and extension, if necessary, of the existing buildings and the remodelling of the wards so as to provide additional space for male patients and separate accommodation so far as may be for non-Asiatics, it being hereby declared that provision shall be made for the accommodation of such number of patients (male and female) as the funds of the institution will from time to time suffice to maintain and provide for.

5 The said Committee shall forthwith revise the existing rules for the admission, maintenance and discharge of the lepers, and the general conduct and management of the institution and the application of its income and of all subscriptions, subsidies and donations from time to time collected or received on its account (it being hereby expressly declared that all such subscriptions, subsidies and donations shall be at once made over to the said Treasurer of Charitable Endowments for credit of the said asylum), and shall and may from time to time hereafter further vary and alter such rules or make such new rules or regulations not inconsistent with the terms hereof as they may think necessary or expedient

6 The said Committee may meet together for the despatch of business, adjourn and otherwise regulate their meetings as they shall think fit, but they shall at all times conform to and abide by any rules relating to the administration of endowments under the Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make

7 The said Committee shall in books to be kept by them regularly enter or cause to be entered full and true entries of all monies received and paid respectively on account of the said institution, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf in such form and at such times as the Local Government may from time to time prescribe an abstract of such accounts and such returns as to other matters relating to the management of the said institution, and the administration of its funds as the said Local Government may from time to time see fit to require

APPENDIX XXIV

Advertisement of Sale

NOTICE is hereby given that the undermentioned plots of land no longer required for the Railway, situated along the Revilgunge Branch line of Bengal and North Western Railway in the district of Saran, will be put up to sale at 12 o'clock on the 10th January 1894, corresponding with the 18th Poos 1301 Fasli at Chupra.

The purchasers of the several plots of land will be subject to the following conditions:—

1st—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the land closer than three feet from its foundations.

2nd—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd—If the amount of purchase money exceed Rs. 100 one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th—The lots will be sold revenue free to the highest bidders.

5th—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale, and after expiry of the current term of lease of the land, commencing from June 1893 and terminating on the 31st of May 1894.

THE MONSOON OF 1893

THE following report is published for general information

By order of the Lieutenant-Governor of Bengal,

C E BUCKLAND,

Secretary to the Govt of Bengal.

The 9th January 1894

METEOROLOGICAL SUMMARY FOR THE MONSOON PERIOD OF 1893

THE following statement is intended to give a brief history of the more important features which have characterized the south-west monsoon period and preceding months of 1893 in the Province of Bengal

January was a month of strongly developed cold weather character, during which rather numerous cold weather storms affected the Province of Bengal. The changes of pressure from day to day were unusually large, and during two or three periods large defects were recorded, owing to the passage of barometric depressions, so that the mean pressure for the month was in defect of the normal in all districts, the defect ranging from 0 05″ and 0 06″ at the western stations, to 0·03″ and 0 04″ at the south-eastern stations, the general defect of the whole Province equalling about 0·045″. The average mean temperature was also below the normal by from 1° to 2°, the defects being usually largest in Central, Southern, and Northern Bengal Humidity and cloud proportion were also in distinct excess of the normal in practically all

districts. No less than five periods of disturbed weather connected with the passage of barometric depressions advancing from North-Western India occurred during January The first depression advanced from North-Western India at the close of December; the second on the 3rd of January; the third, which consisted of no less than three low-pressure areas, advanced on the 15th; the fourth, which was a severe depression, advanced on the 23rd, and the fifth, which was rather a feeble depression, on the 28th All these advanced in an easterly direction and rather largely affected the weather in Bengal, giving a wave of high temperature and humidity in front of the disturbances, low-pressure with clouded skies and in some cases rain during the disturbance, and a rapid increase of pressure, followed by a wave of cold, dry air, in the rear of the disturbance. Owing to these numerous disturbances, rainfall was in excess of the normal in all districts except East Bengal, the excess being fairly large in Orissa, Chota Nagpur and North Bihar, and small in all other districts.

The meteorology of February in Bengal was again marked by important features The mean pressure for the month was very distinctly above the normal over the whole area, except perhaps at Darjeeling The excess usually equalled from 0·02" to 0 04", and it was largest at the central and north-western stations, and smallest at the southern and eastern stations At Chittagong and Gopalpur, indeed, pressure was almost normal Temperature was most abnormally low almost throughout the month, the general defect for the whole of Bengal equalling 4·1°. This defect was most largely developed in the day or maximun temperatures, which at such stations as Berhampore, Burdwan, Krishnagarh, Naya Dumka, Purnea, Ranchi, etc, were from 8° to 10° below the normal, while, on the other hand, at a few stations the night or minimum temperatures were in slight excess of the normal. Humidity was in large excess of the normal at all except a few of the south-western stations, the variation in some cases exceeding 20 per cent. Cloud proportion for the month was also very largely above the normal, the amount of cloud in many cases being about twice as great as is usual in February Winds were north-westerly and northerly for the greater part of the month, and hence were rather unusual, for during February southerly winds generally commence at the southern stations, but this was not the case in the present year

Weather in February was of a most unusual character from the large number of barometric depressions and disturbances which advanced from North-Western India through the province, and which were also of a very influential character. Thus one depression appeared in North-Western India on February 4th, and passed through Bengal from the 7th to the 9th, giving very unsettled weather. Another storm or disturbance advanced from North-Western India on the 12th, reaching and affecting Bengal from the 13th to the 15th. Another depression advanced from Central India on the 16th, and affected Bengal from the 17th to 20th, and a fourth disturbance coming from North-Western India on the 21st, caused disturbed weather and rain in Bengal from the 23rd to 25th Hence for a large part of the month weather was quite unusual, with rather heavily-clouded skies and rain, and indeed almost the reverse of the ordinary north-east monsoon weather Owing to the large number and influential nature of the disturbances which affected the province, rainfall in February was very abundant, the falls averaging nearly five inches in South-West Bengal, about four inches in Chota Nagpur, about three inches in Orissa, East Bengal and South Bihar, about two inches in North Bengal, and an inch and-a-half in North Bihar. These amounts generally equal from three to six times as much as usual. The number of rainy days in February was also generally about four times as many as in ordinary years.

The mean pressure for March was in excess of the normal over the whole province, except, perhaps, at Darjeeling The usual excess varied from 0·03" to 0 05", and it was fairly equally distributed in all districts, except, perhaps, at the extreme western stations, such as Dehri, Hazaribagh, and Ranchi, and at Chittagong, where it varied from only 0 01" to 0 02", and at Darjeeling, where apparently a defect was registered. The mean temperature for the month was largely in defect of the normal, the defect usually varying from 4° to 7°. The smallest defects were recorded at the eastern and northern stations, and the largest of 5° and 6° and upwards at the central and western stations. The defect generally was larger in the day than in the night temperatures, for while

the mean of the day or maximum temperatures was usually from 5° to 10° in defect, the average of the night or minimum temperatures only showed a defect of about 3° to 4°. Humidity and cloud proportion were very decidedly in excess of the normal for March in all districts of the province The southerly element in the wind directions, which is generally rather strongly developed in March, was less prominent than usual in the month, and the general wind directions were westerly to south-westerly, except in the extreme east and north of the province of Bengal and in Assam, where winds were usually easterly Indeed, the cold weather system of winds can be scarcely said to have disappeared in Bengal until about March 20th and hence the weather in March was most abnormal, and the hot season conditions did not establish themselves in Bengal even to a moderate extent until about the last ten days of the month. The weather conditions were also much more disturbed than usual Unsettled conditions accompanied by rain occurred from the 6th to the 8th instant, owing to the passage of a feeble barometric depression from North-Western India in an easterly direction. Disturbed conditions again existed from the 8th or 9th up till about the 17th in connection apparently with certain changes in the pressure distribution, which about this time passed from the cold weather to the hot season system of pressure in Bengal, and again from the 19th to the 23rd a series of hot weather storms or nor'-westers visited Bengal in connection with a low pressure area, which developed to the west of the province, and which gradually drifted across it in an easterly direction. Hence it will be seen that the duration of fine, settled weather during March was unusually short, and it was confined to the first four or five days, when ordinary cold season conditions obtained, and to the last week of the month, when the conditions were of ordinary settled hot season character Owing to the very prolonged periods of disturbance the rainfall during March was unusually heavy, and except in Bihar, where the fall was rather less than an inch, it varied from about two to four inches. The rainfall for March was hence very considerably in excess of the normal in all districts, and the number of rainy days was about twice as large as usual during the month.

During the early part of April, conditions were fairly normal, except that temperature continued unusually low, especially during the day. The weather became disturbed on one or two occasions between the 1st and the 15th, owing to the passage of shallow depressions across the province, but the rain which fell at these times was very local, and was chiefly confined to the northern districts. The first period of slight disturbance was from the 5th to the 7th, when rain fell in North Bengal and parts of South-West and East Bengal, and again on the 10th and 11th, when, as before, no rain fell in Orissa, Chota Nagpur and Bihar, though showers were well distributed in other districts. From the middle of April till about the 23rd, fine cloudless weather, with increasing temperature, prevailed, but about this date a depression formed in the north-west of India and began moving in an easterly direction. On the 25th also a small cyclonic storm developed in the Andaman Sea, and moving in a north easterly direction passed over Rangoon on the 27th, causing stormy weather in the east of the Bay and heavy rainfall in Burma. On the 27th also the barometric depression, which was advancing in an easterly direction from North-Western India, was beginning to affect the weather in the extreme western part of Bengal On the 28th the depression passed to a great extent over the western parts of Bengal, and strong, moisture-laden winds blew from the Bay over Bengal, and general rain was received over the greater part of the province up till the close of the month.

The actual mean pressure for the month differed from the normal by only a few thousandths of an inch; but during the first half of the month the readings were steadily in excess, while for a considerable part of the second half of the month, defective pressures were registered. Temperature was below the normal for the greater part of the month, and the mean defect equalled about one and-a-half degrees. Humidity and cloud proportions were, on the other hand, in rather large excess. The amounts of rain received varied from between five and six inches in East and North Bengal and rather less than an inch in South Bihar and Chota Nagpur. The falls were in moderate to rather large excess in all districts except Orissa, where, on the other hand, a moderate defect was registered.

The meteorological conditions of May may be described in three periods. During the first period, which was comparatively short, lasting up till the 8th only, a disturbance which appeared in the west of the province caused showery weather in all districts. The depression rapidly disappeared about the 8th, and after this the second period in the weather commenced, when pressure became very uniform, and fine, calm, and almost cloudless weather prevailed. This lasted up till about the 17th, and from this date to the end of the month the third period may be said to have existed, during which a severe cyclone was generated and struck the South Bengal coast.

The following is a brief description of the generation of this severe cyclone taken from the India Monthly Weather Review :—

"The first indications were shown on the 17th of the commencement of a large advance of monsoon winds up the Bay. Weather became squally, with south-west winds and much rain in the south of the Bay on the 17th and 18th. Winds were light and variable in the centre of the Bay. South-west winds and squally rainy weather advanced northwards up the Bay at an average rate of about 200 miles per diem during the next four days. This burst of heavy rain reached Port Blair and Mergui on the 19th, and Lower Burma on the 20th and 21st. Important pressure changes had occurred over India between the 17th and the 21st during this advance. Pressure had given way steadily over the whole Indian area, the fall being much greater in Northern than in Southern India. The range of pressure over the Indian land area had hence increased from 0.14″ on the 17th to 0.38″ on the 20th. Steep gradients obtained on the 19th and subsequent days in the peninsula and the southern half of the Bay. Strong south-west winds prevailed in the south and centre of the Bay, and very strong westerly winds blew across the peninsula. The area of light and variable winds in front of the advancing humid current in the Bay was transferred on the 19th to the north of the Bay, and that area was one of uniform pressure on the 20th and 21st. A cyclonic circulation was initiated on the evening of the 21st off the Orissa coast by the action of the advancing humid currents in the north of the Bay and the strong westerly winds blowing across the peninsula. The depression and storm increased steadily in intensity on the 22nd, 23rd, and 24th, and moved very slowly northwards. It developed on the evening of the 24th and morning of the 25th into a cyclone, with a calm centre and an inner area of hurricane winds, and weather was exceedingly stormy in the north west angle of the Bay on the 25th. Its rate of advance increased on the 24th and 25th from two miles to six miles per hour. The calm centre passed over the pilot vessel *Sarsuti* about 30 miles west of the position of the Eastern Channel light ship at 11.30 P.M. of the 25th, and at a short distance to the west of the S. S. *Red Cross* lying at anchor in the Hooghly a few miles west of Saugor Island at 4-30 A.M. of the 26th. The storm centre continued to advance northwards until about 4 or 5 P.M., when it was between Calcutta and Burdwan. It then recurved (its velocity as usual in such cases diminishing considerably) from north to east-north east during the evening of the 26th, and passed across South Bengal on the 27th. The centre was a little to the north of Calcutta at 8 A.M. of the 27th, and to the north-west of Dacca on the morning of the 28th. The storm broke up in Cachar on the 29th.

"The cyclone is the most severe storm that has visited the head of the Bay in the month of May during the past 25 or 30 years. It is chiefly remarkable for the excessive rain it gave to the districts over which it passed. False Point received a total of 40.18 inches during the storm, one of the largest total falls, during a cyclonic storm, that has occurred for some years in the plains of India."

During the period from the 21st to the 29th also the Orissa Division received 17.60 inches of rain, South-West Bengal 8.36 inches, East Bengal 10.76 inches, and Assam (Surma district) 8·00 inches of rain, so that the storm brought very heavy rain over a large area.

The wave of humid winds accompanying the cyclone spread over the whole of Bengal, and general rain was being received in practically all districts at the end of the month.

The pressure changes during the month were unusually large, particularly during the advance of the cyclone, and at Saugor Island, on the 26th,

a pressure of 28 423 inches was recorded Owing mainly to the very low pressure then registered, the mean pressure for May was in defect of the normal in all districts except parts of Bihar, where slight excess pressures were recorded, the defects ranging up to 0 075 inch at False Point Owing to the abundant rainfall during the month, temperature was unusually low, and a defect of from two to two and-a-half degrees was registered. Cloud proportion and humidity were also unusually high The rainfall for the month varied from 23·49 inches in Orissa, or 19 62 inches in excess of the normal, and 17·65 inches in East Bengal to 4 04 inches in South Bihar, and the whole province except North Bengal and North Bihar received rather large excess falls; but in these Divisions the falls were about normal or rather defective Thus the fall in the Cuttack district was eight times as much as usual, in Puri district six times, and so on On the other hand, the following districts received falls of about half or of less than half the usual quantity —Rangpur, Kuch Bihar, Jalpaiguri, Darjeeling, Purnea, and Palamau, while considerable defects were also registered in Lohardaga and Muzaffarpur

At the beginning of June, conditions in Bengal were of ordinary monsoon character over practically the whole province, due to the advance of the monsoon winds brought up by the cyclone at the end of May This preliminary burst of the monsoon current, however, was not maintained, and from the early part of the month the humid current began to retreat southwards From about the 3rd or 4th of June up till the 10th the monsoon current was confined principally to the south of latitude 10°N During the retreat of the monsoon current, however, moderate rain was recorded in Bengal, and even after it had retreated down the Bay numerous showers were received in the eastern and northern districts of Bengal, but general rainfall ceased from about the 2nd, and a period of hot season conditions again set in over the province.

From about June 9th or 10th, however, the monsoon winds to the south of latitude 10°, both in the Arabian Sea and the Bay of Bengal, began to make another forward advance, and shortly after this two small cyclonic storms were formed, one in front of each branch of the monsoon In the case of the storm in front of the Bay of Bengal branch of the monsoon current, this was formed to the west or north-west of the Andaman Islands about the 11th or 12th June, and advanced slowly across the Bay in a westerly or west-north-westerly direction, steadily increasing in force in its advance It crossed the coast between Vizagapatam and Coconada soon after noon on the 15th of June, giving decidedly stormy weather and very heavy rain It passed first into the Central Provinces and then advanced to Sutna, where it filled up about the 18th instant In the rear of this storm an exceedingly heavy wave of monsoon winds advanced over the peninsula and over Bengal and Upper India, and rather heavy general rain was received in all districts Later on in the month, while the monsoon current was still fairly well established over the greater part of India, a barometric depression formed over Lower Bengal, the first indication of it being noticed on June 22nd It slowly intensified for several days, and then passed in a westerly or west-north-westerly direction, reaching Jessore on the 26th, Hazaribagh on the 27th, Sutna on the 28th, Jeypore on the 29th, and Bikanir on the 30th but it was steadily filling up on the 30th This small storm was noticeable for the exceptionally heavy rain it gave in its path, particularly in Bengal It also caused another heavy wave of moisture-laden winds to advance over Bengal and Upper India, and at the close of the month heavy rain was falling in all districts of the province.

The monsoon current, therefore, was fully established over Bengal from about the middle of June, and continued very steady up till the end of the month. So far, also, as can be judged by the wind velocities recorded at the various meteorological observatories on and near the coasts, and from the logs of very numerous vessels navigating the Bay of Bengal, the monsoon current during the month of June was unusually strong

The mean pressure for the month over Bengal was decidedly in excess of the normal, and this excess was very uniformly distributed, the excess varying from 0 05″ in South-West Bengal to 0 03″ at Dacca and Hazaribagh The mean temperature of the month, owing to the heavy rainfall, was about 2 2° below the normal, the seat of the largest defect being in Chota Nagpur, where it equalled about 5°. Humidity and cloud proportion were generally in excess

of the normal The rainfall of the province as a whole was about 37 per cent in excess of the normal, and practically all the large divisions received a normal fall or an excess amount, the largest excess being 83 per cent in South West Bengal and 85 per cent. in Chota Nagpur In the case of one or two small districts, however, the falls were decidedly defective, and Puri registered a defect of 55 per cent, Jalpaiguri one of 47 per cent, Kuch Bihar one of 33 per cent, and Darbhanga one of 27 per cent

Throughout the greater part of July weather was of ordinary monsoon character A noteworthy circumstance in the conditions of this month was the almost entire absence of barometric depressions in the Bay The only depression of importance was one which formed on the 29th in the north-west angle of the Bay, where it remained till nearly the end of the month slowly developing and finally becoming of moderate importance, but on the 31st it was still lying off the Orissa coast A second noticeable feature in the month was the position of the trough of low pressure, which usually runs from Orissa to Sind, but which during July was frequently close to the Himalayas This caused the rain bearing current to be deflected strongly towards the north of the province, while the west and south-west of the province was influenced by drier winds than usual, and hence received less rainfall

The general pressure for the month was again above the normal, the usual excess ranging from 0 03" and 0 04" in the south of the province to 0 01" to 0 02" along the base of the Himalayas Temperature was also generally in defect of the normal by very small amounts, the usual defect equalling between half and one degree Humidity and cloud proportion were usually in slight excess

Rainfall, as before stated, was abundant in the north of the province, where North Bengal received an average fall of 23 39 inches or 66 per cent more than usual, while the excess in North Bihar equalled 51 per cent of the normal fall. On the other hand, Orissa received a fall 33 per cent less than usual, and there was a defect of 6 per cent in South-West Bengal. For the whole province the general fall was 18 per cent above the normal amount for the month

The following districts in July received about two thirds or less than two thirds of the usual amount of rain —Puri, Cuttack, Balasore, Midnapore, Howrah, Chittagang, Dacca, Lohardaga and Singhbhum

In August the monsoon conditions were decidedly less strongly developed than in July There was again an almost entire absence of anything like severe barometric depressions originating over the Bay of Bengal The small storm which was off the Orissa coast at the end of July, passed inland on August 1st, and advanced north westwards, filling up near Sutna on the 4th or 5th This gave a moderate advance of monsoon winds in its rear. Very slight depressions also passed from the Bay over Orissa on the 19th and 24th, but they were of no practical importance, and brought up very little rainfall.

The mean pressure for August was about normal, the variation being generally less than a hundredth of an inch Owing to the lightness of the rainfall, the mean temperature was in excess in most districts by a few tenths of a degree Cloud proportion and humidity were decidedly less than usual. The only division in which the rainfall was equal to the normal was East Bengal, but in all other districts the falls are defective by amounts ranging up to 36 per cent of the normal in South West Bengal. The general average fall of the whole of Bengal showed a defect of 19 per cent In the following districts the defects were 50 per cent and above —Howrah, Burdwan, Birbhum,—and in the following the defects varied from 25 to 50 per cent —Cuttack, Midnapore, 24 Parganas, Hooghly, Bankura, Nadia, Jessore, Backergunge, Malda Bhagalpur, Shahabad Gaya, Patna, Hazaribagh, Lohardaga, and Palamau

In September the monsoon conditions were relatively much stronger than in August, and in addition some noticeable cyclonic storms and barometric depressions were formed On September 1st a shallow low pressure area covered the north of the Bay, and this continued to deepen as the centre approached the coast, and on the morning of the 3rd, when the centre was between Saugor Island and Balasore, it had become rather a severe storm The storm advanced quickly in a north westerly direction, and on the 4th was close to Allahabad. On the 5th it was near Delhi, while on the 6th it had passed into the Himalayas not very far from Simla This storm brought up a heavy wave of monsoon

winds in its rear, and gave a heavy burst of rainfall. A second storm commenced to form over the north of the Bay on the 9th, and after developing rather rapidly, passed inland between Saugor Island and Balasore on the 11th On the 12th it was in the south-west of Chota Nagpur, on the 13th near Jubbulpore and Sutna, on the 15th between Saugor and Neemuch, and on the 16th close to Mount Abu It then recurved, moving very slowly in this process, and afterwards moved rapidly in a north-easterly direction, and broke up on the afternoon of the 19th in the hills near Simla. This storm also brought up another large wave of monsoon winds, which advanced steadily over India for several days and again gave heavy rain in Bengal. On the 20th another depression appeared over the north of the Bay, and this again developed rapidly into a rather severe storm, crossing the Orissa coast on the early morning of the 23rd. This advanced first in a westerly direction to Sambulpur in the Central Provinces, and then in a northerly direction, passing over the west of Bihar into the Himalayas near Katmandu, where it broke up on the 26th This again gave a heavy burst of rainfall to Bengal, particularly to the northern districts From this time till the close of the month the monsoon conditions in Bengal became less strongly pronounced, and the humid winds gradually retreated southwards

During the month the pressure changes were unusually large, and the mean for the period was in defect in all districts, the defect ranging from 0 02″ in North Bengal to 0 07″ in Orissa Temperature was also moderately in defect in all districts, the defect for the whole province equalling about 0 8°. Notwithstanding the occurrence of the numerous storms, cloud proportion was a little lower than usual, though humidity was almost normal

The general rainfall for September in the province was about 24 per cent in excess of the normal amount, the excess being largest in Orissa, Chota Nagpur, and North Bihar Notwithstanding the large general excess the districts of Chittagong and Noakhali received falls of more than 25 per cent below the normal.

The weather in October was again unusually disturbed, for no less than five storms were formed in the Bay, two of which were of feeble nature and the remaining three rather severe The first, which was a feeble barometric depression, advanced over South East Bengal, and the second, which was also a feeble depression, over the west of the Bay and the Madras Presidency A severe barometric depression or cyclonic storm also formed in the west of the Bay and advanced through the Central Provinces into Oudh A very small but severe cyclone also formed in the south-east of the Bay and advanced up the Bay first in a north-westerly and finally in a north-easterly or east north easterly direction, striking the land to the south of Barisal and passing over Noakhali on the 22nd instant Lastly, a small cyclonic storm formed in the centre of the Bay and advanced north-eastwards into Burma Hence with these five storms weather in Bengal was unusually disturbed A wave of moisture-laden winds advanced northwards with each storm and gave cloudy, rainy weather in Bengal, and hence rainfall was much heavier than usual, the falls being in excess in all districts, and the excess being large in North Bihar, East Bengal, and Chota Nagpur The only storm which was at all severely felt in Bengal was the fourth, which, though a small storm, was decidedly intense, and did a certain amount of damage in South East Bengal, particularly in the Noakhali district, while also much damage was done to the shipping in the north of the Bay, specially between Naraingunj and Chittagong

Again the variations of pressure during the month were large, but they were also to a great extent of opposite character, and hence the mean pressure for the month was nearly normal, and was in defect by an average amount of about 0 01″. The average mean temperature of the month in different districts only varied from the normal by a few tenths of a degree, and in almost all cases slight excess amounts were registered Owing to the frequent storms, humidity and cloud proportion were generally in excess

The rainfall of the province generally in October was 25 per cent. larger than the normal The excess was most marked in North Bihar, where it equalled 58 per cent., and in Chota Nagpur, where it was 47 per cent., but in Orissa the excess only equalled 2 per cent, and in North Bengal 5 per cent. Some of the smaller districts, however, received rather larger defects, the defect in Singhbhum

equalling 74 per cent, in Jalpaiguri 49 per cent, and in Rangpur 45 per cent. In the districts of Faridpur, Monghyr, and Darjeeling also the defects equalled a fifth of the normal fall.

The principal features of the monsoon season of 1893 and of the previous months of the year have therefore been as follows —

1. In the first four months of the year, or in what may be called the pre-monsoon months, pressure was in rather large defect in January, in moderate excess in February and March, and practically normal in April.

2 In the same months temperature was throughout largely in defect, the general defect equalling from about 2° to 4°, while in March the defect was excessive and ranged from 4° to 7°

3 Humidity and cloud proportion were in excess throughout the first four months of the year

4 The number of cold weather storms which occurred was very large, and they were also unusually influential and severe

5 The hot weather conditions did not set in over Bengal till nearly the end of March

6 Nor'-westers or hot weather storms did not commence till about the 20th of March, but they were afterwards rather more numerous than usual

7 The rainfall throughout the first four months of the year was excessive, and indeed in February the falls were from three to six times as large as in normal years

8 The first large burst of monsoon winds in the Bay occurred in the middle of May, and one of the most severe cyclones of recent years formed in front of it, and struck the Bengal coast close to Saugor Island at the end of May A second rather severe storm formed in front of the second large advance of the monsoon winds in the middle of June, which struck the coast near Vizagapatam

9 This second advance finally established the monsoon current over Bengal from about the middle of June, or at about the normal date

10 The strength of the monsoon was unusually great in June and July and comparatively small in August

11 During July and August there were no storms or barometric depressions of any importance

12 September and October were unusually stormy months, as there were three rather severe storms in each month and two feeble storms also in October.

13 These storms gave very heavy rain in these two months.

14 Hence the rainfall from May to October was unusually heavy except in August, thus, in May the falls were on the whole about 125 per cent in excess, and in June, July, September and October about 20 to 40 per cent in excess of the normal amounts, though, on the other hand, the falls in August were about 20 per cent in defect

15 Pressure was in defect in May, September and October by small amounts, and in excess or normal in June, July and August

16. Temperature was again in defect for practically the whole of the five months May to October

17 Humidity and cloud proportion were also in general excess during this period

18 The following tables give briefly the amount and variation of the raintall in each of the seven meteorological divisions month by month for the period from 1st May to 31st October inclusive —

Actual Rainfall in inches

Administration—		
Vice Chairman and Port Officer's salary	7,200	7,819
Civil account office general audit charges	910	1,091
Vessel and boats—		
Miscellaneous	4,500	8,000
Harbour Master's pay	1,350	1,385
Hospital charges—		
Menial establishment		342
Half-yearly contribution to the Chittagong Municipality for repayment of loan		2,310
Rent payable on accout of seamen's hospital building		1,800

2. The sanctioned estimate of receipts under the several heads mentioned above has been raised mainly with reference to the actuals of the six months ending on the 30th September 1893

3 Under the head Expenditure the principal items that call for notice are—

I.—Refunds
II.—Administration
III —Vessels and boats
IV —Hospital charges.
V —Miscellaneous

The increase under the head Refunds is due to the payment of interest on loan which was not provided for in the sanctioned estimate, and under Administration, there is an increase of Rs 619 to meet the exchange compensation allowance to the Vice-Chairman and Port Officer. The increase under item III is due to the increase in the amount of coal supplied to the steam-tug *Gekko* and the steam-launch *Active*. The increase under the head Hospital charges is due partly to the establishment entertained for the seamen's hospital, but mainly to the contribution to the Chittagong Municipality for the support of the Municipal Hospital, in which accommodation has been provided for the

treatment of sick seamen The provision of a sum of Rs 14,000 on account of acquisition of land for the construction of jetties and warehouses under the head "Miscellaneous" should be struck out, as there is no likelihood of the land being acquired by the Commissioners of the Port

4 The Lieutenant-Governor sanctions the revised estimate subject to the above remarks

5. The budget estimate for 1894-95 is based generally on the revised estimate for 1893-94, and does not call for any special remarks The Lieutenant-Governor sanctions the estimate of receipts and expenditure for the year 1894-95 under section 69 of Act IV (B C) of 1887

6 An abstract of the revised estimate for 1893 94 and of the estimate for 1894 95 is subjoined

AREAS LIABLE TO FAMINE AND PROGRAMME OF RELIEF WORKS

REVENUE DEPARTMENT, AGRICULTURE.—No. 150

Calcutta, the 9th January 1894

RESOLUTION

READ—

(1) This Government's Resolution No 752T.—R., dated the 19th October 1892

Read also—

(2) This Government's letter No 2713Agri., dated the 31st July 1893, to the Government of India.

(3) Letter No $\frac{2163}{11}$, dated the 9th August 1893, from the Government of India

(4) Resolution No $\frac{3}{31}$, dated the 24th August 1893, of the Government of India, Revenue and Agricultural Department

In Government Resolution No 752T.—R., dated the 19th October 1892, instructions were issued as to the way in which statements of areas liable to famine and programmes of relief works should be prepared. These instructions now require modification, in consequence of the receipt of Resolution of the Government of India, dated 24th August 1893, prescribing certain general rules for the treatment of famine relief works and for the submission of periodical reports.

2. The Government of India having decided to abandon the use of the terms 'Professional Agency' and 'Civil Agency,' the classification of relief works hitherto in force in Bengal requires to be changed. In order to distinguish ordinary works from relief works, the Government of India have laid down the following definitions —

Ordinary works are those on which labourers are employed in the ordinary manner at the rates prevailing in the labour market, and which are not brought under Famine Code rules,

Relief works are those on which wages are given at special rates, and which are brought under Famine Code rules.

The main distinction between an ordinary work and a relief work is that on the former unlimited piece-work is permitted at ordinary rates, whereas on the latter only limited tasks are to be allowed, and a labourer will not be able to earn larger wages than the maximum laid down. The use of the term "piece-work" in connection with any form of labour imposed for purposes of famine relief is hereafter to be avoided, and the term "task work" substituted.

3. Relief works are to be divided into two classes—'large' and 'small,' defined as follows —

I.—*Large works* are works calculated to provide simultaneous employment for three months to at least 1,000 persons.

II.—All other works are *small works*.

The supervision exercised in either large or small works is, so far as possible, to be professional.

4. The Forms 2 and 3 appended to the Resolution of 19th October 1892 were devised to set forth the programme of relief works in each district, and the relation of the relief thus provided to the maximum number of persons likely to require relief. These forms now require alteration, and revised forms are appended to the present Resolution.

5. The programmes of relief works required for Form 2 should be prepared thana by thana, showing separately (i) the roads to be constructed, raised or repaired, (ii) the embankments to be constructed, (iii) the drainage channels to be excavated and improved, (iv) the irrigation reservoirs and channels to be constructed, (v) the tanks to be dug and cleared, and (vi) the wells to be constructed.

6. The figures entered in column 7 of the form should be the number of persons who can finish the work in 90 days. Thus, if 30 persons can finish it in one month, the figures in column 7 will be 10. But where, as in the case of wells, the number thus worked out would be extremely small, the figure in column 7 may be entered for groups of such works.

7. The programmes should be revised annually with due regard to the exhaustion of the works entered in the programme last submitted

8 In each district where there is an Executive Engineer, the Collector should call on him to supply information in Form 2 as to large works, such as Railways, Canals, &c , which he has to propose or which have already received the sanction of Government In districts in which there is no Executive Engineer, the Collector should apply to the Superintending Engineer The list thus received or the list received from the Superintending Engineer should be amalgamated by the Collector with the list sent in by the District Engineer, and a combined programme in Form 2 should be drawn up and submitted to the Commissioner by the 1st April of each year

9 The instructions for filling up Form 3 will be found at the foot of the form

10. The three forms duly filled up, with a map of each district showing the areas liable to famine (tracts more liable being exhibited in deeper shades of blue, and those less liable in lighter shades of blue), should be submitted annually by the Collectors of districts liable to famine to the Commissioner of the Division by the 1st April, and by the Commissioner to the Revenue Department by the 1st May,

11 The districts not liable to famine are those in the Dacca and Chittagong Divisions, the 24-Parganas, Khulna, Jessore and Darjeeling. From the Collectors of these districts the Famine Statements 1, 2 and 3 are not required

12 The draft famine Form C, which was appended to the Resolution of 19th October 1892, has since been amended, and in its present form is attached to the present Resolution as Appendix II It is, however, still imperfect In several districts the figure in column 4, showing the number for whose relief provision has been made, is less than the figure in column 3, which shows the number for whom relief may be required It is necessary that the figure in column 4 should always exceed that in column 3, and District Officers must keep this in mind in preparing the three forms and filling up the figures in columns 6 and 7 of Form 3, which are reproduced in column 4 of Form C

13 The Lieutenant-Governor hopes that these orders will be sufficient to ensure correct returns being prepared and submitted to Government by the 1st May 1894. The subject is of great importance, and Commissioners of Divisions are requested to give it their best attention

ORDER —Ordered that this Resolution with its Appendices be published in the *Calcutta Gazette*, and that copies of it be forwarded to all Commissioners of Divisions and to the Public Works Department of this Government.

By order of the Lieutenant Governor of Bengal,

C. E BUCKLAND,

Secretary to the Government of Bengal

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF DECEMBER 1893

The most important features in the meteorology of December 1893 have been—

1 There has been an almost complete absence of the cold-weather storms originating in or coming from North-Western India, which in many years pass through Bengal in December, particularly in the second half of the month Hence the weather in Bengal has been practically unaffected by this class of disturbances, and it has been fine with lightly clouded or almost cloudless skies throughout the greater part of the month

2 The retreat of the south-west monsoon current in the south of the Bay in December was also unattended with the formation of any cyclonic storms Indeed, there were no barometric depressions even formed over the Bay in December, and hence the weather over the Bay was much less disturbed than usual Again, therefore, no disturbance of the weather in Bengal was caused by these actions

3 The only disturbed conditions at all in Bengal were in the first case due to slightly unsettled conditions which set in over the hills to the north of Bengal at the end of November also to a slight disturbance in North Bengal and Bihar towards the close of December, and to the formation of a depression in North-Western India on the 30th and 31st of December, but the disturbance due to these was very slight Weather was hence fine for almost the whole month

4 Owing, therefore, to the almost complete absence of disturbed weather, there has been practically no rain in Bengal throughout the month, and only slight showers have been reported in North and East Bengal, but these were so light that the average falls for the month only equalled a hundredth of an inch in these two divisions

5 The mean pressure for the month was in distinct excess, the usual excess equalling from 0 03" to 0 05", and the excess being largest generally in the north of the Province

6 The mean temperature for the month has been in excess in Bengal by about 0 4° and in defect in Assam by 2 4° The excess has been largest in the west of the Province, where at many stations it has equalled from 1° to 2°, while the defect at Sibsagar, the most eastern station, has been 3 6°

7 Owing to the absence of disturbed weather, cloud proportion has been in very considerable defect in all districts, but on the other hand humidity has been rather higher than usual

The meteorological changes therefore during the month of December do not call for any detailed review In the first week pressure and temperature were generally in excess, and fine settled weather with almost cloudless skies prevailed for almost the whole period, though somewhat cloudy weather was reported in East and North Bengal on two or three days, and a few light local showers of no practical importance fell in these districts on the 4th and 5th Fine settled weather prevailed also throughout the whole of the second week, and there was absolutely no rainfall except for a few light showers in the Darjeeling district, which were reported about the 16th The mean pressure continued in excess in the second week by about 0 09" to 0 07", but on the other hand the mean temperature showed a defect of about 2 1° In the third week pressure was again in slight excess, and temperature usually in very small defect, and throughout the whole week a steady north-east monsoon wind current was blowing over the province and skies were practically cloudless, while no rain was reported from any station In the fourth week conditions were very slightly altered for a few days by the formation of a very feeble low-pressure area over parts of North Bengal and Bihar, which caused a temporary commencement of southerly winds in South Bengal and with a consequent rapid increase of temperature and humidity for a few days, but the low-pressure area rapidly disappeared, and the northerly winds were driven back, and normal north-east monsoon conditions again set in In the last week of the month also pressure had become in slight defect, while temperature had again become in slight excess Quite at the close of the month also, on the 30th and 31st, a barometric depression entered North-Western India, but it did not practically affect the weather in Bengal till the beginning of January

The meteorological changes during the month were therefore unusually small even for the north-east monsoon months, and fine settled weather with comparatively low temperature and rather high pressure, and with a fairly steady northerly wind current prevailed for the greater part of the month Skies were also almost cloudless for the greater part of the period, and, except for a few light local showers of no practical importance, the Province was rainless for the whole month

Pressure —The mean pressure for the month ranged from 30 1 inches at the stations in the west of Bihar to 30 03 and 30 04 inches in South-East Bengal, showing hence a small to moderate gradient Compared with the normal, the mean pressure for the month has been in excess by about 0 04 inch, and as a rule the excess has been largest at the northern stations and smallest in Orissa, the excess at several stations in North Bengal equalling 0 05 inch, while in Orissa the excess has equalled about half this amount In Assam the excess pressure has ranged from 0 073 inch at Sibsagar to 0 03 inch at Dhubri.

Temperature—The average mean temperature for the month in Bengal has been 0·4° above the normal, while in Assam there has been a defect of 2 4° The excess has been largest in the west of Bihar, and the defect largest at Sibsagur, in the east of Assam, while small defects have also been registered over the eastern half of Bengal. The largest variations have been from an excess of 1 5° at Ranchi and one of 1 7° at Buxar to a defect of 3 6° at Sibsagar.

The variation of the mean maximum or day temperatures for the month was very similar to the variation of the mean temperature, and the western half of Bengal has shown day temperatures slightly above the normal, while the eastern half of Bengal and Assam have shown small defects In the case of the night or minimum temperature, the defects have been confined to a rather smaller area The greater part of Bengal has shown slight excess night temperature, and the defects were confined to the extreme eastern stations of Bengal and to Assam

The general variation of temperature from the normal of the month is best shown by the following table, which gives the variation of the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province, week by week, throughout the month —

Rainfall—There have been no rainfalls of importance during the month North and East Bengal have each received an average fall of one hundredth of an inch, but all other districts have been rainless Gnatong has received 0 27 inch and Chittagong 0 12 inch, but with these exceptions the falls in Bengal have been very light In Assam Sibsagar has received 0 35 inch of rain, but Dhubri and Silchar have received none at all

The following table gives in a condensed form the summary of the rainfall information in Bengal for the whole year It gives a comparison between the actual monthly and total rainfall of the year with the normal values in each of the seven meteorological divisions of Bengal, the actual falls being expressed as percentages of the normal amounts From these figures it will be seen that all the districts have received falls considerably larger than usual during the year, the excess varying from 16 per cent in North Bengal to 43 per cent in Orissa Taking Bengal as a whole the rainfall of 1893 has been larger than the normal amount by 28 per cent —

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 8 feet higher at Alipore, and, other things being equal, reads therefore 003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2 3° lower, and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0 6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

* Means of 6 days

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period [illegible] the *humidity* of the atmosphere is expressed at percentage saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10 [illegible] *rainfall* the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station [illegible] district, *i.e.,* from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 6th of January 1894

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Explanation— indicates that no rain has fallen If the return for any day has not been received the corresponding space is left blank If any of the returns are wanting the corresponding spaces in the total rain all columns are left blank With reference to the column of rainy days, the definition of a rainy day is when at least 1 0 inch of rain has fallen

CALCUTTA, *the 9th January 1894*

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A M, SATURDAY, THE 6TH OF JANUARY 1894

UP till the close of the previous work conditions in Bengal had been of ordinary north-east monsoon character On the 30th of December, however, a barometric depression had entered North-Western India from Baluchistan, and the centre of the depression was over the Western Desert In connection with this depression pressure fell over the whole of Northern India, and the fall even extended over Bengal, the change being largest at the western stations The depression also caused the winds over Bengal to become more easterly, but it was still too far away to affect the temperature conditions over the Province, though the mean temperature was in excess of the normal, the excess being largest at the western stations and smaller at the eastern stations On the 31st, or the first day of the week under review, the barometric depression over the Western Desert had deepened very considerably and had become a distinct cyclonic storm, but it had not changed its position Its effect on the conditions in Bengal was therefore rather more marked than on the previous day, and pressure continued to fall, while temperature began to increase decidedly Winds also were variable, and at many stations easterly, while humidity also became high On January 1st the small cyclonic storm had partially filled up, and was less definite than it had been, but it had still not moved in position Pressure therefore began to rise slowly in Bengal, but temperature and humidity increased at many stations, and again variable winds prevailed Temperature had increased to such an extent that on this day it was in excess by from 5° to 6° at Buxar, while the excess equalled about 1° to 2° at the eastern stations On the 2nd the depression continued to fill up, but nevertheless weather was still very unsettled over a large part of North-Western and Central India Pressure on this day had again fall n rather decidedly in Bengal, and temperature and humidity were still very high Conditions were to a great extent unchanged on the 3rd, though the disturbed weather over North-Western India was slowly disappearing, but on the 4th the effects of the depression had practically disappeared Pressure had hence commenced to increase in Bengal, winds were becoming more westerly, and temperature and humidity were beginning to decrease rather quickly On the 5th pressure again increased rather briskly in Bengal, winds became fairly normal in direction, and a fall in the mean temperature of about 2° to 4° occurred, temperature becoming in defect at the eastern stations, though slight excess temperatures were still registered over the western half of the Province Humidity had also decreased decidedly On the 6th, or the last day of the week, pressure had again increased slowly in Bengal, though it was still in defect by from 0 03″ to 0 05″ The cold wave of air produced by the heavy rain accompanying the depression over North-Western India and by the snow which had fallen in the hills continued to advance over Bengal, and on this day the mean temperature was below the normal at all except a few of the south-western stations, while a steady and rather dry north-westerly wind current was blowing over practically the whole Province

Thus, while during the greater part of the week conditions were decidedly abnormal, due to the existence of the depression over North-Western India, which gave low pressure with high temperature and high humidity, at the close of the week these abnormal conditions had quite disappeared, and a period of strongly pronounced cold-weather conditions was setting in The disturbed conditions in Bengal during the earlier part of the week were, however, not very strongly developed, and beyond a few light local showers of no practical importance, principally in Orissa, Chota Nagpur and North Bengal, the Province has again been rainless during the week, though the sky has been rather more clouded than usual in the cold-weather months

Pressure —The mean pressure for the week has been in defect in all districts, the usual defect ranging from 0 05″ to 0 08″, and being fairly equally distributed in all districts

Temperature—Has been rather largely in excess in all divisions except East and North Bengal, where there has been a small excess of only about half a degree In the other divisions, the excess in the mean temperature has equalled about 3°, the largest amounts being 3 8° in Orissa and 3 7° in Chota Nagpur

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum, and mean temperatures for the week at nine typical stations in different districts of the Province are compared with the normal values for the same period The variations it will be seen have been large in both the night and day temperatures The minimum temperatures have, however, shown the largest excess, and at such stations as

Cuttack and Patna, the night temperatures have been 5° above the normal, while excess amounts of 3° and 4° have been registered at Calcutta, Burdwan, Gaya and Purnea —

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 6th of January 1894

Rainfall—Has been confined in Orissa to the Puri district, where Bhanpur has received about an inch and-a-half of rain and Pipli nearly half an inch. The Manbhum district in Chota Nagpur has also received about a tenth of an inch, but with these exceptions the whole Province has been almost rainless during the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 6th of January 1893 —

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground

Hira iso—Exhibition of beacon light, and withdrawal of buoy

WITH reference to Notice to Mariners, No 6, dated 9th January 1893, issued by this Office, the British Admiralty has given further notice (No 615 of 1893) that on 11th November 1893, a light would be exhibited from the beacon recently erected on Hira iso, and that on the same date the temporary *red* light and flag exhibited on the rook would be discontinued, and the buoy, previously moored to the southward, withdrawn —

Hira iso beacon light is a *fixed red* light, elevated 39 feet above the sea, and visible in clear weather from a distance of 3 miles. It is shown from a concrete beacon, cylindrical in

shape, painted black, surmounted by a small lantern, and situated in a depth of 5 feet at low water with Yesaki light-house, bearing about W ¾ S (S 81° W.), distant $3\frac{7}{10}$ miles

Approximate position, lat 34° 37′ 45″ N., long 135° 3′ 45″ E.

NOTE —As this light is not constantly watched, it cannot be implicitly depended upon

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 11th January, 1894 —

No 1 OF 1894

THE PRISONS BILL.

CONTENTS

The Prisons Bill

(Chapter I—Preliminary—Sections 1-3 Chapter II—Maintenance and Officers of Prisons—Sections 4-6)

A Bill to amend the law relating to Prisons.

WHEREAS it is expedient to amend the law relating to prisons in British India, and to provide rules for the regulation of such prisons, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

Title, extent and commencement

1 (1) This Act may be called the Prisons Act, 1894

(2) It extends to the whole of British India, inclusive of Upper Burma, British Beluchistan, the Santal Parganas, the Hill Tracts of Chittagong, the Chutia Nagpur Division, the Tarai Parganas, the Pargana of Spiti, and the Zamindari and Amani Estates of Ganjam and Vizagapatam, and the Presidency towns of Calcutta, Madras and Bombay, and

(3) It shall come into force on the day of

Repeal

2 (1) On and after that day the enactments mentioned in the schedule shall be repealed to the extent specified in the third column thereof

(2) But all rules and appointments made, directions given and orders issued under any of these enactments shall, so far as they are consistent with this Act be deemed to have been respectively made, given, and issued under this Act

(3) Any enactment or document referring to any of these enactments shall, so far as may be, be construed to refer to this Act or to the corresponding portion thereof

Definitions

3 In this Act—

(1) "prison" means any central or district or temporary gaol or house of correction or penitentiary, and includes all grounds or buildings appurtenant to or occupied for the use of the prison, but does not include a subsidiary gaol or a place (other than a gaol) specially appointed by the Local Government under section 541 of the Code of Criminal Procedure, 1882, except as to any of the provisions of this Act or the rules made under it which may have been extended to such gaol or place by rule made under section 58

(2) "a subsidiary gaol" means a gaol not being a central or district goal, in which only civil or unconvicted criminal prisoners or convicted criminal prisoners under a sentence not exceeding a period to be fixed in the case of each such gaol by the Local Government are confined, except when it is necessary to detain prisoners with longer sentences in a subsidiary gaol pending removal to a central or district gaol or as convict officers or menials

(3) "criminal prisoner" means any prisoner charged with or convicted of an offence or confined under the provisions of the Code of Criminal Procedure, 1882, or by order of a Court-martial

(4) "convicted criminal prisoner" means any criminal prisoner under sentence of a Court or Court-martial, and includes a person detained in prison under the provisions of Chapter VIII of the Criminal Procedure Code, 1882

(5) "civil prisoner" means any prisoner who is not a criminal prisoner as defined above,

(6) "remission system" means the rules for the time being in force regulating the award of marks to, and the consequent shortening of sentences of, prisoners in gaols, and

(7) "history ticket" means the record to be kept by a prisoner of such information as is required in respect of such prisoner by this Act or the rules made under it

CHAPTER II

MAINTENANCE AND OFFICERS OF PRISONS

Accommodation for prisoners

4 The Local Government shall provide, for the prisoners in the territories under such Government, accommodation in prisons constructed and regulated in such manner as to comply with the requisitions of this Act in respect of the separation of prisoners

Temporary accommodation for prisoners

5 (1) Whenever it appears to the Inspector General of Prisons that the number of prisoners in any prison is greater than can conveniently or safely be kept therein, and it is not convenient to transfer the excess number to some other prison,

or whenever from the outbreak of epidemic disease within any prison, or for any other reason, it is desirable to provide for the temporary shelter and safe custody of any prisoners,

provision shall be made, by such officer and in such manner as the Local Government may from time to time direct, for the temporary shelter and safe custody of so many of the prisoners as cannot be conveniently or safely kept in the prison

(2) Prisoners for whom such temporary shelter is provided shall be subject to the same rules as if they were within the prison

Inspector General of Prisons

6 An Inspector General of Prisons shall be appointed for the territories subject to each Local Government, and shall exercise, subject to the order of the Local Government, the general control and superintendence of all prisons situate in the territories under such Government

Provided always that civil gaols in the Presidency of Bombay shall continue to be managed under the provisions of sections 8 to 16 of Bombay Act II of 1874

The Prisons Bill

(Chapter II.—Maintenance and Officers of Prisons—Section 7. Chapter III—Duties of Officers—Sections 8-17)

Officers of prisons

7. For every prison there shall be a Superintendent, a Medical Officer (who may also be the Superintendent), a Gaoler and such other officers as the Local Government thinks necessary

Provided that in the Presidency of Bombay it shall be competent to the Local Government to declare that in certain prisons the office of Gaoler shall be held by the person appointed Superintendent

---

CHAPTER III

DUTIES OF OFFICERS

Generally

Control and duties of officers of prisons

8 All officers of a prison shall obey the directions of the Superintendent, all subordinate officers shall perform such duties as may be directed by the Gaoler with the sanction of the Superintendent, and the duties of each subordinate officer shall be inserted in a book to be kept by such officer

Officers not to sell, etc, to prisoners

9 No officer of a prison shall sell or let, nor shall any person in trust for or employed by him sell or let, or derive any benefit from selling or letting, any article to any prisoner

Officers not to contract, etc

10 No officer of a prison shall, nor shall any person in trust for or employed by him, have any interest, direct or indirect, in any contract for the supply of the prison nor shall he derive any benefit, directly or indirectly, from the sale or purchase of any article on behalf of the prison or belonging to a prisoner

Superintendent

Superintendent

11 (1) Subject to the orders of the Inspector General of Prisons, the Superintendent shall manage the prison in all matters relating to discipline, labour, expenditure, punishment and control

(2) Subject to such directions as may from time to time be given by the Local Government, the Superintendent of a prison other than a central gaol or a prison situate in a Presidency-town shall obey all lawful orders respecting the prison given by the District Magistrate, and shall report to the Inspector General all such orders and the action taken thereon

Medical Officer

Duties of Medical Officer

12 The Medical Officer shall have charge of the sanitary administration of the prison, and shall perform such duties as may be prescribed by rules made by the Local Government under section 59

Medical Officer to report in certain cases

13 Whenever the Medical Officer has reason to believe that the mind of a prisoner is, or is likely to be, injuriously affected by the discipline or treatment to which he is subjected, the Medical Officer shall report the case in writing to the Superintendent, together with such observations as the Medical Officer thinks proper

Report on death of prisoner

14 On the death of any prisoner, the Medical Officer shall forthwith record in writing the following particulars, namely —

(1) when the deceased was taken ill,

(2) when the Medical Officer was first informed of the illness,

(3) the nature of the disease,

(4) when the prisoner died, and

(5) (in cases where a *post mortem* examination is made) an account of the appearances after death,

together with any special remarks that appear to the Medical Officer to be required

Gaoler

Gaoler

15 (1) The Gaoler shall reside in the prison, unless the Superintendent permits him in writing to reside elsewhere

(2) The Gaoler shall not, without the Inspector General's sanction, be concerned in any other employment

Gaoler to give notice of death of prisoner

16 Upon the death of a prisoner, the Gaoler shall give immediate notice thereof to the Superintendent and the Medical Officer

Gaoler to keep records

17 The Gaoler shall keep, or cause to be kept, the following records —

(1) a register of prisoners admitted,

(2) a book showing when each prisoner is to be released,

(3) a punishment-book for the entry of the punishments inflicted on prisoners for prison offences,

The Prisons Bill

(Chapter III—Duties of Officers—Sections 18-22 Chapter IV—Admission, Removal and Discharge of Prisoners—Sections 23 25. Chapter V—Discipline of Prisoners—Section 26)

(4) a visitors' book for the entry of any observations made by visitors to the prison,

(5) a record of the money and other articles taken from prisoners,

and all such other records as may be prescribed by rules made under section 58 or section 59

18 The Gaoler shall be responsible for the safe custody of the records to be kept by him under section 17, for the commitment warrants and all other documents confided to his care, and also for the money and other articles taken from prisoners

Responsibility of Gaoler

19 The Gaoler shall not be absent from the prison for a night without permission in writing from the Superintendent, but, if absent without leave for a night from unavoidable necessity, he shall immediately report the fact and the cause of it to the Superintendent

Gaoler to be present at night

20 Where a Deputy Gaoler is appointed to a prison, he shall be competent to perform any duty required by this Act or by any rule made under section 58 or section 59 to be performed by the Gaoler

Powers of Deputy Gaoler

Subordinate Officers

21 The officer acting as gate-keeper, or any other officer of the prison, may examine anything carried in or out of the prison, and may stop and search any person suspected of bringing in spirits or other prohibited articles into the prison, or of carrying out any property belonging to the prison, and, if any such articles or property be found, shall give immediate notice thereof to the Gaoler

Duties of gate keeper

22 Subordinate officers shall not be absent from the prison without leave from the Superintendent or from the Gaoler, and before absenting themselves they shall leave their keys in the Gaoler's office

Subordinate officers not to be absent without leave

CHAPTER IV

ADMISSION, REMOVAL AND DISCHARGE OF PRISONERS

23 (1) When a prisoner is first admitted, and whenever he afterwards enters the prison, he shall be searched, and all weapons and prohibited articles shall be taken from him

Prisoners to be examined on admission

(2) Every criminal prisoner shall also, as soon as possible after admission, be examined by the Medical Officer, who shall enter in a book to be kept by the Gaoler, a record of the state of the prisoner's health, and of any wounds or marks on his person, the class of labour he is fit for if sentenced to rigorous imprisonment, and any observations which the Medical Officer thinks fit to add

(3) In the case of female prisoners the search and examination shall be carried out by the matron under the orders of the Medical Officer

24 All money or other articles in respect whereof no order of a competent Court has been made, and which may be brought into the prison by any criminal prisoner, or sent to the prison for his use, shall be placed in the custody of the Gaoler

Effects of prisoners

25 (1) All prisoners previously to being removed to any other prison, shall be examined by the Medical Officer

Removal and discharge of prisoners

(2) No prisoner shall be removed to any other prison, unless the Medical Officer certifies that the prisoner is free from any illness rendering him unfit for removal

(3) No prisoner shall be discharged against his will from prison, if labouring under any acute or dangerous distemper, nor until, in the opinion of the Medical Officer, such discharge is without danger to himself or other persons

CHAPTER V

DISCIPLINE OF PRISONERS

26 The requisitions of this Act with respect to the separation of prisoners are as follows —

Segregation of prisoners

(1) in a prison containing female prisoners as well as males, the females shall be imprisoned in separate buildings, or separate parts of the same building, in such manner as to prevent their seeing, or conversing or holding any intercourse with, the males,

(2) in a prison where male prisoners under the age of eighteen are confined, means shall be provided for separating them altogether from the other prisoners and for separating those of them who have arrived at the age of puberty from those who have not,

(3) unconvicted criminal prisoners shall be kept apart from convicted criminal prisoners, and

(4) civil prisoners shall be kept apart from criminal prisoners

The Prisons Bill

(Chapter V—Discipline of Prisoners—Sections 27-29 Chapter VI.—Food, Clothing and Bedding of Civil and Unconvicted Criminal Prisoners—Sections 30-32 Chapter VII—Employment of Prisoners—Sections 33 35)

Rules as to separation of prisoners

27 The Local Government shall have power to make rules—

(1) as to the description and construction of the cells to be used for the partial or entire seclusion of prisoners under the provisions of this Act,

(2) as to the time during which prisoners not guilty of offences against prison rules may be confined separately

Solitary confinement

28 No cell shall be used for solitary confinement unless it is furnished with the means of enabling the prisoner to communicate at any time with an officer of the prison, and every prisoner confined in a cell for not less than twenty four hours, whether as a punishment or otherwise, shall be visited at least once a day by the Medical Officer or a medical subordinate

Prisoners under sentence of death

29 (1) Every prisoner under sentence of death shall, immediately on his arrival in the prison after sentence, be searched by, or by order of, the Gaoler, and all articles shall be taken from him which the Gaoler deems it dangerous or inexpedient to leave in his possession

(2) Every such prisoner shall be confined in a cell apart from all other prisoners, and shall be placed by day and by night under the charge of a guard

CHAPTER VI

FOOD, CLOTHING AND BEDDING OF CIVIL AND UNCONVICTED CRIMINAL PRISONERS

Certain prisoners may maintain and feed themselves

30 A civil prisoner or an unconvicted criminal prisoner shall be permitted to maintain himself, and to purchase, or receive from private sources at proper hours food, clothing bedding or other necessaries, but subject to examination and to such rules as may be approved by the Inspector General

Restriction on transfer of food clothing &c between certain prisoners

31 No part of any food, clothing, bedding or other necessaries belonging to any civil or unconvicted criminal prisoner shall be given or sold to any other prisoner, and any such prisoner transgressing this regulation shall lose the privilege of purchasing food or receiving it from private sources, for such time as the Superintendent thinks proper

Supply of clothing and bedding to civil and unconvicted criminal prisoners

32 (1) Every civil prisoner and unconvicted criminal prisoner unable to provide himself with sufficient clothing and bedding shall be supplied by the Superintendent with such clothing and bedding as may be necessary

(2) When any civil prisoner has been committed to prison in execution of a decree in favour of a private person, such person, or his representative, shall be liable to pay to the Superintendent on demand the cost of the clothing and bedding so supplied to the prisoner, and in default of such payment the prisoner shall be released

CHAPTER VII

EMPLOYMENT OF PRISONERS

Employments of civil prisoners

33 (1) Civil prisoners may, with the Superintendent's permission, work and follow any trade or profession

(2) Civil prisoners finding their own implements, and not maintained at the expense of the prison, shall be allowed to receive the whole of their earnings, but the earnings of such as are furnished with implements or are maintained at the expense of the prison shall be subject to a deduction, to be determined by the Superintendent, for the use of implements and the cost of maintenance

Employment of criminal prisoners

34 (1) No criminal prisoner sentenced to labour or employed on labour at his own desire shall, except on an emergency with the sanction in writing of the Superintendent, be so employed for more than nine hours in any one day

(2) The Medical Officer shall from time to time examine the labouring prisoners while they are employed, and shall at least once in every fortnight have recorded upon the history-ticket of each prisoner employed on labour the weight of such prisoner at the time

(3) When the Medical Officer is of opinion that the health of any prisoner is likely to be injured by a continuance of any kind or class of labour, he shall not be employed on such labour but shall be placed on such other kind or class of labour as the Medical Officer may consider suited for him

Employment of criminal prisoners sentenced to simple imprisonment

35 (1) Provision shall be made by the Superintendent for the employment (as long as they so desire) of all criminal prisoners sentenced to simple imprisonment

(2) The Superintendent shall make rules as to the amount and nature of such employment, but no prisoner not sentenced to rigorous imprisonment shall be punished for neglect of work excepting by such alteration in the scale of diet as may be established by the rules of the prison in the case of neglect of work by such prisoners.

CHAPTER VIII

HEALTH OF PRISONERS

Sick prisoners

36. (*1*) The names of prisoners desiring to see the Medical Officer or appearing out of health in mind or body shall be reported by the officer in immediate charge of them to the Gaoler.

(*2*) The Gaoler shall, without delay, call the attention of the Medical Officer to any prisoner desiring to see him, or who is ill, or whose state of mind or body appears to require attention,

and shall carry into effect all lawful directions given by the Medical Officer in writing respecting alterations of the discipline or treatment of any such prisoner.

Record of directions of Medical Officer

37. All directions given by the Medical Officer in relation to any prisoner, with the exception of orders for the supply of medicines or directions relating to such matters as are carried into effect by the Medical Officer himself or under his superintendence, shall be entered day by day in the prisoner's history ticket or in such other record as the Local Government may by rule direct, and the Gaoler shall make an entry in its proper place stating in respect of each direction the fact of its having been or not having been complied with, accompanied by such observations, if any, as the Gaoler thinks fit to make, and the date of the entry.

Infirmary

38. In every prison an infirmary or proper place for the reception of sick prisoners shall be provided.

CHAPTER IX

VISITS TO, AND CORRESPONDENCE OF, PRISONERS

Visits to civil and unconvicted criminal prisoners

39. (*1*) Due provision shall be made for the admission, at proper times and under proper restrictions, into every prison of persons with whom civil or unconvicted criminal prisoners may desire to communicate.

(*2*) The Local Government shall regulate the communication and correspondence of prisoners with their friends in such manner as it may think necessary for the maintenance of good order and discipline.

Gaoler may search visitors

40. (*1*) The Gaoler may demand the name and address of any visitor to a prisoner, and, when the Gaoler has any ground for suspicion, may search any visitor, or cause him to be searched, but the search shall not be made in the presence of any prisoner or of another visitor.

(*2*) In case of any such visitor refusing to permit himself to be searched, the Gaoler may deny him admission, and the grounds of such proceeding, with the particulars thereof, shall be entered in his journal.

CHAPTER X

OFFENCES IN RELATION TO PRISONS

Penalty for introduction of prohibited articles into prison and communication with prisoners

41. Whoever, contrary to the rules made under section 59, brings, throws or attempts by any means whatever to introduce into any prison or any place provided under section 5 for the temporary shelter and safe custody of prisoners, or gives or attempts to give to any prisoner outside the limits of a prison, any article mentioned in the said rules,

and every officer of a prison who, contrary to such rules, knowingly suffers any such article to be introduced into any such prison or place, to be possessed by any prisoner or to be given to any prisoner outside the limits of a prison,

and whoever, contrary to such rules, communicates or attempts to communicate with any prisoner,

and whoever abets any offence made punishable by this section,

shall, on conviction before a Magistrate, be liable to rigorous imprisonment for a term not exceeding six months, or to fine not exceeding two hundred rupees, or to both.

Power to arrest for offence under section 41

42. When any person, in the presence of any officer of a prison, commits any offence specified in the preceding section and refuses on demand of such officer to state his name and residence, or gives a name or residence which such officer knows, or has reason to believe, to be false, such officer may arrest him, and shall without unnecessary delay make him over to a Police-officer, and thereupon such Police-officer shall proceed as if the offence had been committed in his presence.

Publication of penalties

43. The Superintendent shall cause to be affixed, in a conspicuous place outside the prison or the place provided as aforesaid, a notice in English and the local Vernacular setting forth the penalties incurred by persons committing any offence under section 41.

The Prisons Bill.

CHAPTER XI

PRISON-OFFENCES

44 The following acts are declared to be prison offences when committed by a prisoner —

Prison offences

(*1*) such wilful disobedience to the regulation of the prison by any prisoner as shall have been declared by rules made under section 58 to be a prison offence,

(*2*) an assault or use of criminal force by any prisoner,

(*3*) the use of insulting or threatening language by any prisoner,

(*4*) immoral or indecent or disorderly behaviour by any prisoner,

(*5*) wilfully disabling himself from labour,

(*6*) contumaciously refusing to work,

(*7*) filing cutting, altering or removing handcuffs, fetters or bars,

(*8*) wilful idleness or negligence at work by any prisoner sentenced to rigorous imprisonment,

(*9*) wilful mismanagement of work by any prisoner sentenced to rigorous imprisonment,

(*10*) wilful damage to prison property,

(*11*) tampering with or altering or defacing history tickets, records or documents,

(*12*) receiving, possessing or transferring any articles contrary to the rules made under section 59 of this Act,

(*13*) feigning illness or concealing illness,

(*14*) wilfully bringing false accusations against any officer or prisoner,

(*15*) omitting or refusing to report, as soon as it comes to his knowledge, the occurrence of any fire, any plot or conspiracy, any escape, attempt or preparation to escape, and any attack or preparation for attack upon any prisoner or gaol official,

(*16*) conspiring to escape, or to assist in escaping, or to commit any other of the offences aforesaid

45 The Superintendent may examine any person touching any such offence, and determine thereupon, and punish such offence by—

Punishment of such offences

(*1*) a formal warning

EXPLANATION — A formal warning shall mean a warning personally addressed to a prisoner by the Superintendent and recorded in the punishment-book and on the prisoner's history-ticket,

(*2*) change of labour to some more irksome or severe form,

(*3*) hard labour for a period not exceeding seven days in the case of prisoners not sentenced to rigorous imprisonment,

(*4*) such loss of privileges admissible under the remission system for the time being in force as may be prescribed by rules made by the Governor General in Council,

(*5*) penal diet, that is, restriction of diet in such manner and subject to such conditions regarding labour as may be prescribed by the Local Government

Provided that such restriction of diet shall in no case be applied to a prisoner for more than ninety six consecutive hours, and shall not be repeated except for a fresh offence nor until after an interval of one week,

(*6*) solitary confinement for any period not exceeding seven days

Provided that after each period of solitary confinement an interval of not less duration than such period must elapse before the prisoner is again sentenced to solitary or separate confinement

EXPLANATION —Solitary confinement means such confinement with or without labour as entirely secludes the prisoner both from sight of, and communication with, other prisoners,

(*7*) separate confinement for any period not exceeding fourteen days

Provided that after each period of separate confinement an interval of not less duration than such period must elapse before the prisoner is again sentenced to separate or solitary confinement

EXPLANATION —Separate confinement means such confinement with or without labour as entirely secludes a prisoner from communication with, but not from sight of, other prisoners

(*8*) cellular confinement for any period not exceeding six months

EXPLANATION —Cellular confinement means such confinement with or without labour as secludes a

(Chapter XI – Prison offences—Sections 46-51.)

prisoner from communication with, but not from sight of, other prisoners and allows him not less than one hour's exercise per diem;

(9) penal diet as defined in clause (5) combined with solitary confinement as defined in clause (6);

(10) imposition of handcuffs of such pattern, and subject to such rules as to manner and period of imposition as may be prescribed by rules made by the Governor General in Council;

(11) imposition of fetters of such pattern and weight, in such manner and for such period, as may be prescribed by rules made by the Governor General in Council;

(12) the substitution of gunny for clothing of other material for a period which shall not exceed three months;

(13) whipping, provided that the number of stripes shall not exceed thirty.

Provided that nothing in this section shall render any female or civil prisoner liable to the imposition of any form of handcuffs or fetters or to whipping.

Plurality of punishments under section 45.

46. Any two of the punishments enumerated in section 45 may be awarded for any such offence in combination, subject to the following exceptions, namely:—

(1) formal warning shall not be combined with any other punishment;

(2) penal diet shall not be combined with "change of labour," nor shall any additional period of penal diet awarded singly be combined with any period of penal diet awarded in combination with solitary confinement;

(3) solitary confinement shall not be combined with separate confinement or with cellular confinement, or separate confinement with cellular confinement, so as to prolong the total period of seclusion to which the prisoner shall be liable;

(4) whipping shall not be combined with any other form of punishment except separate confinement and loss of privileges under the remission system.

Plurality of punishment under sections 45 and 46.

47. (1) The Superintendent shall have power to award any of the punishments enumerated in sections 45 and 46 of this Act, subject, in the case of cellular confinement for a period exceeding one month, to the previous confirmation of the Inspector General.

(2) No officer subordinate to the Superintendent shall have power to award any punishment whatever.

Punishments to be in accordance with foregoing sections.

48. (1) No punishment other than those specified in the foregoing sections shall be inflicted on any prisoner, and no punishment shall be inflicted on any prisoner otherwise than in accordance with the provisions of the foregoing sections.

(2) Any Gaoler or subordinate officer of a gaol contravening this section shall be held to have committed an offence punishable under section 53 of this Act.

Medical Officer to certify to fitness of prisoner for punishment.

49. (1) No punishment of penal diet either singly or in combination, or of whipping, shall be executed until the prisoner awarded such punishment has been examined by the Medical Officer who, if he considers the prisoner fit to undergo the punishment awarded, shall certify accordingly in the appropriate column of the punishment book prescribed in section 17.

(2) If he considers the prisoner unfit to undergo the punishment awarded he shall in like manner record his opinion in writing and shall state whether the prisoner is absolutely unfit for punishment of the kind awarded, or whether he considers any modification necessary.

(3) In the latter case he shall state what extent of punishment he thinks the prisoner can undergo without injury to his health.

Entries in punishment-book.

50. (1) In the punishment book prescribed in section 17 of this Act there shall be recorded, in respect of every punishment inflicted, the prisoner's name, register number and the class (whether habitual or not) to which he belongs, the offence of which he was guilty, the date on which such offence was committed, the number of previous offences recorded against the prisoner, and the date of his last offence, the punishment awarded, and the date of infliction.

(2) In the case of every serious offence the names of the witnesses proving the offence shall be recorded, and, in the case of offences for which whipping is awarded, the Superintendent shall record the substance of the evidence of the witnesses, the defence of the prisoner, and the finding with the reasons therefor.

(3) Against the entries relating to each punishment the Gaoler and Superintendent shall affix their initials as evidence of the correctness of the entries.

Procedure on commitment of heinous offence.

51. If any prisoner is guilty of any offence against gaol discipline which, by reason of his having frequently committed such offences or

otherwise, in the opinion of the Superintendent is not adequately punishable by the infliction of any punishment awardable by himself under this Act, the Superintendent may forward such prisoner to the Court of the District Magistrate or of any Magistrate of the first class having jurisdiction, together with a statement of the circumstances, and such Magistrate shall thereupon inquire into and try the charge so brought against the prisoner, and upon conviction, may sentence him to imprisonment of either description which may extend to one year, such term to be in addition to any term for which such prisoner was undergoing imprisonment when he committed such offence, or may sentence him to any of the forms of punishment specified in sections 45 and 46 of this Act

Provided that no person shall be punished twice for the same offence

Whipping

52 (*1*) No punishment of whipping shall be inflicted in instalments, or except in the presence of the Superintendent and Medical Officer or medical subordinate

(*2*) Whipping shall be inflicted with a light ratan not less than half an inch in diameter on the buttocks, and in case of prisoners under the age of sixteen it shall be inflicted with a lighter ratan in the same manner

Punishment of officers of gaol

53 (*1*) Every Gaoler or subordinate officer of a prison all treating any prisoner, or wilfully violating or neglecting any provision of this Act or any rule made under section 58 or section 59, shall be liable, under the orders of the Superintendent or Inspector General, to fine not exceeding three months' pay

(*2*) Any fine imposed under this section may be recovered, either by deductions from the officer's salary, or under the law for the time being in force for the recovery of fines

Offences by officers of gaol

54 (*1*) Every Gaoler or subordinate officer of a prison who shall be guilty of any violation of duty or wilful breach or neglect of any rule or regulation or lawful order made by competent authority, or who shall withdraw from the duties of his office without permission, or without having given previous notice in writing of his intention for the period of two months, or who shall engage without authority in any employment other than his gaol duty or who shall be guilty of cowardice, or who shall offer any personal violence not warranted by the circumstances to any person in his custody, shall be liable, on conviction before a Magistrate, to a penalty not exceeding two hundred rupees or to imprisonment, with or without hard labour, for a period not exceeding three months, or to both

(*2*) No person shall, under this section or section 53, be punished twice for the same offence

CHAPTER XII

MISCELLANEOUS

Confinement in irons

55 Whenever the Superintendent considers it necessary (with reference either to the state of the prison or the character of the prisoners) for the safe custody of any prisoners that they should be confined in irons, he may, subject to such rules and instructions as may be laid down by the Inspector General with the sanction of the Local Government, so confine them

Confinement of prisoners under sentence of transportation in irons

56 (*1*) Prisoners under sentence of transportation shall, subject to any rules made under section 59, be confined in fetters for the first three months after admission to prison

(*2*) Should the Superintendent consider it necessary, either for the safe custody of the prisoner himself or for any other reason, that fetters should be retained on any such prisoner for more than three months, he shall apply to the Inspector General of Prisons for sanction to their retention for the period for which he considers their retention necessary, and the Inspector General may sanction such retention accordingly

Prisoners not to be ironed by Gaoler except under necessity

57 No prisoner shall be put in irons or under mechanical restraint by the Gaoler of his own authority, except in case of urgent necessity, in which case notice thereof shall be forthwith given to the Superintendent

Power to make rules

58 The Governor General in Council may for any part of British India, and each Local Government with the previous sanction of the Governor General in Council may for the territories under its administration, make rules consistent with this Act—

(*1*) defining the acts which shall constitute prison offences,

(*2*) determining the classification of such offences into serious and minor offences,

(*3*) fixing the punishments admissible under this Act which shall be awardable for commission of such offences or classes of offences,

The Prisons Bill

(Chapter XII—Miscellaneous—Sections 59-61.)

(4) declaring the circumstances in which acts constituting both a prison-offence and an offence under the Indian Penal Code may or may not be dealt with as a prison offence;

(5) for the award of marks and the shortening of sentences;

(6) authorising the use of arms against any prisoner or body of prisoners in the case of an outbreak or attempt to escape;

(7) extending any or all of the provisions of this Act and of any rules made thereunder to subsidiary gaols, or special places of confinement appointed under section 541 of the Code of Criminal Procedure, 1882, and to the officers in charge thereof.

59. (1) The Local Government may, subject to the control of the Governor General in Council, make rules consistent with this Act—

Power of Local Government to make rules.

(1) for the government of prisons and for the guidance of all officers appointed under this Act;

(2) as to the food, bedding and clothing of criminal prisoners and of civil prisoners maintained otherwise than at their own cost;

(3) for the employment and control of convicts within or without prisons, and for the guidance of the guards in charge of such convicts;

(4) for defining articles the introduction of which into prisons without due authority is prohibited;

(5) for the classification of the forms of labour;

(6) for regulating the manner in which the proceeds of the employment of prisoners shall be disposed of;

(7) for regulating the confinement in fetters of prisoners sentenced to transportation;

(8) for the classification and the separation of prisoners;

(9) for the preparation and maintenance of history tickets;

(10) for the selection and appointment of prisoners as officers of prisons;

(11) for rewards for good conduct;

(12) for regulating the transfer or removal of prisoners from one prison or place to another;

(13) for the treatment, transfer and disposal of criminal lunatics or recovered criminal lunatics confined in prisons;

(14) for regulating the transmission of appeals and petitions from prisoners;

(15) for the appointment and guidance of visitors of prisons; and

(16) generally, in regard to the admission, custody, employment, dieting, treatment and release of prisoners, and for other purposes consistent with this Act.

(2) Copies of such rules, so far as they affect the government of prisons, shall be exhibited in some place to which all persons employed within a prison have access.

60. All rules now in force relating to any of the matters mentioned in sections 12, 27, 35, 55, 56, 58 and 59 shall, so far as such rules are consistent with this Act, be deemed to have been made under those sections respectively, and the existing officers of prisons shall be deemed to have been appointed under this Act.

Validation of certain existing rules.

61. All or any of the powers and duties conferred and imposed by this Act on a Superintendent may be exercised and performed by such other officer as the Local Government may from time to time appoint in this behalf either by name or by his official designation.

Exercise of powers of Superintendent.

STATEMENT OF OBJECTS AND REASONS

THERE are at present four different Acts in force for the regulation of jails in British India and for the enforcement of discipline therein These Acts differ *inter se* in various important points, namely as to the jail offences enumerated in them, as to the punishments which may be inflicted for these offences, and as to the authorities competent to inflict these punishments In consequence divergent systems of jail management have grown up in the several Provinces, whereby there has been a sacrifice of that uniform enforcement of sentences of imprisonment which effective general administration requires The object of this Bill is to repeal the four local Acts and to prescribe a uniform system of prison management in India

2 The Bill is mainly based on Act XXVI of 1870 (*an Act to amend the law relating to Prisons*), which is in force in the North Western Provinces and Oudh, the Punjab, the Central Provinces, Coorg and Burma, with amendments embodying the conclusions arrived at by the Government of India on the Report of the Jail Committee of 1889 and the Report of the Prison Conference of 1892 as stated in the Resolution recorded in the Home Department of the 9th November, 1892, and in the Circular letter to Local Governments and Administrations, dated the 25th March, 1893, to which it appeared necessary to give legislative form

3 The details of the Bill which appear to call for remark are noticed in this paragraph

Section 3 provides for clearer definitions of the terms "prison," "subsidiary gaol," "criminal prisoner," "convicted criminal prisoner," and "civil prisoner," and adds definitions of the terms "remission system" and "history-tickets"

Section 11 —The powers of a District Magistrate to issue orders to the Superintendent of a prison have been restricted to prisons other than central gaols or prisons situated in a Presidency-town

Section 12 —The sanitary administration of a prison has been vested in the Medical Officer

Section 23 —An addition has been made to this section, which provides a useful precaution against false charges of police torture or the means of detecting such mal-practices, if committed It also makes separate provision for the search and examination of female prisoners after admission into prison

Section 26 makes provision for the separation of juveniles who have arrived at the age of puberty from those who have not

Section 28 requires the Medical Officer or a subordinate Medical Officer to visit each prisoner confined in cells at least once a day

Section 34 restricts the employment of criminal prisoners sentenced to labour to nine hours in any one day, except on an emergency, and then only with the sanction in writing of the Superintendent With the view of watching more closely the health of prisoners this section provides for recording the weight of criminal prisoners at least once a fortnight upon their history tickets, and places upon the Medical Officer the responsibility of seeing that a prisoner's health is not injured by the work on which he is employed

Section 44 —This section follows the general principles embodied in the existing Prisons Acts (themselves based upon English legislation) and includes in the law itself a statement of the most important jail offences A few additional offences which seemed of sufficient importance have been included in this section, but it is still necessary to reserve the power of making rules the breach of which involve penal consequences, since every breach of a jail regulation is a jail offence, and it is not possible to include in the Act all the regulations which have to be observed in jails or expedient to make legislation necessary for the purpose of adding to or altering them In order to provide for the equal treatment of prisoners throughout India, however the first clause of this section, relating to prison regulations generally, has been restricted by providing that, to make disobedience to such regulations punishable, the rules creating offences must be sanctioned by the Governor General in Council

Section 45 —Hitherto there have been in use in jails, besides the punishments prescribed in the existing laws, other forms of punishments, consisting in the modification, to the disadvantage of a prisoner, of matters of discipline or treatment left to the discretion of the executive, such as loss of marks, relegation to a disagreeable form of labour, modifi-

cation of diet, forfeiture of privileges, etc In order, however, to prevent the introduction of objectionable forms of punishment and to secure the due record of all punishments of whatever nature, it has been considered desirable to specify exhaustively all the forms of punishment which may be resorted to, and while the section retains those forms of punishment which are laid down in the present law, clauses (1), (2), (4) and (5) introduce into it the descriptions of punishment which have hitherto prevailed at the discretion of the executive In some of the remaining clauses modifications have also been made Clauses (6), (7) and (8) distinguish between the different degrees of solitary, separate and cellular confinement which may be used as a punishment and are borrowed from Provincial Jail Codes where they have been found successful Clause (9) provides for the combination of penal diet and solitary confinement, the maximum period for which penal diet may (under clause (5)) be imposed at one time is entered at ninety-six hours instead of seventy two hours as in section 48 (2) of the Act of 1870, but this is in accordance with the law in force in Bombay (Bombay Act II of 1874, section 35, proviso) and has met with general approval Clauses (10) and (11) relate to the imposition of irons as a punishment, which under the Act of 1870 can in other Provinces than Bengal only be ordered by the Magistrate under section 49 of the Act of 1870 The restrictions which have of late years been placed on the employment of corporal punishment and the objections to the frequent use of penal diet, make it necessary to invest Superintendents with some additional means of coercion for the control of unruly and hardened criminals Clause (12) adds a minor punishment which has been found useful in Bengal in connection with thefts and destruction of prison clothing Female and civil prisoners are specially excluded from the punishments of handcuffs or fetters and from whipping

Sections 46 to 50 have been recommended by the Conference of experts on jail management from all Provinces who were convened by the Government of India in the early part of 1892 for the purpose of preparing an amended and consolidated Prisons Bill for all India

Section 51 reproduces the section bearing number 49 in the Act of 1870, but the period of additional imprisonment which may be ordered by the Magistrate after judicial trial has been increased from six months to one year It also provides that the Court may resort to any of the ordinary forms of jail punishment as it thinks fit, to meet the case of a Magistrate taking a different view from the Superintendent of the gravity of the prisoner's offence

Section 54 is borrowed from the Police Act, V of 1861, section 29, and is likely to prove a useful provision

Sections 55 and 56 —These sections are based on the rules in force in Madras and have been accepted generally by Local Governments and Administrations

Sections 58 and 59 —These sections make provision for framing the necessary rules for regulating the matters which are left by the previous sections of the Bill to be dealt with by such rules

RESOLUTION ON THE ANNUAL FOREST ADMINISTRATION REPORT OF THE LOWER PROVINCES OF BENGAL FOR 1892-93

REVENUE DEPARTMENT—FORESTS

Calcutta, the 12th January, 1894

RESOLUTION—No 238

READ—

The Progress Report of the Forest Administration in the Lower Provinces of Bengal for the year 1892-93

THE Report, which was due on the 1st of October, reached the hands of Government on the 1st November 1893. The Report for the year 1891-92 embraced the period from the 1st April 1891 to the 31st March 1892, but as the Forest year now extends from the 1st July to the 30th June, the present report embraces the fifteen months from the 1st April 1892 to the 30th June 1893 The Conservator of Forests states that in certain points the exact intentions of the Forest Department Code as regards the Annual Report have not been grasped, and assigns this as the reason for omitting Return No. 49. The explanation, however, is not very clear, and the remarks which the Conservator makes in regard to this return should have been made the subject of a separate communication.

Area of Reserved Forests.

2. *Extension and constitution of Forests.*—The total area of the Reserved Forests at the end of the year was 5,703 square miles as against 5,211 square miles at the end of the previous year, showing an increase of 492 square miles. This increase is of a nominal description, being mainly due to the recalculation of the Reserved area in the

Sundarbans including the whole of the water area, which (except the minor channels) had not previously been included. The increase from this cause amounted to 517 square miles The actual addition to the Reserves was an area of 10 square miles in Hazaribagh, but, on the other hand, the realignment of the Forests in Angul referred to below, and the exclusion of some petty plots elsewhere, resulted in the withdrawal of 35 square miles from the Reserved area, which thus suffered a net decrease of 25 square miles

Area of Protected and Unclassed Forests

3 By a notification dated the 5th September 1892, the Lieutenant-Governor, with the sanction of the Government of India, declared all State lands within the five districts of the Chota Nagpur Division to be Protected Forests under Act VII of 1878 The area thus protected in the Singhbhum district is 500 square miles, but the extent of the Protected Forests in the remaining districts is not yet known, though it cannot be large in Lohardaga and Hazaribagh and is less in Manbhum The heavy loss under which the administration of the Chota Nagpur Forest Division has hitherto been conducted rendered the protection of these Unclassed Forests, which afforded a continuous, though unauthorised, supply of timber and fuel to the inhabitants, a necessity There was an addition of 6 square miles to the Protected area in Puri by the conversion of some petty areas of Reserved Forest into Protected Forest. The actual increase in the Protected area in the Province amounted to 506 square miles, exclusive of the unknown area in the Chota Nagpur Division The total nominal increase, including the nominal increase obtained by the rectification of the Protected areas in the Sundarbans by the addition of the water area, was 890 square miles, the area at the end of the year being 3,071 square miles as against 2,181 square miles at the commencement

The area of Unclassed State Forests is stated in the Conservator's Report to be 4,034 square miles, contained in the Chittagong Hill Tracts

Thus the Forests of Bengal, exclusive of the unknown areas in Chota Nagpur, cover an area of 12,808 square miles or 8 4 per cent of the entire area of the Province

Angul

4 The realignment of the boundaries of the Angul Forests, in order to provide reasonable facilities to the inhabitants for the supply of their own legitimate wants, which was undertaken by Government in consequence of Sir John Edgar's Report on the subject of the scarcity prevailing in that locality in the year 1889, was completed during the year On the Conservator's reporting after personal inspection that the work of realignment had been performed conscientiously and efficiently, a notification was issued, dated the 11th June 1893, giving effect to the revised boundaries, and disforesting 29 square miles previously included in the Protected area

Proposed addition to the Forest area

5 Since the close of the year the Sitakund-Ramgarh Forests (comprising 133 square miles) in the regulation district of Chittagong have been notified as a Reserved Forest under section 19 of the Indian Forest Act The Sonthal Parganas Forests which were reserved under the old Act VII of 1865 will shortly be brought under the provisions of Act VII of 1878, and will form a valuable addition to the Forest area, and a Reserve for the wants of the increasing population of the tract The Manager of the Dhalbhum Encumbered Estate in Chota Nagpur has lately applied to Government for the reservation of the Forests in the estate and their management by the Forest Department.

Fuel and Fodder Reserves

6. The question of the establishment of Fuel and Fodder Reserves in Bengal has engaged the attention of Government since 1883, when it was first mooted in the Revenue and Agricultural Department's Resolution No 16A., dated the 18th March 1883 In that year Reports were asked for from all Commissioners of Divisions, but, in consequence of the insufficiency of information on the subject of Forests available for Fuel and Fodder Reserves, no practical result ensued The subject was enquired into again in 1886 and 1889 by the Director of the Department of Land Records and Agriculture, and a further Report with an analysis of the previous discussion on the subject was submitted by him in connection with the Government of India's Resolution No. 17—105, dated the 15th July 1891. The result of his enquiries led

Mr Fisher came to the opinion that the establishment of Fuel and Fodder Reserves was a matter of less importance in Bengal than elsewhere, owing to the abundance of pasture generated by the moist climate, but that it was nevertheless of sufficient weight to demand careful consideration It was suggested by him that a Forest Officer should be deputed to examine the private Forests in the permanently-settled estates of the Burdwan Division, the Sonthal Parganas and Chota Nagpur, with a view to ascertain whether the owners could be induced to adopt measures for their preservation, and secondly, that the Settlement Officers in Orissa, Chittagong, and Jalpaiguri should be instructed to set aside suitable State lands for Fuel and Fodder Reserves. The first suggestion Government found it impossible to adopt owing to the paucity of Forest Officers, but the Settlement Officers of Chittagong and Jalpaiguri have been instructed to place themselves in direct communication with the local Forest Officer, and to furnish him with all the survey papers in order that he may formulate definite proposals on them. The Conservator is mistaken in saying (in paragraph 37) that Government has ordered a survey to be made of all unsettled lands in the Khurda Estate. What has happened is that the Director of Surveys in Bengal has been asked to prepare a map on the 4-inch scale, on the basis of the 32-inch scale settlement maps showing the boundaries of the settled lands When this map is received the question of forming Fodder, Fuel, and Pasture Reserves in this estate will be further considered

Surveys

7 No work was performed during the year in these Provinces by the Forest Survey Department of the Government of India, but from the Report of the Director of Bengal Surveys for the survey season of 1891-92, it appears that 327·53 square miles of Reserved Forests appertaining to the Jalpaiguri and Buxa Forest Divisions in the Jalpaiguri district were surveyed by the party employed in connection with the land settlement now approaching completion in that district

Working Plans

8 *Management of State Forests*—The Working Plans of the Sundarbans Reserved and Protected Forests (2,092 and 2,260 square miles respectively) were completed during the year. These, with the 38 square miles (out of 114 square miles) of the Darjeeling Division, are the only Forest areas for which Working Plans have been drawn up in Bengal, leaving a balance of 3,563 square miles of Reserved and 811 square miles of Protected Forests for which there are as yet no Working Plans Outlines of Working Plans for 946 square miles of Reserved Forests have, however, been prepared and approved by the Inspector-General of Forests, while that officer himself prepared notes for the working of the Forests in the Puri and Angul Divisions (the former contains 111 square miles of Reserved and 311 square miles of Protected Forest, and the latter 251 square miles of Reserved Forest) The Conservator further states that the Reserved Forests of Chittagong and Palamau, as well as those in the Singalila range in the Darjeeling Division, and certain hill Forests in the Tista Division, aggregating in area 1,822 square miles, do not require Working Plans for the next ten years Considering the paucity of superior Forest Officers, the progress made in the preparation of Working Plans is satisfactory.

Communications and buildings

9. The progress made in the construction of roads and buildings is shown in Return No 51 of the Conservator's Report and the following extracts from the Report —

"The total expenditure under VII—Communications and Buildings—during the Forest year was Rs 38,582, and during the financial year Rs 30,442, as compared with Rs 19,841 in the previous financial year

"Under Roads 65 miles of export road and 19 miles of inspection paths were completed, while 29 miles of export road were still under construction at the close of the year The repairs extended to 392 miles of road

"The total cost of the road work came to Rs 18,475 for the Forest year and Rs 13,899 for the financial year, as compared with Rs 6,910 in the previous financial year, during which but small progress was effected

"Under Buildings Rs 18,621 were expended during the Forest year and Rs 15,368 during the financial year, as compared with Rs 12,158 in the previous financial year.

"Of the former sum, Rs 8,778 were spent on new works and Rs 9,675 in repairs, the balance being on account of temporary establishment."

In their Review of the Administration of the Bengal Forests during the year 1890-91, the Government of India, accepting the opinion of this Government that the Forests of the Bengal Circle were deficient in Forest roads and communications, desired that the preparation of a general project for the extension of Forest roads during a series of years should be undertaken On the representation of the Conservator of Forests, Government decided that this project should be kept in abeyance until an officer of the Public Works Department could be spared for the purpose In November 1892 the services of an Assistant Engineer, Rai Saheb Kunty Chunder Chowdry, were placed at the disposal of the Forest Department for this work The Conservator, however, pointed out that, without an intimate knowledge of the Forests of Bengal, no officer could be qualified for such a task, and with the sanction of the Government of India, the services of the Assistant Engineer were utilized in assisting the Forest Officer of the Darjeeling Division in laying out the roads in that Division in accordance with the Working Plan It is important, however, that the wider project should be borne in mind, for though the increased expenditure in Bengal Forests on account of establishment, compensation for exchange, and appliances for conservancy, and the condition of the finances generally, require that strict attention should be paid to economy, and that no increased expenditure should be incurred under any head without clear necessity and full consideration, yet it would, in the Lieutenant-Governor's opinion, be false economy to retard the much-needed development of Forest resources, which would be the result of a well-regulated system of communications The following circumstance mentioned in paragraph 111 of the Conservator's Report for the year affords practical demonstration, if any were needed, of the benefits which the Forest Department might derive by means of a regulated system of communications and of roads —

"The large increase (of outturn) in Jalpaiguri is ascribed to the quantity of timber, although mostly cheap-priced poles, felled on the new roads and fire-traces, which was thus conveniently placed for export"

The opening of the Duars Railway and the Bengal Nagpur Railway have been, and ought in future to be, if judiciously supplemented by feeder roads, valuable accessions to the Forest Department The East Coast Railway when completed should also provide facilities of which the Department should not be slow to take advantage

Protection of Forests from injury

10 The number of cases taken to Court during the 15 months covered by the Report was 175 as compared with 79 in the preceding year, the percentage of convictions in the two periods being 88 and 78 respectively The number of cases compounded under section 67 was 1,185 (in 15 months) as against 1,882 in the year 1891-92, the decrease occurring almost exclusively in the Sundarban Division, where the number compounded was only 174 (in 15 months) as against 1,198 in the previous year The Conservator explains that, as section 67 of the Forest Act allows no officer of less rank than a Ranger on a salary of Rs 100 to be empowered to compound offences, and as there is no Ranger in Bengal on a higher salary than Rs 80 per mensem, the practice was introduced by him of levying higher rates instead of prosecuting in the case of produce cut or collected in contravention of the terms of the permit, under circumstances which do not disclose any criminal intent The sanction of Government should have been obtained before this procedure was introduced, and the Lieutenant Governor awaits a further report on the subject

11 Of the 5,703 square miles of Reserved Forests in the circle, 3,203 are said to be self-protecting, in respect of the remainder, measures for protection were effectual in regard to 1,890 square miles, so that only 17 square miles were destroyed by fire The prevalence of rain throughout the cold and hot weather contributed to the attainment of this satisfactory result. The Government of India, in their Review of the Forest Administration for 1891-92, desired that the results of departmentally firing the inflammable savannahs in Jalpaiguri should be commented upon in detail in future years An area of 78 square miles in the Jalpaiguri and Buxa Divisions was departmentally fired during the year, and the Conservator should have referred to the subject at greater length. It is possible that no satisfactory opinion can be formed until experiments have been made in dry years.

Natural reproduction

12. The following account taken from the Conservator's Report of natural reproduction in the Sundarbans is interesting —

"In the Sundarbans Forests conditions are so favourable to vegetation that we note without wonder the account which the Divisional Officer gives of a new island, three miles long, that appeared above the waters of the Pancassia river in 1891, being by this time covered over to a great extent with bushes fifteen feet high of Keora (*Sonneratia apetala*), Ora (*Sonneratia acida*), Bain (*Avicennia officinalis*), a few seedlings of Golpatta (*Nipa fruticans*), and quantities of wild rice (*Oryza sativa*)

"Reproduction of tree growth in the Sundarbans Forests is indeed a curious sight to see. Seedlings of Gengwa (*Excoecaria Agallocha*) may be perceived on the shelving banks of the rivers coming up as thickly as the best crops of paddy The majority of the species shed their seed during the rains, and this seed is then floated by the tides—which attain their highest level at that season of the year—in immense quantities (and often in a state of germination as they float along) well into the interior of the innumerable islets which go to form this singular region"

No information, however, is afforded in regard to the reproduction of *sundri* trees (*heritiera littoralis*), which form the most valuable produce of the Sundarban Forests The Reserves of Puri and Angul are, like those of the Sundarbans, naturally reproductive, but do not yet require Working Plans The expenditure on artificial reproduction amounted only to Rs. 3,220 (for fifteen months) as against Rs 4,244 in the year 1891-92, both regular plantations and cultural operations having been strictly confined, under the orders of Government, to works that had either been provided for in a sanctioned Working Plan, or had at least received the previous approval of the Conservator

Exploitation of Forest produce

13 The exploitation of major Forest produce consists in the extraction of timber and firewood The former was effected chiefly by means of selection fellings limited by girth and sylvicultural rules, and the latter by improvement fellings without limit of area These were the measures resorted to in the Darjeeling Division (except the portion for which a Working Plan has been prepared) and in the Tista, Kurseong, Jalpaiguri, and Buxa Divisions. In the Sundarbans the fellings were unregulated, the demand being enormous and the fellings extending over the whole of the Reserved and Protected Forests In Puri and Angul, owing to various causes, the exploitation of major produce is at present insignificant, though in the latter Division the extraction of bamboos is said to be a noticeable feature In Singhbhum 3,000 sâl trees were marked and felled during the period under report for sale on tender, but, owing to the competition of timber obtained by speculators from neighbouring private Forests, this quantity was not all sold. In Palamau and in the Direction Divisions, the fellings were not on an important scale As regards the extraction of minor Forest produce, there is little to be said, the extraction of fodder is unimportant and grazing is seldom permitted The products classed as Miscellaneous include minerals, honey and wax, thatching material, canes and fibres.

14 *Gross yield and outturn of forest produce*—The total outturn of timber from all sources during the period under report (15 months) was nearly 81 lakhs of cubic feet, against 72½ lakhs during the preceding 12 months, the outturn of fuel was nearly 147 lakhs of cubic feet (excluding the unreliable estimates of removals by privileged villagers) against 144 lakhs, and of bamboos 177 lakhs against 162 lakhs. The value of minor produce other than bamboos was Rs 1,23,207, against Rs 1,00,740 during the 12 months of the year 1891-92. If the figures for the 15 months covered by the Report are proportionately reduced, so as to give corresponding results for one year, the outturn of timber would show a decrease amounting to about 11 per cent, fuel a decrease amounting to about 18 per cent, and bamboos a decrease amounting to 13 per cent The decrease was conspicuous in the Sundarbans Division, where the enhanced rates introduced during the year met with much opposition from the Calcutta traders, who held aloof and declined to deal with the Forest Department for some months Of the total quantity of Forest produce, only ·28 per cent. of timber, 89 per cent of fuel, and 026 per cent. of bamboos were removed by departmental agency, the rest being removed by purchasers. It is observed that four divisions including the Kusi Drift are entered under "Unclassed in Return 57, Forests" As, however, the "Unclassed Forests in Chittagong" are the only Forests of this description under the Forest Department as shown in Return 46B, the other divisions should in future be excluded from the return.

15 *Financial results*—The receipts during the period covered by the Report amounted to Rs 9,04,803, and the expenditure to Rs 4,74,586, the surplus being Rs 4,30,217 The results, however, of the financial year 1892-93, as compared with the previous four years, were as follows —

Year	Receipts	Charges	Surplus
	Rs	Rs	Rs
1888 89	6,76 907	3,75,471	3,01,436
1889-90	7,68,718	3,90,265	3,78,453
1890-91	7,27,392	4 14,005	3,13,387
1891-92	7,89,553	4,22,930*	3,66,623*
1892-93	7,44,882	3,81,608	3,63,274

* The difference of Rs 11 111 between the figures adopted in paragraph 94 of last year's Report (1891 92) and those now shown is due to a subsequent adjustment made by the Comptroller and Auditor General on account of Survey of India charges

The surplus of the financial year 1892 93 fell short of the surplus for the previous year by Rs 3,349

16 The results of the financial year 1892-93, as compared with those of 1891-92 for each division, are shown in the following statement —

Division	Receipts		Charges		Surplus		Deficit

17 *Forest Administration*—Mr Dansey was in charge of the circle from the 1st of April 1892 to the 13th April 1893, when he went on 3 months' privilege leave, making over charge to Mr E G Chester Mr Dansey was on tour for 293 days, and the thanks of Government are due to him for his zealous performance of the duties entrusted to him, as well as for his careful report The Lieutenant Governor is aware that the Conservator has a heavy charge in the twelve Forest Divisions, but he would have been glad if Mr Dansey could have found time to submit proposals for placing the Sikhim Forests under departmental management, as he was desired in the Resolution of 1st September 1892 The work of the Department was satisfactorily carried on in spite of the paucity of the Controlling Staff, and of the fact that some ill-health prevailed Though there has been some improvement in retaining officers at their posts, still in some of the charges there were too many changes, notably in the Chittagong Division The Lieutenant-Governor regrets to record the death of Mr James, a promising young officer, from persistent malaria In the opinion of Divisional Officers, the conduct of the subordinate Forest Staff during the year showed "on the whole a distinct improvement on that of the previous year"

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette*

Ordered also that a copy of it be submitted to the Government of India, Revenue and Agricultural Department, for information, and that a copy be forwarded to the Conservator of Forests, Bengal, for information and guidance, to the Commissioners of the Chittagong, Rajshahi, Presidency, Bhagalpur, Chota Nagpur and Orissa Divisions, and the Public Works Department of this Government for information

By order of the Lieutenant-Governor of Bengal,

C. E BUCKLAND,

Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c, are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground

* Means of 6 days

Explanation.—Summary—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed at percentage saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. rainfal the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, i.e. from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 13th of January 1894

Explanation— indicates that no rain has fallen. If the return for any day has not been received the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days the definition of a rainy day is when at least 0·10 inch of rain has fallen.

CALCUTTA, *the* 16*th January* 1894

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A M, SATURDAY, THE 13TH OF JANUARY 1894

DURING the previous week a barometric depression had entered North-Western India, and after remaining almost stationary for a short period had filled up and disappeared It, however, gave moderate to heavy rain in the plains and snow in the hills in North-Western India, and after the depression had passed away, the wave of cold air produced by their action advanced from North-Western India in a south-easterly direction This wave of cold dry air was beginning to affect Bengal at the close of that week

At the commencement of the present week therefore the cold-weather conditions in Bengal were decidedly strongly developed Temperature and humidity were falling moderately, and on the 7th, or the first day of the week, the mean temperature was from about 3° to 5° below the normal Pressure, on the other hand, was rising, though it was still in slight to moderate defect. A steady and fairly dry north-westerly wind current was also blowing over the whole Province, skies were practically cloudless, and there was no rain On the 8th temperature continued to fall in Bengal, but otherwise there was not much change in conditions, and on the 9th the fall of temperature ceased and a small increase was reported, though otherwise the changes were unimportant On the 10th again a shallow barometric depression entered North-West India from the westward, giving the usual disturbed weather and the wave of increased temperature in front of it, and hence on the 10th temperature continued to increase in Bengal On the 11th the feeble depression in North-West India had almost filled up, after giving rain in the north-west of the Punjab. It was therefore a storm of very little importance In Bengal on the 11th the only important change was a further increase of temperature, but on the 12th the increase had ceased and temperature was steady Up to the close of the week, however, the wave of cool air which usually follows after the disappearance of such a depression had not advanced towards Bengal

Weather therefore in Bengal has been of ordinary settled north-east monsoon condition throughout the week A steady and fairly dry northerly and north-westerly wind has prevailed over the Province during the whole period, skies have been practically cloudless, and absolutely no rain has fallen The barometric changes have also been very small Temperature, on the other hand, fell rather briskly during the first two or three days of the week, and then rose slowly till nearly its close when it became steady

Pressure—The mean pressure for the 7th, or the first day of the week, was in defect by amounts ranging up to 0 05" over parts of North-East Bengal, while on the 13th, or the last day of the week, pressure was in excess by amounts equalling about 0 06" over the northern half of the Province The general effect of the pressure changes during the week was to cause an increase of nearly a tenth of an inch For the whole week the average mean pressure has been in slight excess at the great majority of stations, the excess usually varying from 0 01" to 0 03" In a few instances, however, very small defects have been registered

Temperature—The mean temperature was below the normal by from 3° to 5° or 6° on the first two days of the week, but on the last day the general temperature of the Province was nearly normal, slight excess amounts being registered at the northern and eastern stations and slight defects at the southern and western stations For the week, therefore, the average mean temperature has been below the normal, the defect of the whole Province equalling 2 1° The largest defects of about 2 5° to nearly 3 5° have been registered in South-West Bengal, Orissa and Chota Nagpur

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the Province are compared with the normal values for the same period The variations it will be seen have been rather large in both the night and day temperatures The maximum temperatures have, however shown the largest defects and the general defect at the nine stations has equalled about 2°, while the night, or minimum, temperatures show a defect of 1 5° only

Geelong approach—Depth in New Ship channel and intended alterations in lights and buoys

THE British Admiralty has given notice (No 641 of 1893) that the New Ship channel, entrance to Geelong inner harbour, has been completed throughout its entire length of 2 miles to a depth of 22 feet at low water for a width of 110 feet, and that consequently, on 20th December 1893, the following alterations will be made in the lights and buoys in the vicinity and approach —

1 *New Ship Channel lights* —The north side of New Ship channel will be marked by four *fixed white* lights, each elevated 26 feet above the sea, visible 6 miles, and exhibited from a pile structure situated about 20 feet northward of the northern side of the channel, the structures being at equal distances of 1010 feet apart

Approximate position, Eastern light, lat 38° 7′ 15″ S, long 144° 26′ 35″ E

Approximate position, Western light, lat 38° 7′ 30″ S, long 144° 21′ 10″ E

The south side of the channel will be marked by three *fixed red* lights, each elevated 26 feet above the sea, visible 6 miles, and exhibited from a pile structure situated about 20 feet southward of the south side of the channel, the structures being so placed as to alternate with those on the north side of the channel

2 *Buoys in approach* —The buoys marking Prince George bank, point Richards, and Wilson spit will each be replaced by a gas buoy showing an *occulting* light (*six* to *eight flashes* and eclipses *every minute*), visible 6 miles in clear weather.

Prince George Bank buoy will show a *white* light, point Richards buoy a *red* light, and Wilson spit buoy a *white* light

Approximate position, Prince George bank buoy, lat 38° 7′ 35″ S, long 144° 44′ 30″ E

Approximate position, point Richards buoy, lat 38° 6′ 0″ S, long, 144° 37′ 40″ E

Approximate position, Wilson spit buoy, lat 38° 8′ 45″ S, long 144° 29′ 50″ E

3 *Discontinuance of lights in north and south channels and at Portarlington* —After the above lights have been exhibited, the light-vessel, hitherto moored near Bird rock and showing a *fixed white* light, will be withdrawn, and all the lights shown from beacons in Geelong North and South channels, and the *red* beacon light at Portarlington, will be discontinued

Approximate position, Geelong light-vessel, lat 38° 5′ 50″ S, long 144° 26′ E

Approximate position, Portarlington *red* light, lat 38° 7′ S, long 144° 39′ 5″ E

NOTE —The speed of steam vessels navigating the New Ship channel, or the Geelong South channel, is to be reduced so as not to exceed 6 miles per hour, and no sailing vessel is to enter the New Ship channel whilst any other vessel is proceeding through that channel in an opposite direction

No. 3—Whereas by Resolution passed by the Secretary of State for India in Council on the 28th day of July, 1891, the provisions of the 33rd of Vict. Chap. 3, Sec 1, were declared applicable to the tracts known as Angul and the Khondmals in Orissa, Bengal,

And whereas the Lieutenant-Governor of Bengal has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same,

And whereas the Governor General in Council has taken the draft and reasons into consideration, and has approved of the draft and the same has received the Governor General's assent on the 8th day of January, 1894,

In pursuance of the direction contained in the said section the said Regulation is now published in the *Gazette of India* —

REGULATION NO I OF 1894

THE ANGUL DISTRICT REGULATION, 1894

CONTENTS.

CHAPTER I

PRELIMINARY.

SECTIONS

A Regulation for the peace and government of Angul and the Khondmals

WHEREAS it is expedient to provide for the peace and government of the tracts of country in Orissa known as Angul and the Khondmals, It is hereby enacted as follows:—

CHAPTER I

PRELIMINARY.

Title and commencement

1 (*1*) This Regulation may be called the Angul District Regulation, 1894, and

(*2*) It shall come into force on such day as the Lieutenant-Governor of Bengal may, by notification in the Calcutta Gazette, direct.

Constitution of district of Angul

2 For the purposes of this Regulation the district of Angul shall be deemed to comprise Angul, together with that portion of Killah Bod which is known as the Khondmals. The former may be called the Sadr, or Angul, Sub-division, the latter the Khondmals Sub-division of the said district of Angul.

Laws to be in force in the district of Angul

3. (*1*) So much of each of the enactments specified in the schedule as is at the commencement of this Regulation in force in the territories to which the enactment generally applies shall, in the form in which (as at present amended or hereafter to be amended by subsequent enactments, if any) it is so in force, be deemed to be in force in the district of Angul, or such part thereof as is mentioned in the third column of the said schedule, subject to any modifications contained in this Regulation.

(*2*) An enactment not comprised in the schedule shall not be deemed to be, or to have been, in force in any part of the district of Angul, unless it shall have been expressly extended thereto, or shall, after the commencement of this Regulation, be so extended thereto, in exercise of the powers conferred by section 5 of this Regulation, or by any other enactment for the time being in force in the district of Angul.

Provided that for the purpose of anything done, or any offence committed, or any fine or penalty imposed or incurred, or any proceedings commenced, before the passing of this Regulation, under any other Regulation or Act which, under the provisions of this section, is declared not to be in force in Angul, such Regulation or Act shall be considered to have been in force in Angul.

Power to exempt Angul from operation of enactments

4. The Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any enactment or part thereof comprised in the schedule shall no longer be in force in the district of Angul, and on the publication of such notification such enactment or part thereof shall, subject to the proviso to section 3, cease to have effect in the said district.

Power of Local Government to extend any other enactment

5 In addition to the enactments comprised in the schedule, the Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any other enactment or any part thereof shall be in force in the district of Angul, and on the publication of such notification such enactment shall be deemed to be comprised in the schedule.

Power to construe enactments with necessary alterations

6 For the purpose of facilitating the application of any enactment for the time being in force in the district of Angul, any Court may construe such enactment with such alterations not affecting the substance thereof as may be necessary or proper to adapt it to the matter before the Court.

Proceedings under Regulation not vitiated for irregularities

7 Notwithstanding anything in this Regulation or in the enactments comprised in the schedule, no finding, sentence, judgment, decree or order of any Court shall be revised, set aside or altered, either in appeal or on revision or otherwise, by reason of any irregularity in procedure, unless such irregularity has, in the opinion of a higher Court, caused a failure of justice.

Indemnification of previous acts of the executive authorities

8 All acts of executive authority, proceedings, decrees and sentences which have been done, taken or passed in or with respect to the district of Angul before the commencement of this Regulation by any officer of the Government, or by any person acting under his authority, or otherwise in pursuance of an order of the Government, and which have been, or shall hereafter be, ratified by the Lieutenant-Governor of Bengal, shall be as valid and operative as if they had been duly done, taken or passed in accordance with law, and no suit or other proceeding shall be commenced, maintained or continued against any person whatsoever on the ground that any such acts, proceedings, decrees or sentences were not duly done, taken or passed in accordance with law.

Sentences passed in Angul may be carried out in any jail and beyond the sea

9 Any person liable to be imprisoned in any civil or criminal jail in the district of Angul, or to be transported beyond the sea under any order or sentence passed by any officer or Court duly empowered under this Regulation, may be imprisoned in any other civil or criminal jail in British India, or may be transported to any other place which the Local Government may, from time to time, select.

Definitions

10 In this Regulation, and in every enactment in force in the district of Angul, unless there be something repugnant in the subject or in the context,—

(*a*) "High Court" shall mean, with reference to criminal proceedings against European British subjects, or persons jointly charged with such subjects, the High Court of Judicature at Fort William in Bengal, and in any other case it shall mean the Court of the Superintendent.

(*b*) "Superintendent" shall mean the Superintendent for the time being of the Orissa Tributary Mahâls.

(*c*) "district" shall mean the district of Angul as defined in section 2 of this Regulation.

(*d*) "Deputy Commissioner" shall mean the officer in chief executive charge of the district

of Angul, by whatever other title he may be designated

(*e*) "District Court" and "District Judge" shall mean the Court of the Deputy Commissioner and the Deputy Commissioner respectively

(*f*) "Magistrate" shall mean any officer exercising all or any of the powers of a Magistrate under the Code of Criminal Procedure, 1882, by whatever other title he may be designated

(*g*) "District Superintendent" shall mean the chief officer in charge of the Angul District Police, by whatever other title he may be designated

(*h*) "Tahsildar" shall mean the officer in charge of a Subdivision of the district of Angul as defined in section 2

(*i*) "collection-agent" shall mean any village-sarbarāhkār, any Tahsildar, or any other person duly authorized to collect any demand due to the Government and accruing within the district of Angul and

(*j*) "accountant" shall mean any person charged with the duty of keeping the accounts of any such demand as is mentioned in clause (*i*)

CHAPTER II

CONSTITUTION AND JURISDICTION OF COURTS

Courts.

11 There shall ordinarily be the following Courts in the district of Angul, and they shall be subject to the general superintendence and control of the Local Government —

(*1*) the Courts of the Tahsildars of Angul and of the Khondmals

CHAPTER III

ADMINISTRATION OF CRIMINAL JUSTICE

Court of Session

16 The district of Angul shall be a sessions division, the Court of the Deputy Commissioner shall be the Court of Session, and the Deputy Commissioner shall be the Judge of that Court

Power of Court of Session to take cognizance of offences as a Court of original jurisdiction

17 As Sessions Judge the Deputy Commissioner may take cognizance of any offence as if he were a Court of original jurisdiction without the accused person being committed to him by a Magistrate, and, when so taking cognizance of an offence, shall, subject to the provisions of this Regulation, follow the procedure prescribed by the Code of Criminal Procedure, 1882, for the trial of warrant cases by Magistrates

18 A trial before a Court of Session may be without a jury or the aid of assessors

Sessions trials without jury or assessors

19 (1) The police-officer of highest rank present at a police-station shall be deemed to be the officer in charge of such police-station

Officer in charge of a police station

(2) Any police-officer may exercise the powers conferred by section 55 of the Code of Criminal Procedure, 1882, on an officer in charge of a police-station

20 Notwithstanding anything contained in section 57 or section 61 of the Code of Criminal Procedure, 1882, an officer in charge of a police station may detain a person arrested without warrant for such time as, in all the circumstances of the case, is reasonable But when such officer of his own authority detains any such person in custody for a longer period than twenty-four hours, exclusive of the time necessary for the journey from the place of arrest to the nearest Magistrate's Court, he shall, in the report prescribed in section 62 of the Code of Criminal Procedure, 1882, state his reasons for prolonging the detention of such person, and, where the detention extends beyond three days, shall submit further reports of the reasons therefor at such intervals as the Magistrate to whom the report under section 62 was submitted may by general or special order direct

Detention by police

21 Nothing in the first paragraph of section 162 of the Code of Criminal Procedure, 1882, shall be construed to apply to a statement made to a police-officer who is also a Magistrate

Statement made to police officers

22 A prosecution for an offence against the State, or for the offence of giving false evidence in respect of a statement made by a person who has accepted a tender of pardon, may be entertained upon complaint made by order of, or under authority from, the Deputy Commissioner

Prosecution for State offences and false evidence by person to whom pardon has been tendered

23. Any Magistrate tendering a pardon to an accomplice under section 337 of the Code of Criminal Procedure 1882, may, notwithstanding anything contained in that section, try the case himself

Tender of pardon

24 The period of limitation for an appeal from any appealable sentence or order in any criminal case shall be thirty days from the date of such sentence or order, but shall be exclusive of that date

Limitation of appeal

25 Notwithstanding anything contained in the Code of Criminal Procedure, 1882, no appeal shall lie—

Restrictions on appeal

(a) in any case in which a Tahsildar exercising the powers of a Magistrate of the second class passes a sentence of imprisonment not exceeding one month, or of fine not exceeding fifty rupees, or of whipping only

(b) in any case in which the Deputy Commissioner exercising the powers of a District Magistrate, or of a Court of Sessions, passes a sentence of imprisonment for a term not exceeding three months, or of fine not exceeding one hundred rupees, or of whipping only.

26. Where an offence referred to in section 195 of the Code of Criminal Procedure, 1882, is committed before the presiding officer of a Criminal Court, or in contempt of his authority, or is brought to his notice in the course of a judicial proceeding, he may himself try for such offence the person accused thereof

Contempt and offences against public justice or relating to documents

27 Notwithstanding anything contained in section 495 of the Code of Criminal Procedure, 1882, any Court may allow any police-officer to conduct a prosecution

Conduct of prosecutions

28 Any Court may, for reasons to be stated in writing, refuse to exercise, in the manner mentioned in section 526A of the Code of Criminal Procedure, 1882, the power of postponement or adjournment given by section 344 of that Code

Adjournment, on application, for transfer of case

29 In the case of any proceeding the record of which has been called for and examined by himself, or which has been reported for orders under section 435 of the Code of Criminal Procedure, 1882, or which otherwise comes to his knowledge, the Deputy Commissioner or the Superintendent may in his discretion exercise any of the powers conferred on a Court of appeal by sections 195, 423, 426, 427 and 428 of that Code, and may, for sufficient reasons to be recorded, enhance the sentence

Superintendent's and Deputy Commissioner's power of revision

Provided that—

(1) no order under this section shall be made to the prejudice of the accused unless he has had an opportunity of being heard in his defence,

(2) nothing in this section shall apply to an entry made under section 273 of that Code, or shall be deemed to authorize the conversion of a finding of acquittal into one of conviction

30 Nothing in this chapter with respect to procedure in enquiries or trials, or with respect to sentences or appeals therefrom, or to the enhancement or execution thereof, shall be construed to affect the Code of Criminal Procedure, 1882, in its application to European British subjects or to persons jointly charged with such subjects

Saving of provisions relating to European British subjects

CHAPTER IV.

ADMINISTRATION OF CIVIL JUSTICE.

31 (1) When in any civil proceeding it is necessary to decide any question regarding succession, inheritance, pre-emption, caste, special property of females, betrothals, marriage adoption, guardianship, minority, bastardy, family relationship, wills, legacies, gifts, partitions or any other religious or social usage or institution the Buddhist law in cases where the parties are Buddhists, the Muhammadan law in cases where the parties are Muhammadans, and the Hindu law in cases where the parties are Hindus shall form the rule of decision, except in so far as such law has by any enactment been altered or abolished, or is opposed to any custom having the force of law in the district of Angul.

Law to be administered

(2) In cases not provided for by sub-section (1) of this section, or by any other law for the time being in force, the Court shall act according to justice, equity and good conscience

Interest

32 (1) In any suit instituted on or after the date on which this Regulation may come into force—

(a) the amount of interest which may be decreed on any loan or debt shall not exceed the original amount of such loan or debt,

(b) interest on any debt or liability for a period exceeding one year shall not be decreed at a higher rate than two per cent per mensem, notwithstanding any agreement to the contrary, and no compound interest arising from any intermediate adjustment of account shall be decreed

(2) For the purposes of sub-section (1), section 43 of the Code of Civil Procedure shall be deemed to be in force throughout the territories to which this Regulation extends, notwithstanding any special contract or agreement to the contrary

Control of rivers, etc

33 The Government shall be presumed, until the contrary be proved or determined, to be entitled to the exclusive use and control of the water (a) of all rivers and streams flowing in natural channels, (b) of all natural collections of water, and (c) of all tanks and irrigation-*bunds* constructed wholly or in part by or at the expense of the Government within the district of Angul

(6) An appeal from an appellate decree or order of the Court of the Deputy Commissioner in a civil or revenue suit, the value of which exceeds one thousand rupees, and in which the Deputy Commissioner has revised or modified the orders of the Lower Court, shall lie to the Court of the Superintendent

Revision

35. The Superintendent or the Deputy Commissioner may, of his own motion or otherwise, call for the record of any civil or revenue case decided by any Court under his control and supervision, and may pass such order therein as he may think fit

CHAPTER V

RECOVERY OF PUBLIC DEMANDS.

Notice of arrear of public demand

36. Whenever any sum due to Government is unpaid on the date next after that on which payment is due, the accountant shall certify in writing to the Tahsildar the fact of the arrear and the amount due

Issue of notice

37 On receipt of any such certificate the Tahsildar may, after making any enquiry which he may consider necessary, if he be satisfied that the demand specified in the notice is justly due, issue a notice to the defaulter ordering him, within a given time, (a) to pay up the amount due, or (b) to appear before him and state any objection he may have to pay such amount

Mode of realization

38 If the amount due be not paid or contested as provided in the last foregoing section, the Tahsildar may recover the same by the attachment and sale of any moveable or immoveable property belonging to the defaulter, together with all costs of realizing the same

Raiyat's holding may not be sold if certificate can be otherwise satisfied

39 The Tahsildar shall exempt from sale the holding of any raiyat unless and until he has satisfied himself that the said raiyat has no other property by the sale of which the sum due from him can be realized

Deputy Commissioner's and Superintendent's power of revision

40 All the proceedings of a Tahsildar under this Chapter shall be subject to revision by the Deputy Commissioner and by the Superintendent, who may alter or modify the orders of the said Tahsildar in any way he thinks fit, but there shall be no appeal as a matter of right to either of the above officers

Register of proceedings

41 Every Tahsildar shall keep in his office, in such form as may from time to time be prescribed by the Superintendent, a register of his proceedings under this Chapter, and every payment made by any defaulter shall be duly entered in such register

CHAPTER VI

VILLAGE-CHAUKIDARS

Power to appoint and dismiss village-chaukidars

42 Subject to the approval of the Deputy Commissioner, the District Superintendent of Police may appoint any person to be a village-chaukidar, and may for any misconduct or neglect of duty dismiss any village-chaukidar

Constitution of village

43 The Deputy Commissioner may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings to be a village for the purposes of this Chapter

Status of chaukidars appointed prior to Regulation

44. Every village-chaukidar acting as such at the time of the passing of this Regulation shall be deemed to have been appointed under section 42

Penalty for village-chaukidar withdrawing from his duties, etc.

45 Every village-chaukidar who shall (a) withdraw from the duties of his office without the express permission of the District Superintendent of Police, or of some other officer duly authorized by him to grant such permission, (b) resign his office without the permission of the District Superintendent of Police, unless he has given at least two months' notice of his intention to resign, or (c) be guilty of cowardice, shall be liable, on conviction before a Magistrate, to a fine not exceeding ten rupees

Provided that no prosecution shall be instituted against any village-chaukidar under this section without the previous sanction of the Deputy Commissioner.

Power to fine village chaukidars

46 Any village chaukidar who is guilty of any wilful misconduct in his office or neglect of his duty, such misconduct or neglect not being an offence within the meaning of the Indian Penal Code, or of section 45 of this Regulation, and not being of so grave a character as, in the opinion of the District Superintendent of Police, to require his dismissal from his office, shall be liable under the orders of the District Superintendent to a fine not exceeding three rupees, and such fine may be recovered as if it were a fine leviable under the provisions of the Code of Criminal Procedure, 1882

Duties of village chaukidar

47 Every village chaukidar appointed under this Regulation shall perform the following duties,—

first, he shall give immediate information to the officer in charge of the police-station within the limits of which the village of which he is a chaukidar is situated of every unnatural, suspicious or sudden death which may occur, and of every murder, culpable homicide, rape, dacoity, robbery, theft, mischief by fire, house-breaking, counterfeiting coin, causing grievous hurt, riot, and all attempts and preparations to commit, and abetments of, all the said offences which may be committed within such village, or which may come to his notice otherwise, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray,

second, he shall arrest all proclaimed offenders and all persons whom he may find in the act of committing any of the offences above specified,

third, he shall observe, and from time to time report to the officer in charge of the police-station within the limits of which such village is situated, the movements of all bad characters in such village,

fourth, he shall report to the officer in charge of such police-station the arrival of any suspicious characters in the neighbourhood;

fifth, he shall present himself at such police-station at such intervals as the Deputy Commissioner may direct;

sixth, he shall supply any local information which the Deputy Commissioner or the District Superintendent of Police may require, and

seventh, he shall obey the orders of the Deputy Commissioner and of the District Superintendent of Police with respect to the place where he is to reside and in regard to keeping watch in the village and other matters connected with his duties as village-chaukidar

Procedure on arrest by village chaukidar

48 Whenever a village-chaukidar arrests any person, he shall forthwith take the person so arrested to the police-station within the limits of which the village of which he is a chaukidar is situated

Provided that, if the arrest is made at night, such person shall be so taken as soon as convenient on the following morning

Appeal from the District Superintendent's order

49 An appeal shall lie to the Deputy Commissioner from every order of the District Superintendent of Police punishing a village-chaukidar with fine or dismissal, and, subject to the general power of revision of the Superintendent, the order which the Deputy Commissioner may pass on such appeal shall be final

CHAPTER VII

REGISTRATION OF DOCUMENTS

Power of Local Government to appoint Sub Registrars

50 (1) The Local Government may appoint such persons as it thinks proper to be Sub-Registrars for the sub-divisions of the district, or for any part of them, and may at any time suspend or remove any Sub-Registrar so appointed.

(2) A Sub-Registrar appointed under this section shall be deemed to be a public servant within the meaning of the Indian Penal Code.

Deputy Commissioner to be *ex-officio* Registrar, control of Sub Registrars, delegation of Registrar's powers.

51 (1) The Deputy Commissioner shall be *ex-officio* Registrar of the district, and all Sub-Registrars appointed as aforesaid shall be subject to his general control and superintendence

(2) The Deputy Commissioner may by an order in writing delegate his powers during his absence from head-quarters to the Tahsildar or to any Sub-Registrar under him.

Power of Local Government to direct compulsory registration in certain cases

52 All documents may be registered at the option of the parties by or in whose favour such documents are executed, but the Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the Calcutta Gazette, declare with respect to documents of any class described in such notification that documents of that class executed on or after a date to be prescribed by the said notification, and purporting or operating to create, declare, assign or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, to or in immoveable property situate in any part of the district specified in the notification, shall be registered in

accordance with the provisions of this Regulation, and that no such document shall affect any property comprised or referred to therein, or be received in evidence of any transaction affecting such property, unless it has been registered in accordance with the provisions of this Chapter

Power of Local Government to cancel or vary notification under section 52

53 The Local Government may, at any time with the previous sanction of the Governor General in Council, by notification in the Calcutta Gazette, cancel or vary, with effect on and from a date to be prescribed by such notification, any notification made under the last foregoing section

Power of Local Government to make rules

54 (1) The Local Government may, from time to time, make rules to regulate the registration of documents under this Regulation

(2) Rules under this section may (among other matters)—

(a) define the time, place and mode of presenting documents for registration,

(b) regulate the duties and powers of registering officers and of the Deputy Commissioner as *ex-officio* Registrar, and specify the cases in which those officers may enforce the appearance of executants and witnesses, and

(c) fix the fees payable for registration, searches and copies, and the time when fees shall be payable

(3) Rules under this section shall be published in the Calcutta Gazette, and shall thereupon have the force of law

(4) The provisions of sections 81 and 82 of the Indian Registration Act, 1877, regarding offences by registering officers and other persons, shall, so far as they can be made applicable, apply to like offences when committed with respect to the registration of documents under this Regulation

CHAPTER VIII.

MISCELLANEOUS

Power of Deputy Commissioner to summon land holders, &c

55 (1) The Deputy Commissioner in the performance of his official duties is empowered to require, or to authorize any Tahsildar to require, any proprietor, farmer, rent-collector or occupier of land (a) to furnish such information, accounts and documents as he may be capable of furnishing, and (b) to supply provisions and labour at market rates for the use of troops and officers of the Government marching in or through the district of Angul on the public service Any such person failing to comply with such requisition shall be liable to a penalty not exceeding one hundred rupees, and such penalty may be levied in the manner provided by the Code of Criminal Procedure, 1882, for the levy of criminal fines

(2) Any person aggrieved by any order of the Deputy Commissioner under this section may appeal to the Superintendent, whose order shall be final

Auction sales and liability of auction purchasers

56 (1) Whenever any property is sold by public auction by or under the orders of a public servant competent to cause the sale of such property, the auction-purchaser of such property shall be bound to pay the amount for which such property is sold at such time and at such place as may be notified at the time of sale, and shall be bound to conform to all the conditions under which the sale is made

(2) If the auction-purchaser omits or fails to pay the amount for which the property is sold at such place or time as is notified at the time of sale, or fails to comply with any of the conditions under which the sale is made, it will be competent to the officer by or under whose order the property is sold to direct the re sale of such property

(3) Such re-sale shall be made at the risk of the auction-purchaser at the first sale, and the difference between any bid made by him and the proceeds of the second sale rendered necessary in consequence of his default shall be recoverable from him, together with all costs incurred, as a demand due to Government

Explanation —The expression "public servant" as used in this section has the same meaning as is attached to it in the Indian Penal X Code

Control of agents and petition writers

57 The Deputy Commissioner may, with the sanction of the Superintendent, make rules to regulate the writing of petitions and the conduct of cases in his Court and in the Courts subordinate to him by persons not duly qualified under the Legal Practitioners Act, 1879

Provided that nothing in the above clause shall be deemed to apply to any legal practitioner duly qualified under that Act and holding a certificate under section 7 of that Act authorizing him to practise in any other Court

Power of Court to grant exemption from payment of court fees

58 Notwithstanding anything contained in the Court-fees Act, the V presiding officer of any Court may, in special cases, by an order in writing and for reasons to be recorded therein, exempt any document from the payment of such fees.

Administration of oath or solemn affirmation

59 Notwithstanding anything contained in the Indian Oaths Act, X 1873, any form of oath or solemn affirmation common amongst, or held binding by, the persons of the race or persuasion to which any witness in, or party to, any judicial proceeding (not being the accused in any criminal proceeding) belongs, and not repugnant to justice and decency, and not purporting to affect any third person, may be administered to such witness or party

Superintendent to exercise powers of Inspector General of Police

60 The district of Angul shall be held to be a general police-district within the meaning of Act V of 1861 as modified by Act No VII of 1869 passed by the Lieutenant-Governor of Bengal in Council, andthe Superintendent shall exercise in it all powers and authorities conferred on an Inspector-General of Police.

The 23rd January 1894 —The following rules are published for general information

C E BUCKLAND,
Secy to the Govt of Bengal

Rules for the admission of Students to the Upper Primary Scholarship Examination, and for the award of Upper Primary Scholarships

1 Candidates may be admitted to this examination from upper primary schools, and (for certificates only) from the third class of middle schools Female candidates may be admitted from any school, whether middle or primary

Candidates of this class are called school students

2 Six months' continuous study before the date of the examination at the same school (or at different schools if transferred with the Deputy Inspector's sanction) will entitle a boy to appear as a school-student

3 School-students declared unfit by their masters will not be allowed to appear at the examination

4 A student who does not appear from any school, or who has been transferred within six months of the date of the examination, without the consent of the Deputy Inspector of Schools, to the school from which he appears, will be treated as a private student

5 A private student should be identified to the satisfaction of the Deputy Inspector, and should also furnish a certificate of character from some known and responsible person

6 All private candidates from the same district should appear at the head-quarters centre

7 *Bona fide* teachers will be admitted to the examination without fee and without certificate, but the Deputy Inspector may exclude from the examination a teacher whose conduct is unsatisfactory

8 No student, after passing the examination, will be again admitted to it

9 A school infringing any of these rules will forfeit the right to send up candidates for upper primary scholarships, independently of any other punishment that may be adjudged to the offending teacher

10 Students obtaining admission to the examination under false statements will be ineligible for pass certificates, and will not be allowed to appear at any future departmental examination

11 All proceedings of the Deputy Inspector under the foregoing rules are liable to revision by the Inspector

Subjects of Examination

12 The following will be the subjects of examination for upper primary scholarships —

Where no special texts-books are prescribed for the examination, schools are restricted to the use of text-books included in the authorised list for the third and fourth classes of middle schools

13 Each Circle Inspector will fix the text books in language, and will set the papers for, and conduct, the examination for his circle

14 To be eligible for an upper primary scholarship a candidate will be required to obtain 33 per cent of the total marks in the Bengali language and in the Arithmetic paper, and to gain an upper primary certificate he will be required to obtain 25 per cent of the marks In the remaining subjects credit will be allowed to all marks obtained Subject to these conditions, all marks will be added up, and the scholarships or certificates will be awarded according to the aggregate number of marks gained by each candidate

15 At each examination the successful candidates will be arranged in three divisions—

(1) Those obtaining half marks and upwards, in the 1st division
(2) Those obtaining more than three-eighths marks and less than half marks, in the 2nd division
(3) Those obtaining more than one-quarter marks and less than three-eighth marks, in the 3rd division

Upper Primary Scholarships for Boys

16 These scholarships are open to candidates from all upper primary schools, whether aided or unaided, but no primary school for boys will be permitted to send up candidates in the same year for both lower and upper primary scholarships (For candidates from mixed schools, see rule 23)

17 Not more than one upper primary scholarship will be awarded in any year to boys from the same school No candidate above the age of 13 years will be eligible for an upper primary scholarship

18 Upper primary scholarships will be awarded by the Inspector on the results of an examination held by him at centres previously fixed The scholarships will be of the value of Rs 3 a month, and will be tenable for two years, conditionally on the good conduct and satisfactory progress of the holder, at any middle vernacular or middle English school or high English school in places where there is no middle school in the neighbourhood A scholarship may be withdrawn from its holder for misconduct

It shall be competent to the District Board, District Magistrate or Deputy Commissioner, as the case may be, before the award of scholarships to make representations to the Inspector in favour of particular schools or tracts which may be deemed deserving of special encouragement on account of their less advanced state or for other reasons, and the Inspector shall be bound to take such representations into consideration

19 A fee of eight annas will be charged to candidates for these scholarships

20 No candidate will be permitted to compete for a scholarship who has not studied for at least one year in the school in which he is at the time of the examination, unless his transfer within that period has been made with the approval of the Deputy Inspector of the district in which the school from which he has been transferred is situated

21 An upper primary scholarship will carry with it the privilege of free tuition in Government and aided schools during the tenure of the scholarship

22 The Inspector of Schools will be competent to sanction the extension of free tuition for two years to time-expired upper primary scholarship-holders reading in schools in his circle, on the recommendation of the Head Masters In the case of non-Government schools, the Head Masters' recommendations are to be submitted through the Secretaries of the schools or Chairmen of District Boards (as the case may be) in which the scholarships are held

Upper Primary Scholarships for Girls

23 Girls may compete from girls' schools or mixed schools (middle or primary) for scholarships of any class (middle, upper primary, and lower primary), but not more than one scholarship of each class will be awarded in any year to girls from the same school Scholarships will be awardable to boys in mixed schools under the rules applicable to boys' schools of the same class, without diminution on account of any scholarships that may have been won by girls from the same school

RESOLUTION

STAMPS

HON'BLE D R LYALL, C S I

Dated Calcutta, the 30th December 1893

A SERIOUS case of fraud in a Sub-Treasury has recently occupied the attention of the Board and Government. The frauds were committed by the poddar, who, under the lax management of successive Sub-divisional Officers, was allowed to write up all the stamp registers and prepare periodical returns in such a way as to conceal his fraudulent acts, which extended over a period of five years, and resulted in a serious loss to Government

Systems of fraud

2 The embezzlements were effected in three different ways—

(*a*) by crediting in the cash account a sum less than the value of the stamps actually taken out of the double-lock store,

(*b*) by entering in the Store Register a total value less than the sum of the values deducted under the several denominations of stamps, and

(*c*) by making excess deductions from the detail balances under certain denominations without correct deduction from the total

3 Under the first system the value of stamps taken out exceeded the amount paid into the Sub-Treasury by the licensed vendors, and the excess should have been shown in the Sub-Treasurer's account of daily sales prescribed in rule 16, section IV, page 98 of the Stamp Manual, but this account was never inspected by or produced before the Sub divisional Officers Under the second method the Sub-Treasurer's indent submitted to the Sub-divisional Officer under rule 15 was so prepared that the total value of the stamps to be taken out of the double-lock store was fraudulently added up and represented to be the sum actually credited in the cash account, and this false total was shown in the Store Register The object of the third system, which was only practised on a few occasions, is not obvious, as there were cases in which the deduction made was less than, and not in excess of, the quantity of stamps indented for

Methods of concealment

4 In order to conceal the frauds, the following returns were manipulated by the poddar —

(*a*) the monthly plus and minus memoranda, which should have been prepared by the accountant, and

(*b*) the monthly statement showing receipts and issues

The frauds under the first and second systems were confined to two denominations of court-fee stamps, viz, those of the value of 8 annas and 1 rupee, which were in the most common use, and in preparing the monthly statement, the poddar used to add to the quantity of either kind shown in the Store Register as being under double lock the exact quantity which had been fraudulently obtained by him up to the time of its preparation this fraud was never discovered by the Sub-divisional Officer even when signing the special certificate at the time of the half-yearly verification, though the details of the statement did not agree with those shown in the Store Register. Under the first system the total value of stamps in store as shown in the plus and minus memorandum of the Accounts Department would differ from that shown in the Store Register by an amount representing the value of the stamps fraudulently obtained, and to prevent detection in the event of the Sub-divisional Officer referring to that Register, the poddar used at the time of the last transaction in the month to make a fraudulent short deduction in the column showing the total value of the stamps in store by a sum equal to the amount embezzled, and so make the total agree with that shown in the accounts Inspecting officers were told that the Sub-Treasurer held no stamps under single-lock, and so never asked for the single-lock account, which should have been kept up under rule 16, section IV of the Stamp Manual in any case.

How the stock of stamps was replenished.

5. The monthly statement showed that a much larger quantity of certain stamps was in store than was actually the case, and to meet the deficiency which occurred, repeated indents were submitted to the Treasury Officer

through the Sub-divisional Officer under rule 28 these were blindly complied with, though they were not compiled according to the rules, and gave no data whereby they could be checked, since the quantity in store and the consumption during the previous three months were not shown. A simple demand for a number of stamps was made and complied with by the Treasury Officer. In course of time the irregularity of these indents was discovered and pointed out. Thereupon regular indents to the Treasury Officer in the prescribed form were submitted, and these indents were complied with, although on the face of them they showed that the stock in hand of the stamps indented for exceeded a year's consumption. After a while indents prepared in the old irregular form were again submitted, and were passed without any notice being taken of them.

Breaches of the rules and the officers responsible.

6. In reporting the case to Government, the Board pointed out that nearly every rule of Government relating to branch depôts had been violated. These rules are printed in section IV, pages 95—102 of the Stamp Manual, and the errors were as follow:—

- (a) The account of sales (rule 16) was not laid daily before the Sub-divisional Officer. It was produced in the Sessions Court, and was found to have been written entirely by the poddar;
- (b) There was an absence of any check on the issue of stamps from the double lock store; the Sub-Treasurer's indent required under rules 15 and 18 was not scrutinised, totalled, or compared by the Sub-divisional Officer with the payments into the Sub-Treasury;
- (c) There was careless passing of monthly statements and returns and a perfunctory half-yearly verification of the stock under double-lock, which rendered nugatory the check provided by rules 32 and 33, and also prevented the frauds being brought to light in the controlling office;
- (d) Indents were submitted to the Treasury by the Sub-divisional Officers concerned, not prepared in accordance with rules 28 and 15;
- (e) Irregular indents were complied with by the Treasury Officers without proper scrutiny.

Under the circumstances, the Board recommended that their rule No. 13 in the same section (page 106 of the Stamp Manual) should be enforced against the gazetted as well as against the ministerial officers concerned, and Government has fully approved of the recommendations made. The Sub-divisional Officers were held liable for negligence under the first four heads, and the Treasury Officer for contributory negligence under head (e). The Treasurer and Stamp Muharrir at head-quarters were fined for not bringing to notice the irregularities in the preparation of the indents. The Sub-Treasurers delegated their duties to the poddar, and so facilitated the frauds, if they were not actually cognisant of and parties to them.

Criminal proceedings.

7. The poddar was convicted in the Sessions Court. The Sub-Treasurer was acquitted in the absence of any legal proof connecting him with the frauds, as all the documents were found to be in the poddar's hand-writing and were not even initialled by the Sub-Treasurer. For the same reason it was considered useless to proceed against a former Sub-Treasurer who had been transferred, but both of them were dismissed from Government service, and action was taken to recover part of the defalcations from their securities. In the case of one of them, it was found that the bond was given for the due performance of his duties as Nazir, and the security could not be realised.

Remedial measures.

8. Government orders have recently issued directing that no portion of the stock of stamps shall remain in the Sub-Treasurer's hands, except when the officer in charge of the Sub-Treasury is proceeding on tour, in which case the amount made over should not exceed what will probably be required during his absence. The existing rules, if intelligently carried out, seem sufficient. No rules, however carefully prepared, will prevent fraud if officers have not enough intelligence, or are too careless, or too self-sufficient, to enforce them. The Board, however, take this opportunity of pointing out that besides seeing that the Treasury

record agrees with the returns submitted to the Superintendent of Stamps and the Account Department, there are three important points to be watched by a Treasury Officer in connection with the custody of stamps They are as follows.—

(a) The deductions from the double-lock account, when issues are made, must agree with the additions made in the single lock account,

(b) The daily sales shown in the Treasurer's account must agree with the credits in the accountant's register of stamp sales,

(c) A periodical check of value with tale must be applied to the balance in stock

If these checks are applied, no fraud can long remain undetected These remarks apply equally to the duties of an officer in charge of a Sub Treasury Inspecting officers should cross total the entries in the registers of stamps under single and double-lock, and so should the officers in charge from time to time, as well as on the occasion of the half-yearly verification The single-lock account should invariably be inspected on that occasion.

By order of the Board of Revenue, L P.,
T INGLIS,
Secretary.

The Elliott Prize for Scientific Research

WITH reference to notification No 5058F in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Prize for Scientific Research will be given this year to the author of the best original essay, giving the results of original research or investigation in Natural History, composed during the year 1894

No 8*Marine*—The following rules for the Port of Calcutta, which the Lieutenant-Governor proposes to sanction under section 6, sub section (1) of the Indian Ports Act, 1889, as amended by Act V of 1891, in supersession of the existing rules made under section 7 of Act XII of 1875, are published for general information His Honour will be glad to consider any objections or suggestions which may be made by any one concerning them within one month of their publication

C W BOLTON,

Secy to the Govt of Bengal

1 In these rules the word "daybreak" shall be held to mean half an hour before sunrise, and the word 'dark" to mean half an hour after sunset

Vessels not to move at night.

2 No vessel of the burthen of 200 tons or upwards coming into the port shall proceed above the house of the Superintendent of the Government Botanical Gardens (hereinafter called Garden House), or move from one place to another within the port above Garden House between sunset and daybreak, without the special permission of the Commissioners, provided that a vessel which has arrived above Garden House before sunset may at once proceed to a safe anchorage at any part of the port between Tolly's Nullah and Prinsep's Ghat

Vessels not to move up on the flood or down on the ebb

*3 No vessel of the burthen of 200 tons or upwards shall steam, sail, or be towed up on the flood, or down on the ebb, within the port, above Garden House, without the special permission of the Commissioners, and in cases where such permission is granted, the officers in charge shall be held strictly responsible for accidents which may occur in consequence of their taking the vessels up or down at a greater speed than is absolutely necessary in order to keep them under command, and in every case where such permission is granted, the speed of the vessels shall not exceed four miles an hour through the water A vessel arriving off Garden House on the last quarter of the flood, and bound for the Kidderpore Docks, will be allowed to steam up until opposite the entrance of the Docks

Speed of vessels restricted

4 No vessel shall steam, sail, or be towed up on the ebb or down on the flood, within the port above Garden House, at a speed greater than four miles an hour over the ground

Vessels entering the port at neap tides

5 Vessels entering the port at neap-tides during the freshets are permitted to proceed above Garden House at slackwater at a speed not exceeding four miles an hour over the ground

River steamers and tug steamers exempted

6 River steamers and tug-steamers having no vessels in tow are permitted to move up on the flood or down on the ebb at their own risk and at a speed sufficient to keep them under command, but in no case shall the speed within the port above Garden House exceed four miles an hour through the water

Speed of steamers inside moorings

7 No steam-vessel of the character described in the preceding rule shall proceed at a greater rate of speed than four miles an hour when inside the moorings, and no such steam-vessel shall proceed at a greater rate of speed than four miles an hour anywhere within the port above Garden House after dark Without the special permission of the Commissioners, no steamers carrying passengers shall be under weigh after dark between the limits of the landing-stages at Hastings on the south and Ahcereetollah on the north

Vessels dropping up or down.

8 Vessels may at all times drop up or down the Port above Garden House with their anchors on the ground Vessels using their own steam-power when dropping with the tide shall in no case proceed at a greater speed than is absolutely necessary in order to keep them under command

---

* With reference to Port Rule No 3, the following instruction for the guidance of Assistant Harbour Masters is published for general information —

"Assistant Harbour Masters are forbidden, without a special order from the Harbour Master's Office, to turn outward bound vessels until they are below the Lower College Sand Buoy '

Exception in favour of steam tugs

9 Steam-tugs having no vessel in tow shall be permitted to enter the port after sunset at their own risk, but they shall not proceed above Chandpal Ghat Steam tugs shall be held liable for any damage which they may cause by moving at night

Ferry steamers may be exempted

10 Special permission may be given by the Commissioners to ferry-steamers to move in the port otherwise than is prescribed in these rules, due limitation being laid down as to place and hours of plying and speed in each case

Inland vessels moved above bridge

11 Inland steamers and flats lying above the Floating Bridge shall not haul out of moorings during the freshets on the last quarter of the Ebb

Speed limited when passing through bridge opening

12 With the exceptions hereinafter noted, no vessel of or exceeding 200 tons burthen shall, without the special sanction of the Commissioners, move up or down the port through the ship-opening of the Floating bridge, except such vessel is propelled or towed by steam against the tide, and then only at such rate of speed, not exceeding four miles an hour over the ground, as it absolutely necessary to keep good steerage way No river steamer shall pass through the opening with more that two vessels in tow

Exceptions —Tug and river steamers, when not towing or propelling other vessels, may drop through the bridge opening, under steam, head to tide

River flats may be dropped or warped at slack-water through the ship-opening or through the 60-feet openings

Vessels not to pass each other in the opening

13 No steam-vessel shall attempt to pass any other vessel proceeding in the same direction whilst between the pontoons of the Floating Bridge

Not more than two cargo boats to be towed through the opening

14 No steam-vessel shall have in tow more than two cargo-boats when proceeding through the bridge-opening with the tide

15 No steam-vessel shall pass through the bridge-opening without sounding its whistle

Applications for Assistant Harbour Masters to be made to the Harbour Master

16 All applications to be hauled into or cast off from the moorings, or for any other assistance, shall be made, either personally or by letter, to the Harbour Master Applications will, as far as possible, be complied with in order according to date of receipt

Vessels not to move without Harbour Master's permission

17 After a vessel is moored, she shall not be moved without the permission of the Harbour Master

Moorings not to be used without Commissioner's permission

18 No vessels shall make fast to or use any of the moorings, whether fixed or swinging, without the permission of the Commissioners

Vessels to be berthed and moved at the direction of the Commissioners

19. All vessels within the port shall take up such berths as may be appointed for them by the Commissioners or the Harbour Master, and shall move from one berth to another when ordered to do so, but this rule shall not apply to vessels when moving within the port between Budge-Budge and Garden House in charge of a pilot

Ships with coal cargoes

20 Vessels arriving in port with coal or other cargo likely to cause nuisance shall not moor above Garden Reach moorings without special orders

Vessels to remove projections from sides

21 No vessel within the port above Garden House shall have any anchor or spar, or other substance likely to cause damage, projecting from her side

Vessels arriving in the port to rig in the jib and driver booms

22 All vessels on arrival in the port shall rig in their jib and driver booms, and shall keep them so rigged in until the pilot takes charge of the vessel for the purpose of taking her to sea They shall also strike their yards and masts when ordered by the Commissioners Vessels proceeding to the jetties shall, when so required by the Assistant Harbour Master in charge, remove all boats and other projections likely to damage the jetties and cranes

Rules for regulating striking off yards and masts

23 From the 1st day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all sailing vessels in port shall have their royal and top-gallant yards on deck, and mast-rope rove in readiness to send the top-gallant masts down at short notice if required Vessels about to leave the port may send their top-gallant yards aloft 48 hours before leaving the moorings Vessels entering the port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings, and the top-gallant yards of such vessels shall be sent down within 24 hours after they are moored

Additional precautions to be taken on approach of bad weather

24 On the occurrence of signs of an approaching cyclone, a black drum will be hoisted during daylight from the flagstaff on the roof of the Port Commissioners' Office, Koila Ghat, another from the flag-staff opposite the Government Dockyard, Kidderpore, and another at the Petroleum Wharf at Budge-Budge During the night, under similar circumstances, two bright lights in a vertical line will be exhibited from the same flagstaffs When these signals are displayed, masters of vessels shall immediately take every precaution in their power to make their vessels snug and secure, by having awnings furled, and the lower and

top-sail yards counter-braced or pointed to the wind as seems best The cables shall be bent to both bower anchors when possible.

Storm Signals

	Day	Night
This signal means cyclone probable, look out send down royal and topgallant yards, reeve mast ropes, furl awnings	A black ball	Three lights in a vertical line
This signal means cyclone approaching carry out the instructions laid down in Port Rule No 24	A black drum	Two lights in a vertical line

Hatch covers and cross pieces to be removed or slung

25 When cargo is being loaded into, or unloaded from, any ship through any hatchway, every hatch, fore and after, and cross-piece shall be either removed from it or slung separately by a lanyard of sufficient strength to prevent its falling into the hold

Careless discharge from steam pipes prohibited

26 All vessels in port shall adopt sufficient precautions and guards to prevent the dangerous discharge of steam in taking in or discharging cargo, or into boats engaged in loading or discharging cargo

Discharge of coal cargoes

27 Vessels referred to in rule 20 shall discharge their cargo from whichever side the Harbour Master may direct, and shall adopt such measures as he may order for the abatement of the nuisance arising from the discharge

Free channel of 200 yards to be kept

28 A free channel of not less than 200 yards in width shall be kept for ships moving up or down the river in the port, and also free passages to piers, jetties, landing-places, wharves, quays docks, and moorings, and all vessels shall move when ordered to clear such channel or passages

Anchoring ground to be kept clear

29 The river between the lower buoy of the College Sand and Metteabrooj Ghat shall be kept clear for turning inward or outward-bound vessels, and no vessels shall anchor within these limits Between the College Sand and Tolly's Nullah vessels cannot anchor without infringing the preceding rule All vessels intending to anchor in Garden Reach shall be moored below Metteabrooj Ghat moorings in a clear swinging berth, as close to the south bank as the length and draught of the vessels will admit Inward-bound vessels proceeding above Metteabrooj Ghat shall moor in the stream between Prinsep's Ghat and Tolly's Nullah, leaving the clear channel of 200 yards described by the preceding rule

Lying at single anchor prohibited

30 No vessels shall lie at single anchor in the port unless a Pilot or Assistant Harbour Master is on board

Vessels in the stream to keep a clear hawse

31 All vessels moored in the stream shall keep a clear hawse

Vessels to have an anchor at the bow

32 Vessels lying in the stream, or at the moorings, shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go In cases where the vessel has no spare hawse pipe, the towing hawser is to be bent on over-all in lieu of the chain cable

Vessels at swinging moorings how to be fastened

33 All vessels lying at swinging moorings shall during the freshets (5th June to 31st October), in addition to their bower chain, have the end of a good hawser also fast to the ring of the moorings

Stern fastenings in time of bores

34 All vessels placed in the moorings on the ebb-tide shall, during spring-tides, when bores are expected, have their best hawsers passed from each quarter pipe abaft the mainmast, and made fast to the stern moorings, if possible, otherwise to their own chains close to the moorings and hove taut with sufficient strain to relieve the jerk on the chains and bits when the bore comes up

Steamers occupying moorings not to move screws or paddles except under limitation

35 Steam-vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning of their intention to do so to boats in the vicinity they shall not put full power on when trying their engines in the moorings, nor shall any trial under steam be permitted so long as a vessel is lying at the Jetties

Boats going alongside of vessels for embarking or disembarking passengers.

36 No boats are to go alongside of any vessel for the purpose of embarking or disembarking passengers until the vessel is reported to be moored and the engines finished with The River Police will satisfy themselves that such is the case before the boats are allowed alongside"

"The rule is not to apply to a boat carrying the Agent or other person having business with the vessel"

Rules for licensing and regulating cargo-boats

37 No cargo-boat or flat of any description shall ply for hire within the Port unless licensed and registered by the Port Commissioners, under section 6, sub-section (1), clause (*k*) of Act X of 1889 No licensed and registered cargo-boat shall be allowed to ply within the port except under the direction of a manjee licensed and registered by the Port Commissioners The registration of cargo-boats which do not ply for hire is optional

38 Each application for the licensing and registration of cargo-boats shall be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, and the tonnage of the boat, and in the event of the owner not residing in Calcutta, the name and address of the agent duly authorized to act for him

39 Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules The license is not transferable, and if the ownership of the boat is changed, notice of the transfer must be given to the Port Commissioners before the boat again plies in the port

40 No license shall be granted to any cargo-boat until such boat has been surveyed by a Surveyor duly appointed for the purpose, and he shall have granted a certificate stating (a) that the boat is in good order and suited for the conveyance of cargo within the port, (b) the tonnage of such boat, that is the quantity of cargo she is authorized to carry as ascertained by the following rules, and (c) the number of crew required for the safe navigation of such boat according to the annexed scale —

Rules for ascertaining tonnage of boats

Length —Measure the length from the inside stem to inside stern post marked A B on sketch

Breadth —Measure the breadth from side to side inside ceiling plank, under the deck beams amidships, marked C D on sketch

Depth —Measure the depth from underside of deck beam amidships to upperside or floor ceiling plank, marked E F on sketch

Then multiply the length, breadth, and depth together, and the product—

by 009 for flush decked, square-built, and open cargo boats,
by 007 for bazar boats,
by 0064 for open country-boats such as pansways, bhurs, dinghees, and bhowleahs,
by 0083 for open country-boats known as hollahs,
by 0063 for open country-boats known as cholos

The result will be the tonnage of the boat

The foregoing formula shall be used in measuring boats of class 1 up to a burden of 50 tons, but the measurement of boats of that class exceeding 50 tons shall be made under the rules of the Merchant Shipping Act, provided that the Surveyor shall be authorized to measure boats of class 1 of any size under the rules of the Merchant Shipping Act, when the owners show that the measurements made according to the above formula are inaccurate or oppressive

Having ascertained the tonnage of a boat, that is, the quantity of cargo she is authorised to carry in accordance with the foregoing rules, the Surveyor shall, by a conspicuous mark on the boat's side, indicate for every boat exceeding 10 tons the depth to which she will be immersed when carrying the quantity of cargo for which she is licensed

49 Every cargo-boat shall be provided with an iron caboose or fire-place, to be kept on deck or in such other part of the boat as the Surveyer may direct, and no fire shall be permitted in any other part of the boat Every cargo-boat shall carry a light in a lantern in the forepart of the boat, where it can be distinctly seen when under weigh after dark

50 The Port Commissioners may, if they think fit, at any time order any licensed cargo-boat to be resurveyed without any charge to the owners, and they may also revoke at any time any license granted to any owner or manjee, and it shall be competent to the Commissioners to refuse any application for the issue of a license

51 Whenever any accident shall occur to a licensed cargo boat, the manjee in charge or the owner of the boat shall at once proceed to the nearest river police-station and report the circumstances connected with the accident to the officer in charge

52 The owner or agent or manjee of a licensed cargo boat who shall, without good reason, refuse to carry cargo in such boat shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have the licenses of the boat and the manjee revoked

53 Every licensed cargo boat when plying shall have its license on board, and it shall be produced when required

54 Every registered manjee shall be provided with a metal license ticket, upon which shall be legibly painted the number of the manjee's license, and every such manjee when in charge of a licensed cargo boat shall wear his ticket exposed to view No manjee without such ticket shall be in charge of any licensed cargo-boat

55 Whenever the number of any manjee's license ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also when any manjee's license ticket shall have been lost or mislaid, the manjee shall apply to the Port Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, published under Notification, dated 1893, deliver to the manjee a new license ticket

56 On the expiration or other determination of the license, the manjee shall deliver his metal ticket to the registering officer

57 No manjee shall lend or transfer his ticket to any other person, and no other person shall use the ticket of a registered manjee

58 No person in charge of any licensed cargo-boat plying within the limits of the port shall use, or wear, or have any ticket resembling the metal ticket granted under the authority of the rules

59 The manjee of every licensed cargo-boat plying for hire within the port shall, when waiting for hire at the wharves, have a hiring note showing the rate at which such boat can be hired by the day, and any owner or agent failing to supply the manjee with such note shall, in addition to the fine prescribed for a breach of these rules, be liable to have the boat's license revoked.

60 Every owner or agent of a licensed cargo-boat shall, on the 1st August and 1st December in each year, submit a return to the Port Commissioners, showing the number of licensed boats belonging to him plying on the last day of the previous month

Rules for licensing and regulating passenger-boats

61 No catamaran, flat, passenger or other boat shall ply for hire, whether regularly or only occasionally in, or partly within and partly without, the limits of the Port, unless licensed and registered by the Port Commissioners as Conservators of the Port under the provisions of Act X of 1889 No such vessel shall be allowed to ply as aforesaid except under the direction of a person licensed by the Port Commissioners

62 Every application for the licensing and the registration of a catamaran, flat, passenger or other boat shall be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, or in the event of the owner not residing in Calcutta, the name and residence of the agent duly authorized to act for him, a description of the vessel, and the number of passengers which it is intended to carry

63 Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules The license is not transferable, and if the ownership of the boat is changed, notice of the transfer shall be given to the Port Commssioners before the boat again plies in the port.

64. No license shall be granted to any catamaran, flat, passenger or other boat, until such vessel shall have been surveyed by a surveyor duly appointed for the purpose, and he shall have granted a certificate stating the following particulars —

(a) That such vessel is in good order and suited for the accommodation of passengers

(b) The number of crew required for the navigation of such vessel, and the number of such crew who should be required to remain on board at night or when the vessel is lying at anchor at other times is according to the following scales:—

Crew required for navigation

,, ,,	25 ,,	3 ,,
,, ,,	30—35 ,,	4 ,,

(c) The number of persons in addition to the crew which, as ascertained by the following rule, may be safely carried therein at one time —

Rule for ascertaining the number of passengers, catamarans, flats, passenger, and other boats are to carry

Divide the superficial area in square feet of the floor space available for the accommodation of passengers by 6, and the result will be the number of passengers the vessels may be licensed to carry

65. The number of every licensed and registered vessel shall be branded by the surveyor in some conspicuous part thereof

66. The owner, or his agent, or the person in charge of any licensed catamarans, flats, passenger, or other boat shall not permit any number of persons more than that for which such vessel has been licensed to be carried therein at one time, and shall not permit such vessels to ply, unless provided with the number of crew stated in the license. The vessel shall be kept thoroughly clean

67. In the computation of the number of persons in addition to the crew carried in any vessel, two children below the age of 12 years shall be counted as one person, and every two maunds weight of luggage shall be counted as equivalent to one person

68. The license granted for any catamaran, flat, passenger or other boat may be revoked by the Port Commissioners whenever such vessel is, in the opinion of the Port Commissioners, unfitted for the conveyance of passengers, or when any breach of the conditions of the license or the Port Rules has been committed by the owner, or his agent, or the person in charge

69. No catamaran, flat, passenger or other boat shall obstruct the free navigation of the port or the approaches to wharves, jetties, landing-stages, or occupy the portions of the bank set aside for bathing ghats

70. The Port Commissioners may, if they think fit, at any time order any catamaran, flat, passenger or other boat to be resurveyed without any charge to the owners, and they may also revoke at any time any license granted for any such vessel, or to the person in charge thereof, and it shall be competent to the Commissioners to refuse any application for the issue of a license

71. Whenever any accident shall occur to a registered catamaran, flat, passenger or other boat, the person in charge or the owner shall at once proceed to the nearest river police-station and report the circumstances connected with the accident to the officer in charge

72. When any property belonging to passengers or others is left in a catamaran, flat, passenger or other boat unclaimed, the property so left shall be at once sent by the person in charge to the Superintendent, River Police, and a report of the circumstances connected with the property shall be entered in a book kept for that purpose by the police

73. Any person in charge of a licensed catamaran, flat, passenger or other boat plying for hire for passengers in the port who shall without good reason refuse to carry a passenger in such vessel shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have his own license and that of the vessel of which he is in charge revoked

74. Every licensed catamaran, flat, passenger or other boat when plying shall have its license on board, which shall be produced when required

75. Every person registered under Rule 1 shall be provided with a metal license ticket, upon which shall be legibly painted the number of his license, and every such person when in charge of a licensed vessel shall wear his ticket exposed to view. No person without such ticket shall be in charge of any catamaran, flat, passenger or other boat

76. Whenever the number of any license ticket shall become obliterated or defaced so that the same shall not be distinctly legible, and also when any license ticket shall have been lost or mislaid, an application shall be made to the Commissioners for a renewal thereof, and

the Commissioners shall, upon the payment of the fee mentioned in the schedule published under notification, dated 1893, supply a new license ticket

*77 On the expiration or other determination of any license, the ticket shall be returned to the registering officer

78 No license ticket shall be lent or transferred to any other person, and no such ticket shall be used by any unlicensed person

79 No person in charge of any registered catamaran, flat, passenger or other boat plying for hire for passenger traffic within the limits of the port, shall use or wear, or have any ticket resembling the metal ticket granted under the authority of these rules

Smoking and use of naked lights prohibited below the upper deck

80 No person shall smoke or use naked lights of any description in the hold or between-decks, or in any enclosed space on the upper deck in which stores, cargo or inflammable materials is stored of any vessel within the Port or in any dock belonging to the Port Commissioners within the Port

Fires permitted only in galleys within stated hours

81 Fires shall be permitted only in galleys or fireplaces regularly constructed for the purpose, such fires to be kept alight only between daybreak and 9 P M Cooking fires shall not be allowed on board of vessels in dry dock

Vessels to be provided with fire buckets

82 With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600, provided that the total number of buckets shall not be required to exceed 50 in any vessel One-half of the number of such buckets shall be left constantly hanging up on the quarter-deck or other convenient place

Measure to be taken by vessels on the occurrence of a fire

*83 When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out

Vessels anchored or under weigh in the port to show lights between sunset and sunrise

84 All vessels anchored or moored in the stream within the port shall exhibit, between sunset and sunrise, where it can best be seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon and at a distance of at least one mile Vessels under weigh at night shall show the lights prescribed by the Board of Trade's Regulations, with the exception of cargo boats, bhurs, budgerows, up-country and passenger row-boats, which shall carry such lights as shall from time to time be prescribed at the time of licensing

Signal of departure to be hoisted

85 All vessels about to leave the port shall hoist the Blue Peter at the fore at 6 A M, on the day previous to that on which they leave the moorings, and shall keep it hoisted until the pilot takes charge of the vessel, to take her to sea

Power to grant exemption from maintaining crew on board particular ships

86 Whenever it shall appear to the Conservator that any vessel may, without danger to other vessels, be afloat without such crew as hereinbefore is mentioned being maintained thereon, it shall be lawful to the Conservator, if he shall think fit, to grant under his hand a license in the Form A in the second schedule hereto, which license may be made determinable on the breach of any conditions therein contained, and during the continuance of such license, the provision of Rule 1 shall not apply to such vessel

Power to revoke exemption

87 It shall be lawful for the Conservator by any writing under his hand, in the Form B in the second schedule hereto, to revoke such license, and from and after the publication of such revocation, by posting a copy thereof upon some conspicuous part of such vessel, the provisions of Rule 1 shall apply to such vessel and to the master and owner thereof as if no such license has ever been granted

Power to make order with respect to portions of port

88 Whenever it shall appear to the Conservator that any creek, river, or dock is so situate that vessels without any crew therein, may remain afloat in such creek, river, or dock, without danger to any vessels in any part of the port, it shall be lawful for the Conservator to make an order in the Form C in the second schedule hereto, and from time to time, if he shall think fit, to revoke or amend such order Provided always that every such order, amendment, and revocation shall be published in the *Calcutta Gazette*, and that no such order, amendment, and revocation shall have any force or effect until it shall have been so published

During continuance of order, ships to be exempt from necessity of maintaining crews

89 During such time as any such order shall remain in force, the provisions of Rule 1 shall not apply to any to any vessel lying or being within the limits of any such creek, river, or dock, as the same shall be defined by such order

* For the better security of vessels against damage or loss by fire, a steam floating fire engine has been provided and is always kept under steam, ready to proceed at once to any place where her services may be required The fire engine station is at Fort Point, where the vessel is moored, and where a look out is kept day and night In case fire breaks out on board a vessel, notice should at once be sent to the fire engine station.

Employment of seamen during certain hours in the hot season prohibited

90 No master or officer for the time being in charge of or doing duty on board any ship shall, on and from the 1st day of April to the 31st day of October inclusive, employ, or cause to be employed, any European seaman or apprentice in cleaning or painting vessels between the hours of 9 A M and 4 P M, necessitating the direct exposure of such seaman or apprentice to the rays of the sun

Precautions to be taken when working in bilges, &c

91. Masters of vessels requiring work to be performed in bilges, boilers, and double bottoms shall take precautions to ensure that working in such places is free from all danger before the men are sent into them

Outbreak of sickness

92 On the occurrence of a case of cholera, small-pox or other, dangerously communicable disease on board any ship lying in the port, the master shall, as early as possible, send the affected person to hospital, and shall cause the flag R to be hoisted at the fore as a signal to the Health Officer of the Port, and such signal shall not be lowered until the Health Officer has visited the ship

93 The master shall afford such information in regard to the occurrence of the disease as the Health Officer may require, and shall carry out such responsible instructions regarding the cleaning and disinfection of the vessel and the disposal of polluted clothing, bedding, &c, as that officer may consider it necessary to give

94 If, by reason of the prevalence of any dangerously communicable disease on board any ship, the Health Officer and one other medical officer in the service of the Government at Calcutta jointly consider it absolutely necessary for the safety of the crews of other vessels that such vessel should be segregated, the Health Officer shall furnish the master with a certificate to that effect The master shall on receipt of such certificate, forthwith give notice accordingly to the Harbour Master, and the vessel shall be removed to Meteabrooj, or such other place as the Port Commissioners may direct

95 On the occurrence of a death on board, the master shall without delay, inform the River Police, whose permission shall be obtained before the corpse is removed

BOARD OF REVENUE, L P, FORT WILLIAM, *the 22nd December* 1893

NOTICE.

No 41B

IT has been brought to the notice of the Board that certain Marwari firms bid at the Government monthly opium sales through persons who are called *gumashtas* and are not their duly constituted agents, and that these persons not only sign for these firms the sale accounts kept in the sale room, but also the promissory notes taken there under the sale conditions for payment of deposit money on account of the opium purchased With a view to put a stop to this irregular practice, it is hereby notified that on and after the 1st of February 1894, no signature to any paper or document relating to opium sales will be accepted at this office on account of any individual or firm unless such signature is that of a principal or a member of the firm concerned, or of any of its legally constituted agents. Exception will be made in the case of persons who are duly authorized to sign *per procuration* according to existing mercantile usage

THE SCHEDULE.—ENACTMENTS TO BE DEEMED IN FORCE IN ANGUL AND THE KHONDMALS

A Regulation for the peace and government of Angul and the Khondmals.

WHEREAS it is expedient to provide for the peace and government of the tracts of country in Orissa known as Angul and the Khondmals, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

Title and commencement

1 (*1*) This Regulation may be called the Angul District Regulation, 1894, and

(*2*) It shall come into force on such day as the Lieutenant-Governor of Bengal may, by notification in the Calcutta Gazette, direct

Constitution of district of Angul.

2 For the purposes of this Regulation the district of Angul shall be deemed to comprise Angul, together with that portion of Killah Bod which is known as the Khondmals The former may be called the Sadr, or Angul, Sub-division, the latter the Khondmals Sub-division of the said district of Angul

Laws to be in force in the district of Angul

3 (*1*) So much of each of the enactments specified in the schedule as is at the commencement of this Regulation in force in the territories to which the enactment generally applies shall, in the form in which (as at present amended or hereafter to be amended by subsequent enactments, if any) it is so in force, be deemed to be in force in the district of Angul, or such part thereof as is mentioned in the third column of the said schedule, subject to any modifications contained in this Regulation

(*2*) An enactment not comprised in the schedule shall not be deemed to be, or to have been, in force in any part of the district of Angul, unless it shall have been expressly extended thereto, or shall, after the commencement of this Regulation, be so extended thereto, in exercise of the powers conferred by section 5 of this Regulation, or by any other enactment for the time being in force in the district of Angul

Provided that for the purpose of anything done, or any offence committed, or any fine or penalty imposed or incurred, or any proceedings commenced, before the passing of this Regulation, under any other Regulation or Act which, under the provisions of this section, is declared not to be in force in Angul, such Regulation or Act shall be considered to have been in force in Angul

Power to exempt Angul from operation of enactments

4. The Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any enactment or part thereof comprised in the schedule shall no longer be in force in the district of Angul, and on the publication of such notification such enactment or part thereof shall, subject to the proviso to section 3, cease to have effect in the said district.

Power of Local Government to extend any other enactment

5 In addition to the enactments comprised in the schedule, the Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any other enactment or any part thereof shall be in force in the district of Angul, and on the publication of such notification such enactment shall be deemed to be comprised in the schedule.

Power to construe enactments with necessary alterations

6. For the purpose of facilitating the application of any enactment for the time being in force in the district of Angul, any Court may construe such enactment with such alterations not affecting the substance thereof as may be necessary or proper to adapt it to the matter before the Court

Proceedings under Regulation not vitiated for irregularities

7 Notwithstanding anything in this Regulation or in the enactments comprised in the schedule, no finding, sentence, judgment, decree or order of any Court shall be revised, set aside or altered, either in appeal or on revision or otherwise, by reason of any irregularity in procedure, unless such irregularity has, in the opinion of a higher Court, caused a failure of justice

Indemnification of previous acts of the executive authorities

8 All acts of executive authority, proceedings, decrees and sentences which have been done, taken or passed in or with respect to the district of Angul before the commencement of this Regulation by any officer of the Government, or by any person acting under his authority, or otherwise in pursuance of an order of the Government, and which have been, or shall hereafter be, ratified by the Lieutenant-Governor of Bengal, shall be as valid and operative as if they had been duly done, taken or passed in accordance with law, and no suit or other proceeding shall be commenced, maintained or continued against any person whatsoever on the ground that any such acts, proceedings, decrees or sentences were not duly done, taken or passed in accordance with law

Sentences passed in Angul may be carried out in any jail and beyond the sea

9 Any person liable to be imprisoned in any civil or criminal jail in the district of Angul, or to be transported beyond the sea under any order or sentence passed by any officer or Court duly empowered under this Regulation, may be imprisoned in any other civil or criminal jail in British India, or may be transported to any other place which the Local Government may, from time to time, select.

Definitions

10 In this Regulation, and in every enactment in force in the district of Angul, unless there be something repugnant in the subject or in the context,—

(*a*) "High Court" shall mean, with reference to criminal proceedings against European British subjects, or persons jointly charged with such subjects, the High Court of Judicature at Fort William in Bengal, and in any other case it shall mean the Court of the Superintendent

(*b*) "Superintendent" shall mean the Superintendent for the time being of the Orissa Tributary Mahâls

(*c*) "district" shall mean the district of Angul as defined in section 2 of this Regulation

(*d*) "Deputy Commissioner" shall mean the officer in chief executive charge of the district

of Angul, by whatever other title he may be designated

(*e*) "District Court" and "District Judge" shall mean the Court of the Deputy Commissioner and the Deputy Commissioner respectively

(*f*) "Magistrate" shall mean any officer exercising all or any of the powers of a Magistrate under the Code of Criminal Procedure, 1882, by whatever other title he may be designated

(*g*) "District Superintendent" shall mean the chief officer in charge of the Angul District Police, by whatever other title he may be designated

(*h*) "Tahsildar" shall mean the officer in charge of a Subdivision of the district of Angul as defined in section 2

(*i*) "collection-agent" shall mean any village-sarbaráhkár, any Tahsildar, or any other person duly authorized to collect any demand due to the Government and accruing within the district of Angul and

(*j*) "accountant" shall mean any person charged with the duty of keeping the accounts of any such demand as is mentioned in clause (*i*)

CHAPTER II

CONSTITUTION AND JURISDICTION OF COURTS

Courts

11 There shall ordinarily be the following Courts in the district of Angul, and they shall be subject to the general superintendence and control of the Local Government —

(*1*) the Courts of the Tahsildars of Angul and of the Khondmals,

(*2*) the Court of the Deputy Commissioner,

(*3*) the Court of the Superintendent.

Creation of other Courts

12 The Local Government may, with the previous sanction of the Governor General in Council establish any other Court (in addition to those specified in section 11), and may invest it with such powers to be exercised in the district of Angul as it may, from time to time, prescribe

Superintendent's and Deputy Commissioner's power of control

(6) An appeal from an appellate decree or order of the Court of the Deputy Commissioner in a civil or revenue suit, the value of which exceeds one thousand rupees, and in which the Deputy Commissioner has revised or modified the orders of the Lower Court, shall lie to the Court of the Superintendent

35. The Superintendent or the Deputy Commissioner may, of his own motion or otherwise, call for the record of any civil or revenue case decided by any Court under his control and supervision, and may pass such order therein as he may think fit

Revision.

CHAPTER V.

RECOVERY OF PUBLIC DEMANDS.

36 Whenever any sum due to Government is unpaid on the date next after that on which payment is due, the accountant shall certify in writing to the Tahsildar the fact of the arrear and the amount due.

Notice of arrear of public demand

37 On receipt of any such certificate the Tahsildar may, after making any enquiry which he may consider necessary, if he be satisfied that the demand specified in the notice is justly due, issue a notice to the defaulter ordering him, within a given time, (a) to pay up the amount due, or (b) to appear before him and state any objection he may have to pay such amount

Issue of notice

38 If the amount due be not paid or contested as provided in the last foregoing section, the Tahsildar may recover the same by the attachment and sale of any moveable or immoveable property belonging to the defaulter, together with all costs of realizing the same

Mode of realization

39 The Tahsildar shall exempt from sale the holding of any raiyat unless and until he has satisfied himself that the said raiyat has no other property by the sale of which the sum due from him can be realized

Raiyat's holding may not be sold if certificate can be otherwise satisfied

40 All the proceedings of a Tahsildar under this Chapter shall be subject to revision by the Deputy Commissioner and by the Superintendent, who may alter or modify the orders of the said Tahsildar in any way he thinks fit, but there shall be no appeal as a matter of right to either of the above officers

Deputy Commissioner's and Superintendent's power of revision

41 Every Tahsildar shall keep in his office, in such form as may from time to time be prescribed by the Superintendent, a register of his proceedings under this Chapter, and every payment made by any defaulter shall be duly entered in such register

Register of proceedings

CHAPTER VI

VILLAGE-CHAUKIDARS

42 Subject to the approval of the Deputy Commissioner, the District Superintendent of Police may appoint any person to be a village-chaukidar, and may for any misconduct or neglect of duty dismiss any village-chaukidar

Power to appoint and dismiss village-chaukidars

43 The Deputy Commissioner may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings to be a village for the purposes of this Chapter

45. Every village-chaukidar who shall (*a*) withdraw from the duties of his office without the express permission of the District Superintendent of Police, or of some other officer duly authorized by him to grant such permission, (*b*) resign his office without the permission of the District Superintendent of Police, unless he has given at least two months' notice of his intention to resign, or (*c*) be guilty of cowardice, shall be liable, on conviction before a Magistrate, to a fine not exceeding ten rupees

Penalty for village-chaukidar withdrawing from his duties, etc

Provided that no prosecution shall be instituted against any village-chaukidar under this section without the previous sanction of the Deputy Commissioner

46. Any village-chaukidar who is guilty of any wilful misconduct in his office or neglect of his duty, such misconduct or neglect not being an offence within the meaning of the Indian Penal Code, or of section 45 of this Regulation, and not being of so grave a character as, in the opinion of the District Superintendent of Police, to require his dismissal from his office, shall be liable under the orders of the District Superintendent to a fine not exceeding three rupees, and such fine may be recovered as if it were a fine leviable under the provisions of the Code of Criminal Procedure, 1882

Power to fine village-chaukidars

47 Every village chaukidar appointed under this Regulation shall perform the following duties —

Duties of village chaukidar

first, he shall give immediate information to the officer in charge of the police-station within the limits of which the village of which he is a chaukidar is situated of every unnatural, suspicious or sudden death which may occur, and of every murder, culpable homicide, rape, dacoity, robbery, theft, mischief by fire, house-breaking, counterfeiting coin, causing grievous hurt, riot, and all attempts and preparations to commit, and abetments of, all the said offences which may be committed within such village, or which may come to his notice otherwise, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray,

second, he shall arrest all proclaimed offenders and all persons whom he may find in the act of committing any of the offences above specified,

third, he shall observe, and from time to time report to the officer in charge of the police-station within the limits of which such village is situated, the movements of all bad characters in such village,

fourth, he shall report to the officer in charge of such police station the arrival of any suspicious characters in the neighbourhood,

fifth, he shall present himself at such police-station at such intervals as the Deputy Commissioner may direct;

sixth, he shall supply any local information which the Deputy Commissioner or the District Superintendent of Police may require, and

seventh, he shall obey the orders of the Deputy Commissioner and of the District Superintendent of Police with respect to the place where he is to reside and in regard to keeping watch in the village and other matters connected with his duties as village-chaukidar

48 Whenever a village-chaukidar arrests any person, he shall forthwith take the person so arrested to the police-station within the limits of which the village of which he is a chaukidar is situated

Procedure on arrest by village chaukidar

Provided that, if the arrest is made at night, such person shall be so taken as soon as convenient on the following morning.

49 An appeal shall lie to the Deputy Commissioner from every order of the District Superintendent of Police punishing a village-chaukidar with fine or dismissal, and, subject to the general power of revision of the Superintendent, the order which the Deputy Commissioner may pass on such appeal shall be final

Appeal from the District Superintendent's order

CHAPTER VII

REGISTRATION OF DOCUMENTS.

NOTIFICATION

No 340 S R

The 19th January 1894

READ—

The following Orders of Her Majesty in Council, dated respectively the 14th February 1883, and the 23rd November 1893, regarding the measurement of the tonnage of Italian vessels —

AT THE COURT AT WINDSOR,

The 14th day of February 1883

PRESENT

The Queen's Most Excellent Majesty in Council

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under "The Merchant Shipping Act, 1854," therein called the principal Act, have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships

And whereas Her Majesty, by Order in Council, dated the 30th day of September 1873, was pleased to direct that merchant, sailing, and steam-ships belonging to the Kingdom of Italy, the measurement whereof had, after the first day of July, one thousand eight hundred and seventy-three, been ascertained and denoted in the registers and other national papers of such ships testified by the dates thereof, should be deemed to be of the tonnage denoted in their registers or other national papers, in the same manner, and to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships, provided, nevertheless, that if the owner or master of any Italian steam-ship should desire the deduction for engine-room in such ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the Italian rule, the engine-room should be measured and the deduction calculated according to the British rules

And whereas the Government of His Majesty the King of Italy have, by Royal Decree dated the 30th day of July 1882, modified the rules for engine-room measurement and deduction applicable to Italian steam ships, and the said modified rules are now the same as those in force under the said principal Act, and came into operation in the said Kingdom of Italy on the 21st day of September 1882

Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct that the steam-ships of Italy, the certificates of Italian nationality and registry of which are dated on or after the 21st day of September 1882, shall be deemed to be of the tonnage denoted in the said certificates of Italian nationality and registry

AT THE COURT AT WINDSOR

The 23rd day of November 1893

PRESENT

The Queen's Most Excellent Majesty in Council

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the Merchant Shipping Act, 1854, therein called the principal Act, have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted on their certificates

of registry or other papers in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships

And whereas Her Majesty, by Order in Council, dated the 30th day of September 1873, was pleased to direct that merchant, sailing, and steam-ships belonging to the Kingdom of Italy, the measurement whereof had, after the first day of July, one thousand eight hundred and seventy-three, been ascertained and denoted in the registers and other national papers of such ships testified by the dates thereof, should be deemed to be of the tonnage denoted in their registers or other national papers, in the same manner, and to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships, provided, nevertheless, that if the owner or master of any Italian steam-ship should desire the deduction for engine-room in such ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the Italian rule, the engine-room should be measured and the deduction calculated according to the British rules

And whereas Her Majesty, by Order in Council, dated the 14th day of February 1883, was pleased to declare that (the rules for engine-room measurement and deduction applicable to the steam ships of Italy, having been modified by Royal Decree of His Majesty the King of Italy, dated the 30th day of July 1882), the steam ships of Italy, the certificates of Italian nationality and registry of which were dated on or after the 21st day of September 1882, should be deemed to be of the tonnage denoted in the said certificates of Italian nationality and registry

And whereas it has been made to appear to Her Majesty that it is expedient that certain additions should be made to the provisions of the said last recited Order in Council in regard to the mode of estimating the net registered tonnage of Italian ships

Now, therefore, Her Majesty, in virtue of the powers vested in Her by the said recited Acts, and by and with the advice of Her Privy Council, is further pleased to direct as follows, viz, that in the event of the net registered tonnage of Italian ships, estimated under the British rules, being denoted on their Certificates of Registry or other national papers, the same shall be deemed to be of the tonnage so denoted therein

* Means of 5 days | † Means for 6 days

Explanation —*Summary* —The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed at percentage saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The rainfall the normal m[illegible] are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station. A rainy day is one of [illegible] district, [illegible] from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations.

for the week ending Saturday, the 20th of January 1894

for the last ten years The variations are *negative* when the mean for the week is less than the corresponding normal mean and *positive* when greater The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10 Under the head District observations of for the period in question during the past ten years The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell

Explanation — [illegible] indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 1·0 inch of rain has fallen.

C[illegible], *the 23rd January* 1894

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 20TH OF JANUARY 1894

TOWARDS the close of the previous week a barometric depression had formed over North-Western India, and after a brief existence had disappeared. Under ordinary circumstances a cold wave of air would then have flowed from North-Western India over Northern and North-Eastern India, giving a period of rather strongly developed cold weather conditions. On the present occasion, however, very shortly after the disappearance of this depression, a second rather badly defined cold weather storm advanced over North-Western India, the small storm appearing in Baluchistan on the 14th or the first day of the week under review. On the 15th the rapid fall of pressure accompanying the depression had extended over North-Western India, and disturbed weather was reported in the plains and along the hills. On the 16th a very slight improvement took place in the conditions over North-Western India, but on the 17th, 18th and 19th, the decidedly disturbed conditions still existed, and on some days decidedly strong winds were reported in the hills and snow was falling in Baluchistan, Kashmir and the Murree Hills. Practically, therefore, for the whole of the week under review, disturbed conditions have existed in North-Western India, and, as always happens in such circumstances, conditions in Bengal have been in her abnormal with somewhat high temperature and for a considerable time rather high humidity also. The disturbance having been practically continuous, also, there has been no cold wave of air over Northern India such as usually follows after the disappearance of such storms, and in its place Bengal has been affected only by the rather warm and humid weather which always exists in front of the cold weather depressions.

The variations of meteorological conditions from day to day have not been at all important. On the 14th and 15th pressure had fallen slowly, while the temperature changes were variable, but if anything there was a slight decrease, while on the 16th and 17th the fall of pressure continued, while temperature had increased decidedly. On the 18th a moderate to brisk increase of pressure had occurred, and temperature began to fall at the western stations, though it was still rising elsewhere. The increase of pressure, however, only lasted for a single day, and on the 19th pressure was again falling, and the fall of temperature though small had become more general, while on the 20th pressure had again commenced to increase by small to moderate amounts and temperature had again risen, the rise being rather brisk at the western stations. Indeed on the 20th instant the disturbed conditions which had existed over Northern India had commenced to affect South Bihar slightly, and a few light showers of rain were reported on this day in the Shahabad and Gaya districts.

Pressure.—At the commencement of the week pressure was in excess of the normal over the whole Province, the excess equalling about a twentieth of an inch at the north-eastern stations, and decreasing towards the west of the Province. On the 20th or the last day of the week the variations from the normal were rather smaller, pressure had become in defect at a few of the southern stations, while elsewhere there was a small excess of about 0.02 inch. The average pressure for the whole week has been slightly below the normal at the majority of stations, the defect equalling about 0.01 inch or 0.02 inch.

Temperature.—The general mean temperature for the whole Province for the week has been 0.5 inch above the normal, but the excess has been mainly confined to Bihar and Chota Nagpur, where the excess has been from 1° to 2°. Elsewhere the variations from the normal have been small.

The actual temperatures registered during the week, and their variations from the usual temperature for the present season, are most clearly seen in the table below, where the average maximum, minimum, and mean temperatures for the week at nine typical stations in different districts of the Province are compared with the normal values for the same period. The variations in different districts, it will be seen, have been rather large in both the night and day temperatures. The maximum temperatures have, however shown the largest excess amounts, and the general excess at the nine stations has equalled about 1.6°, while on the other hand the night or minimum temperatures show a defect of 0.2° only.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Geelong approach—Depth in New Ship channel and intended alterations in lights and buoys

THE British Admiralty has given notice (No 641 of 1893) that the New Ship channel, entrance to Geelong inner harbour, has been completed throughout its entire length of 2 miles to a depth of 22 feet at low water for a width of 110 feet, and that consequently, on 20th December 1893, the following alterations will be made in the lights and buoys in the vicinity and approach —

1 *New Ship Channel lights* —The north side of New Ship channel will be marked by four *fixed white* lights, each elevated 26 feet above the sea, visible 6 miles, and exhibited from a pile structure situated about 20 feet northward of the northern side of the channel, the structures being at equal distances of 4040 feet apart

Approximate position, Eastern light, lat 38° 7′ 15″ S, long 144° 26′ 35″ E

Approximate position, Western light, lat 38° 7′ 30″ S, long 144° 24′ 10″ E

The south side of the channel will be marked by three *fixed red* lights, each elevated 26 feet above the sea, visible 6 miles, and exhibited from a pile structure situated about 20 feet southward of the south side of the channel, the structures being so placed as to alternate with those on the north side of the channel

2 *Buoys in approach* —The buoys marking Prince George bank, point Richards, and Wilson spit will each be replaced by a gas buoy showing an *occulting* light (*six* to *eight flashes* and eclipses *every minute*), visible 6 miles in clear weather

Prince George Bank buoy will show a *white* light, point Richards buoy a *red* light, and Wilson spit buoy a *white* light

Approximate position, Prince George bank buoy, lat 38° 7′ 35″ S, long 144° 44′ 30″ E

Approximate position, point Richards buoy, lat 38° 6′ 0″ S, long, 144° 37′ 40″ E

Approximate position, Wilson spit buoy, lat 38° 8′ 45″ S, long 144° 29′ 50″ E

3 *Discontinuance of lights in north and south channels and at Portarlington* —After the above lights have been exhibited, the light-vessel, hitherto moored near Bird rock and showing a *fixed white* light, will be withdrawn, and all the lights shown from beacons in Geelong North and South channels, and the *red* beacon light at Portarlington, will be discontinued

Approximate position, Geelong light-vessel, lat 38° 5′ 50″ S, long 144° 26′ E

Approximate position Portarlington *red* light, lat 38° 7′ S, long 144° 39′ 5″ E

NOTE —The speed of steam vessels navigating the New Ship channel, or the Geelong South channel, is to be reduced so as not to exceed 6 miles per hour, and no sailing vessel is to enter the New Ship channel whilst any other vessel is proceeding through that channel in an opposite direction

Assistant Secretary to the Govt. of Bengal,

Legislative Department.

NOTIFICATION—No 531-O, dated the 31st January 1894

The Lieutenant Governor cannot allow Mr J H Rivett-Carnac, C S, C I E, to retire from the service of Government without placing on record his appreciation of the good work performed by that officer as Opium Agent at Ghazipur He has held that appointment since the 29th March 1875, and has repeatedly been congratulated by the Board and Government on his successful administration of his Agency His experience in survey and settlement work in the Central Provinces enabled him to introduce considerable improvements in the system of distributing licenses, measuring areas under opium, and registering and supervising the cultivation He suggested and carried out the scheme for substituting Malwa opium in the place of Benares and Behar opium for the purpose of consumption in India, and thus caused an important saving to Government

He has also distinguished himself by his devotion to the cause of Volunteering, and has been largely instrumental in the great spread of the Volunteer movement in Upper India To his advice and perseverance the scheme of a Volunteer Reserve Force owes its inception and development It is chiefly for his exertions in this direction that Mr Rivett-Carnac has received the honour of being appointed Aide-de-Camp to Her Majesty the Queen-Empress

NOTICE

The 23rd January 1894

No 8*Marine* —The following rules for the Port of Calcutta, which the Lieutenant-Governor proposes to sanction under section 6, sub-section (1) of the Indian Ports Act, 1889, as amended by Act V of 1891, in supersession of the existing rules made under section 7 of Act XII of 1875, are published for general information His Honour will be glad to consider any objections or suggestions which may be made by any one concerning them within one month of their publication

C W. ODLING,
Secy to the Govt of Bengal

1 In these rules the word "daybreak" shall be held to mean half an hour before sunrise, and the word "dark" to mean half an hour after sunset

Vessels not to move at night

2 No vessel of the burthen of 200 tons or upwards coming into the port shall proceed above the house of the Superintendent of the Government Botanical Gardens (hereinafter called Garden House), or move from one place to another within the port above Garden House between sunset and daybreak, without the special permission of the Commissioners, provided that a vessel which has arrived above Garden House before sunset may at once proceed to a safe anchorage at any part of the port between Tolly's Nullah and Prinsep's Ghat

Vessels not to move up on the flood or down on the ebb

*3 No vessel of the burthen of 200 tons or upwards shall steam, sail, or be towed up on the flood, or down on the ebb, within the port, above Garden House, without the special permission of the Commissioners, and in cases where such permission is granted, the officers in charge shall be held strictly responsible for accidents which may occur in consequence of their taking the vessels up or down at a greater speed than is absolutely necessary in order to keep them under command, and in every case where such permission is granted, the speed of the vessels shall not exceed four miles an hour through the water A vessel arriving off Garden House on the last quarter of the flood, and bound for the Kidderpore Docks, will be allowed to steam up until opposite the entrance of the Docks

Speed of vessels restricted

4 No vessel shall steam, sail, or be towed up on the ebb or down on the flood, within the port above Garden House, at a speed greater than four miles an hour over the ground

Vessels entering the port at neap tides.

5 Vessels entering the port at neap-tides during the freshets are permitted to proceed above Garden House at slackwater at a speed not exceeding four miles an hour over the ground

River steamers and tug steamers exempted

6 River steamers and tug-steamers having no vessels in tow are permitted to move up on the flood or down on the ebb at their own risk and at a speed sufficient to keep them under command, but in no case shall the speed within the port above Garden House exceed four miles an hour through the water

Speed of steamers inside moorings.

7 No steam-vessel of the character described in the preceding rule shall proceed at a greater rate of speed than four miles an hour when inside the moorings, and no such steam-vessel shall proceed at a greater rate of speed than four miles an hour anywhere within the port above Garden House after dark Without the special permission of the Commissioners, no steamers carrying passengers shall be under weigh after dark between the limits of the landing-stages at Hastings on the south and Aheereetollah on the north

Vessels dropping up or down

8 Vessels may at all times drop up or down the Port above Garden House with their anchors on the ground Vessels using their own steam-power when dropping with the tide shall in no case proceed at a greater speed than is absolutely necessary in order to keep them under command

---

* With reference to Port Rule No 3, the following instruction for the guidance of Assistant Harbour Masters is published for general information —

"Assistant Harbour Masters are forbidden, without a special order from the Harbour Master's Office, to turn outward bound vessels until they are below the Lower College Sand Buoy "

Exception in favour of steam tugs

9 Steam-tugs having no vessel in tow shall be permitted to enter the port after sunset at their own risk, but they shall not proceed above Chandpal Ghat Steam-tugs shall be held liable for any damage which they may cause by moving at night

Ferry steamers may be exempted

10 Special permission may be given by the Commissioners to ferry-steamers to move in the port, otherwise than is prescribed in these rules, due limitation being laid down as to place and hours of plying and speed in each case

Inland vessels moved above Bridge

11 Inland steamers and flats lying above the Floating Bridge shall not haul out of moorings during the freshets on the last quarter of the ebb

Speed limited when passing through bridge opening

12 With the exceptions hereinafter noted, no vessel of or exceeding 200 tons burthen shall, without the special sanction of the Commissioners, move up or down the port through the ship-opening of the Floating bridge, except such vessel is propelled or towed by steam against the tide, and then only at such rate of speed, not exceeding four miles an hour over the ground, as it absolutely necessary to keep good steerage way No river steamer shall pass through the opening with more that two vessels in tow

Exceptions —Tug and river steamers, when not towing or propelling other vessels, may drop through the bridge opening, under steam, head to tide

River flats may be dropped or warped at slack-water through the ship-opening or through the 60-feet openings

Vessels not to pass each other in the opening

13 No steam-vessel shall attempt to pass any other vessel proceeding in the same direction whilst between the pontoons of the Floating Bridge

Not more than two cargo boats to be towed through the opening

14 No steam-vessel shall have in tow more than two cargo-boats when proceeding through the bridge-opening with the tide

15 No steam-vessel shall pass through the bridge-opening without sounding its whistle

Applications for Assistant Harbour Masters to be made to the Harbour Master

16 All applications to be hauled into or cast off from the moorings, or for any other assistance, shall be made, either personally or by letter, to the Harbour Master Applications will, as far as possible, be complied with in order according to date of receipt

Vessels not to move without Harbour Master's permission.

17 After a vessel is moored, she shall not be moved without the permission of the Harbour Master

Moorings not to be used without Commissioner's permission

18 No vessels shall make fast to or use any of the moorings, whether fixed or swinging, without the permission of the Commissioners

Vessels to be berthed and moved at the discretion of the Commissioners

19. All vessels within the port shall take up such berths as may be appointed for them by the Commissioners or the Harbour Master, and shall move from one berth to another when ordered to do so, but this rule shall not apply to vessels when moving within the port between Budge-Budge and Garden House in charge of a pilot

Ships with coal cargoes

20 Vessels arriving in port with coal or other cargo likely to cause nuisance shall not moor above Garden Reach moorings without special orders

Vessels to remove projections from sides.

21 No vessel within the port above Garden House shall have any anchor or spar, or other substance likely to cause damage, projecting from her side.

Vessels arriving in the port to rig in the jib and driver booms

22 All vessels on arrival in the port shall rig in their jib and driver booms, and shall keep them so rigged in until the pilot takes charge of the vessel for the purpose of taking her to sea They shall also strike their yards and masts when ordered by the Commissioners Vessels proceeding to the jetties shall, when so required by the Assistant Harbour Master in charge, remove all boats and other projections likely to damage the jetties and cranes

Rules for regulating striking off yards and masts

23 From the 1st day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all sailing vessels in port shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant masts down at short notice if required Vessels about to leave the port may send their top-gallant yards aloft 48 hours before leaving the moorings Vessels entering the port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings, and the top-gallant yards of such vessels shall be sent down within 24 hours after they are moored

Additional precautions to be taken on approach of bad weather

24 On the occurrence of signs of an approaching cyclone, a black drum will be hoisted during daylight from the flagstaff on the roof of the Port Commissioners' Office, Koila Ghat, another from the flag-staff opposite the Government Dockyard, Kidderpore, and another at the Petroleum Wharf at Budge-Budge During the night, under similar circumstances, two bright lights in a vertical line will be exhibited from the same flagstaffs When these signals are displayed, masters of vessels shall immediately take every precaution in their power to make their vessels snug and secure, by having awnings furled, and the lower and

top-sail yards counter-braced or pointed to the wind as seems best The cables shall be bent to both bower anchors when possible

Storm Signals

	Day	*Night*
This signal means cyclone probable, look out send down royal and topgallant yards, reeve mast ropes furl awnings	A black ball	Three lights in a vertical line.
This signal means cyclone approaching carry out the instructions laid down in Port Rule No 24	A black drum	Two lights in a vertical line

Hatch covers and cross pieces to be removed or slung

25 When cargo is being loaded into, or unloaded from, any ship through any hatchway, every hatch, fore and after, and cross-piece shall be either removed from it or slung separately by a lanyard of sufficient strength to prevent its falling into the hold

Careless discharge from steam pipes prohibited

26 All vessels in port shall adopt sufficient precautions and guards to prevent the dangerous discharge of steam in taking in or discharging cargo, or into boats engaged in loading or discharging cargo

Discharge of coal cargoes

27 Vessels referred to in rule 20 shall discharge their cargo from whichever side the Harbour Master may direct, and shall adopt such measures as he may order for the abatement of the nuisance arising from the discharge

Free channel of 200 yards to be kept

28 A free channel of not less than 200 yards in width shall be kept for ships moving up or down the river in the port, and also free passages to piers, jetties, landing-places, wharves, quays, docks, and moorings, and all vessels shall move when ordered to clear such channel or passages

Anchoring ground to be kept clear

29 The river between the lower buoy of the College Sand and Metteabrooj Ghat shall be kept clear for turning inward or outward-bound vessels, and no vessels shall anchor within these limits Between the College Sand and Tolly's Nullah vessels cannot anchor without infringing the preceding rule All vessels intending to anchor in Garden Reach shall be moored below Metteabrooj Ghat moorings in a clear swinging berth, as close to the south bank as the length and draught of the vessels will admit Inward-bound vessels proceeding above Metteabrooj Ghat shall moor in the stream between Prinsep's Ghat and Tolly's Nullah, leaving the clear channel of 200 yards described by the preceding rule

Lying at single anchor prohibited

30 No vessels shall lie at single anchor in the port unless a Pilot or Assistant Harbour Master is on board

Vessels in the stream to keep a clear hawse

31 All vessels moored in the stream shall keep a clear hawse

Vessels to have an anchor at the bow

32 Vessels lying in the stream, or at the moorings, shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go In cases where the vessel has no spare hawse pipe, the towing hawser is to be bent on over-all in lieu of the chain cable

Vessels at swinging moorings how to be fastened

33 All vessels lying at swinging moorings shall during the freshets (5th June to 31st October), in addition to their bower chain, have the end of a good hawser also fast to the ring of the moorings

Stern fastenings in time of bores.

34 All vessels placed in the moorings on the ebb-tide shall, during spring-tides, when bores are expected, have their best hawsers passed from each quarter pipe abaft the mainmast, and made fast to the stern moorings, if possible, otherwise to their own chains close to the moorings and hove taut with sufficient strain to relieve the jerk on the chains and bits when the bore comes up

Steamers occupying moorings not to move screws or paddles except under limitation

35 Steam-vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning of their intention to do so to boats in the vicinity they shall not put full power on when trying their engines in the moorings, nor shall any trial under steam be permitted so long as a vessel is lying at the Jetties

Boats going alongside of vessels for embarking or disembarking passengers

36 No boats are to go alongside of any vessel for the purpose of embarking or disembarking passengers until the vessel is reported to be moored and the engines finished with The River Police will satisfy themselves that such is the case before the boats are allowed alongside "

" The rule is not to apply to a boat carrying the Agent or other person having business with the vessel "

Rules for licensing and regulating cargo-boats

37 No cargo boat or flat of any description shall ply for hire within the Port unless licensed and registered by the Port Commissioners, under section 6, sub section (1), clause (k) of Act X of 1889 No licensed and registered cargo-boat shall be allowed to ply within the port except under the direction of a manjee licensed and registered by the Port Commissioners. The registration of cargo-boats which do not ply for hire is optional.

38 Each application for the licensing and registration of cargo-boats shall be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, and the tonnage of the boat, and in the event of the owner not residing in Calcutta, the name and address of the agent duly authorized to act for him

39 Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules The license is not transferable and if the ownership of the boat is changed, notice of the transfer must be given to the Port Commissioners before the boat again plies in the port

40 No license shall be granted to any cargo boat until such boat has been surveyed by a Surveyor duly appointed for the purpose, and he shall have granted a certificate stating (*a*) that the boat is in good order and suited for the conveyance of cargo within the port, (*b*) the tonnage of such boat, that is the quantity of cargo she is authorized to carry as ascertained by the following rules, and (*c*) the number of crew required for the safe navigation of such boat according to the annexed scale —

Rules for ascertaining tonnage of boats

Length —Measure the length from the inside stem to inside stern post marked A B on sketch

Breadth —Measure the breadth from side to side inside ceiling plank, under the deck beams amidships, marked C D on sketch

Depth —Measure the depth from underside of deck beam amidships to upperside or floor ceiling plank, marked E F on sketch

Then multiply the length, breadth, and depth together, and the product—

by 009 for flush decked, square-built, and open cargo boats,
by 007 for bazar boats,
by 0064 for open country-boats such as panswys, bhurs, dinghees, and bhowlcahs,
by 0083 for open country boats known as hollahs,
by 0063 for open country boats known as cholts

The result will be the tonnage of the boat

The foregoing formula shall be used in measuring boats of class 1 up to a burden of 50 tons, but the measurement of boats of that class exceeding 50 tons shall be made under the rules of the Merchant Shipping Act, provided that the Surveyor shall be authorized to measure boats of class 1 of any size under the rules of the Merchant Shipping Act, when the owners show that the measurements made according to the above formula are inaccurate or oppressive

Having ascertained the tonnage of a boat, that is, the quantity of cargo she is authorised to carry in accordance with the foregoing rules, the Surveyor shall, by a conspicuous mark on the boat's side, indicate for every boat exceeding 10 tons the depth to which she will be immersed when carrying the quantity of cargo for which she is licensed

NUMBER OF CREW TO BE CARRIED BY CARGO-BOATS

CLASS I ——*Square built open or decked cargo-boats*

,, ,, 30	,,	5 ,, ,,
,, ,, 40	,,	6 ,, ,,
,, above 40 but not exceeding 50	,,	7 ,, ,,

41 The number of every licensed boat shall be branded by the Surveyor on the boat, and shall also be painted in white figures not less than six inches long on both sides of the boat

42 The owner or his agent, or the manjee in charge of any licensed boat, shall not permit any quantity of cargo, more than that for which such boat has been licensed, to be carried in such boat at one time, and shall not permit such boat to ply unless provided with the number of crew stated in the license The boat must be kept thoroughly clean and be provided with a pump, ground tackle and fittings in working order as specified in the license

43 The license granted for any cargo-boat may be revoked whenever such boat is, in the opinion of the Port Commissioners, unfitted for the conveyance of cargo, or when any breach of the conditions of the license or the Port Rules has been committed by the owner or his agent, or the manjee in charge of the boat

44 No cargo-boat shall lie at the Inland Vessels Wharves, unless when receiving or discharging cargo, and all cargo boats shall cast off from the mooring posts and move from one place to another when required by an officer duly authorised by the Port Commissioners

45 No cargo-boat shall obstruct the free navigation of the port, or the approaches to wharves, jetties or landing stages, and no cargo-boat shall be moored, or land, or ship goods at any bathing ghat

46 Cargo-boats when under weigh within the port shall be under oars or sail to enable them to keep clear of moving steamers or ships

47 Cargo-boats moving up or down in port when proceeding to or from vessels occupying fixed moorings shall keep as close as possible to the line of fixed moorings Other cargo boats moving up or down shall keep to the west of the line of swinging moorings

48 Not more than three cargo-boats shall make fast to one mooring buoy at the same time, and any cargo-boat which has made fast to a mooring buoy shall cast off when required by an officer duly authorized by the Port Commissioners

49 Every cargo boat shall be provided with an iron caboose or fire-place, to be kept on deck or in such other part of the boat as the Surveyor may direct, and no fire shall be permitted in any other part of the boat Every cargo-boat shall carry a light in a lantern in the forepart of the boat, where it can be distinctly seen when under weigh after dark

50 The Port Commissioners may, if they think fit, at any time order any licensed cargo boat to be resurveyed without any charge to the owners, and they may also revoke at any time any license granted to any owner or manjee, and it shall be competent to the Commissioners to refuse any application for the issue of a license

51 Whenever any accident shall occur to a licensed cargo boat, the manjee in charge or the owner of the boat shall at once proceed to the nearest river police-station and report the circumstances connected with the accident to the officer in charge

52 The owner or agent or manjee of a licensed cargo boat who shall, without good reason refuse to carry cargo in such boat shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have the licenses of the boat and the manjee revoked

53 Every licensed cargo boat when plying shall have its license on board, and it shall be produced when required

54 Every registered manjee shall be provided with a metal license ticket, upon which shall be legibly painted the number of the manjee's license, and every such manjee when in charge of a licensed cargo-boat shall wear his ticket exposed to view No manjee without such ticket shall be in charge of any licensed cargo-boat

55 Whenever the number of any manjee's license ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also when any manjee's license ticket shall have been lost or mislaid, the manjee shall apply to the Port Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, published under Notification, dated 1893, deliver to the manjee a new license ticket

56 On the expiration or other determination of the license, the manjee shall deliver his metal ticket to the registering officer

57 No manjee shall lend or transfer his ticket to any other person, and no other person shall use the ticket of a registered manjee

58 No person in charge of any licensed cargo boat plying within the limits of the port shall use, or wear, or have any ticket resembling the metal ticket granted under the authority of the rules

59 The manjee of every licensed cargo-boat plying for hire within the port shall when waiting for hire at the wharves, have a hiring note showing the rate at which such boat can be hired by the day, and any owner or agent failing to supply the manjee with such note shall in addition to the fine prescribed for a breach of these rules, be liable to have the boat's license revoked

60 Every owner or agent of a licensed cargo boat shall, on the 1st August and 1st December in each year, submit a return to the Port Commissioners, showing the number of licensed boats belonging to him plying on the last day of the previous month

Rules for licensing and regulating passenger-boats

61 No catamaran, flat, passenger or other boat shall ply for hire, whether regularly or only occasionally in, or partly within and partly without the limits of the Port, unless licensed and registered by the Port Commissioners as Conservators of the Port under the provisions of Act X of 1889 No such vessel shall be allowed to ply as aforesaid except under the direction of a person licensed by the Port Commissioners

62 Every application for the licensing and the registration of a catamaran, flat, passenger or other boat shall be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, or in the event of the owner not residing in Calcutta, the name and residence of the agent duly authorized to act for him, a description of the vessel, and the number of passengers which it is intended to carry

63 Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules The license is not transferable, and if the ownership of the boat is changed, notice of the transfer shall be given to the Port Commissioners before the boat again plies in the port

64 No license shall be granted to any catamaran, flat, passenger or other boat, until such vessel shall have been surveyed by a surveyor duly appointed for the purpose, and he shall have granted a certificate stating the following particulars —

(a) That such vessel is in good order and suited for the accommodation of passengers

(b) The number of crew required for the navigation of such vessel, and the number of such crew who should be required to remain on board at night or when the vessel is lying at anchor at other times is according to the following scales —

Crew required for navigation

Boat to carry not more than	10 passengers,	3 men including manjee
" "	15	"	4	" " "
" "	20	"	5	" " "
" "	25	"	6	" " "

Vessels to be provided with fire buckets

82 With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600, provided that the total number of buckets shall not be required to exceed 50 in any vessel One-half of the number of such buckets shall be left constantly hanging up on the quarter-deck or other convenient place

Measures to be taken by vessels on the occurrence of a fire

*83 When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out

Vessels anchored or under weigh in the port to show lights between sunset and sunrise

84 All vessels anchored or moored in the stream within the port shall exhibit, between sunset and sunrise, where it can best be seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon and at a distance of at least one mile Vessels under weigh at night shall show the lights prescribed by the Board of Trade's Regulations, with the exception of cargo boats, bhurs, budgerows, up-country and passenger row-boats, which shall carry such lights as shall from time to time be prescribed at the time of licensing

Signal of departure to be hoisted

85 All vessels about to leave the port shall hoist the Blue Peter at the fore at 6 A M, on the day previous to that on which they leave the moorings, and shall keep it hoisted until the pilot takes charge of the vessel, to take her to sea

Power to grant exemption from maintaining crew on board particular ships

86 Whenever it shall appear to the Conservator that any vessel may, without danger to other vessels, be afloat without such crew as hereinbefore is mentioned being maintained thereon, it shall be lawful to the Conservator, if he shall think fit, to grant under his hand a license in the Form A in the second schedule hereto, which license may be made determinable on the breach of any conditions therein contained, and during the continuance of such license, the provision of Rule 1 shall not apply to such vessel

Power to revoke exemption

87 It shall be lawful for the Conservator by any writing under his hand, in the Form B in the second schedule hereto, to revoke such license, and from and after the publication of such revocation, by posting a copy thereof upon some conspicuous part of such vessel, the provisions of Rule 1 shall apply to such vessel and to the master and owner thereof as if no such license has ever been granted

Power to make order with respect to portions of port

88 Whenever it shall appear to the Conservator that any creek, river, or dock is so situate that vessels without any crew therein, may remain afloat in such creek, river, or dock, without danger to any vessels in any part of the port, it shall be lawful for the Conservator to make an order in the Form C in the second schedule hereto, and from time to time, if he shall think fit, to revoke or amend such order Provided always that every such order, amendment, and revocation shall be published in the *Calcutta Gazette*, and that no such order, amendment, and revocation shall have any force or effect until it shall have been so published

During continuance of order, ships to be exempt from necessity of maintaining crews

89 During such time as any such order shall remain in force, the provisions of Rule 1 shall not apply to any to any vessel lying or being within the limits of any such creek, river, or dock, as the same shall be defined by such order

* For the better security of vessels against damage or loss by fire, a steam floating fire engine has been provided and is always kept under steam ready to proceed at once to any place where her services may be required The fire engine station is at Fort Point where the vessel is moored, and where a look out is kept day and night In case fire breaks out on board a vessel, notice should at once be sent to the fire engine station

Employment of seamen during certain hours in the hot season prohibited

90 No master or officer for the time being in charge of or doing duty on board any ship shall, on and from the 1st day of April to the 31st day of October inclusive, employ, or cause to be employed, any European seaman or apprentice in cleaning or painting vessels between the hours of 9 A M and 4 P M, necessitating the direct exposure of such seaman or apprentice to the rays of the sun

Precautions to be taken when working in bilges, &c

91 Masters of vessels requiring work to be performed in bilges, boilers, and double bottoms shall take precautions to ensure that working in such places is free from all danger before the men are sent into them

Outbreak of sickness

92 On the occurrence of a case of cholera, small-pox or other, dangerously communicable disease on board any ship lying in the port, the master shall, as early as possible, send the affected person to hospital and shall cause the flag R to be hoisted at the fore as a signal to the Health Officer of the Port, and such signal shall not be lowered until the Health Officer has visited the ship

93 The master shall afford such information in regard to the occurrence of the disease as the Health Officer may require, and shall carry out such responsible instructions regarding the cleaning and disinfection of the vessel and the disposal of polluted clothing, bedding, &c , as that officer may consider it necessary to give

94 If, by reason of the prevalence of any dangerously communicable disease on board any ship, the Health Officer and one other medical officer in the service of the Government at Calcutta jointly consider it absolutely necessary for the safety of the crews of other vessels that such vessel should be segregated, the Health Officer shall furnish the master with a certificate to that effect The master shall on receipt of such certificate, forthwith give notice accordingly to the Harbour Master, and the vessel shall be removed to Moteabrooj, or such other place as the Port Commissioners may direct

No 5—The following Statute is published for general information —

THE EAST INDIA LOAN ACT, 1893

[56 & 57 VICT, c 70]

An Act to enable the Secretary of State in Council of India to raise Money in the United Kingdom for the Service of the Government of India, and for other purposes relating thereto

21st December, 1893

Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows —

Short title

1 This Act may be cited as the East India Loan Act, 1893

Definition

2 In this Act the expression "Secretary of State" means the Secretary of State in Council of India, unless the context otherwise requires.

Power to the Secretary of State to raise any sum not exceeding 10,000,000*l*

3 It shall be lawful for the Secretary of State, at any time or times, to raise in the United Kingdom, for the service of the Government of India, any sum or sums of money not exceeding in the whole ten millions of pounds sterling, such sum or sums to be raised by the creation and issue of bonds, debentures, bills, or capital stock bearing interest, or partly by one of such modes, and partly by another or others

Issue of bonds

4. All bonds issued under the authority of this Act may be issued under the hands of two Members of the Council of India, and countersigned by the Secretary of State for India, or one of his Under Secretaries, or his Assistant Under Secretary, and shall be for such respective amounts, payable after such notice, and at such rate or rates of interest, as the said Secretary of State may think fit

Signature of debentures and bills

5 All debentures and bills to be issued by the Secretary of State under the authority of this or any previous Act of Parliament, instead of being signed by two Members of the Council of India and countersigned, shall bear the name of one of the Under Secretaries of State for India for the time being, and that name may be impressed or affixed by machinery or otherwise in such manner as the Secretary of State may from time to time direct

Issue of debentures

6 All debentures issued under the authority of this Act may be issued for such respective amounts, and at such rate or rates of interest, as the Secretary of State may think fit, and shall be issued at or for such prices, and on such terms, as may be determined by the Secretary of State

Payment of principal and interest on debentures.

7 All debentures issued under the authority of this Act shall be paid off at par at a time or times to be mentioned in such debentures re

spectively and the interest on all such debentures shall be paid on such days as shall be mentioned therein, and the principal moneys and interest secured by such debentures shall be payable either at the treasury of the Secretary of State in London or at the Bank of England

Transfer of debentures and coupons for interest

8 The debentures issued under the authority of this Act, and all right to and in respect of the principal and interest moneys secured thereby, shall be transferable by the delivery of such debentures or, at the discretion of the Secretary of State, by deed, provided that the coupons for interest annexed to any debenture issued under the authority of this Act shall pass by delivery

Issue of bills

9 All bills issued under the authority of this Act may be issued for such respective amounts as the Secretary of State may think fit, and shall be issued at or for such prices, and on such terms, as may be determined by the Secretary of State

Description, currency of, and interest on bills

10 A bill issued under the authority of this Act shall be a bill for the payment of the principal sum named therein at the date therein mentioned, so that the date be not more than twelve months from the date of the bill, and the principal sum secured by such bill shall be payable either at the treasury of the Secretary of State in London or at the Bank of England Interest shall be payable in respect of such bill at such rate and in such manner as the Secretary of State may determine

Creation of capital stock

11 Any capital stock created under the authority of this Act shall bear such rate of interest as the Secretary of State may think fit and such capital stock may be issued on such terms as may be determined by the Secretary of State, and any such capital stock may bear interest during such period, and be paid off at par at such time, as the Secretary of State may prescribe previously to the issue of such capital stock

Transfer books of capital stock

12 In case of the creation and issue of any such capital stock there shall be kept, either at the office of the Secretary of State in London, or at the Bank of England, books wherein entries shall be made of the said capital stock, and wherein all assignments or transfers of the same, or any part thereof, shall be entered and registered, and shall be signed by the parties making such assignments or transfers, or, if such parties be absent, by his, her, or their attorney or attorneys thereunto lawfully authorised by writing under his, her, or their hands and seals, to be attested by two or more credible witnesses, and the person or persons to whom such transfer or transfers shall be made may respectively underwrite his, her, or their acceptance thereof and no other mode of assigning or transferring the said capital stock or any part thereof, or any interest therein, shall be good and available in law and no stamp duties whatsoever shall be charged on the said transfers or any of them

Amount charged on revenues of India not to exceed 10,000,000*l*

13 The whole amount of the principal moneys to be charged on the revenues of India under this Act shall not exceed ten millions of pounds sterling

Power to raise money for payment of principal money

14 Upon or for the repayment of any principal moneys secured under the authority of this Act, the Secretary of State may at any time borrow or raise, by all or any of the modes aforesaid, all or any part of the amount of principal money repaid or to be repaid, and so from time to time as all or any part of any principal moneys under this Act may require to be repaid, but the amount so to be charged on the revenues of India shall not in any case exceed the principal moneys required to be repaid

Securities to be charged on revenues of India.

15 All bonds, debentures, and bills issued under this Act, and the principal moneys and interest thereby secured, and all capital stock issued under this Act, and the interest thereon, shall be charged on and payable out of the revenues of India, in like manner as other liabilities incurred on account of the Government of India

Provisions as to composition for stamp duties on India bonds extended to bonds, debentures, and bills

16 The provisions contained in section four of the Act fifth and sixth William the Fourth, chapter sixty-four, with respect to the composition and agreement for the payment by the East India Company of an annual sum in lieu of stamp duties on their bonds, and the exemption of their bonds from stamp duties, shall be applicable with respect to the bonds, debentures, and bills to be issued by the Secretary of State under the authority of this or any previous Act, as if such provisions were here and there repeated and re-enacted with reference thereto

Forgery of debentures, bonds, and bills

17 All provisions now in force in anywise relating to the offence of forging or altering, or offering, uttering, disposing of, or putting off knowing the same to be forged or altered, any East India bond, with intent to defraud, shall extend and be applicable to and in respect of any bond, debenture, or bill issued under the authority of this Act

Saving existing borrowing powers of Secretary State

18 This Act shall not prejudice or affect any power of raising or borrowing money vested in the said Secretary of State at the time of passing thereof

Stock created under this Act to be deemed India stock

19 Any capital stock created under this Act shall be deemed to be India stock within the Act of the twenty-sixth and twenty seventh Victoria, chapter seventy-three, anything in the said Act to the contrary notwithstanding

Amendment of previous East India Loan Acts

THE SCHEDULE—ENACTMENTS TO BE DEEMED IN FORCE IN ANGUL AND THE KHONDMALS

A Regulation for the peace and government of Angul and the Khondmals

WHEREAS it is expedient to provide for the peace and government of the tracts of country in Orissa known as Angul and the Khondmals, It is hereby enacted as follows —

CHAPTER I

PRELIMINARY

Title and commencement

1 (1) This Regulation may be called the Angul District Regulation, 1894, and

(2) It shall come into force on such day as the Lieutenant-Governor of Bengal may, by notification in the Calcutta Gazette, direct

Constitution of district of Angul

2 For the purposes of this Regulation the district of Angul shall be deemed to comprise Angul, together with that portion of Killah Bod which is known as the Khondmals The former may be called the Sadr, or Angul, Sub-division, the latter the Khondmals Sub-division of the said district of Angul

Laws to be in force in the district of Angul

3 (1) So much of each of the enactments specified in the schedule as is at the commencement of this Regulation in force in the territories to which the enactment generally applies shall, in the form in which (as at present amended or hereafter to be amended by subsequent enactments, if any) it is so in force, be deemed to be in force in the district of Angul, or such part thereof as is mentioned in the third column of the said schedule, subject to any modifications contained in this Regulation

(2) An enactment not comprised in the schedule shall not be deemed to be, or to have been, in force in any part of the district of Angul, unless it shall have been expressly extended thereto, or shall, after the commencement of this Regulation, be so extended thereto, in exercise of the powers conferred by section 5 of this Regulation, or by any other enactment for the time being in force in the district of Angul

Provided that for the purpose of anything done, or any offence committed, or any fine or penalty imposed or incurred, or any proceedings commenced, before the passing of this Regulation, under any other Regulation or Act which, under the provisions of this section, is declared not to be in force in Angul, such Regulation or Act shall be considered to have been in force in Angul

Power to exempt Angul from operation of enactments

4 The Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any enactment or part thereof comprised in the schedule shall no longer be in force in the district of Angul, and on the publication of such notification such enactment or part thereof shall, subject to the proviso to section 3, cease to have effect in the said district

Power of Local Government to extend any other enactment

5 In addition to the enactments comprised in the schedule, the Local Government may, with the previous sanction of the Governor General in Council, by a notification in the Calcutta Gazette, declare that any other enactment or any part thereof shall be in force in the district of Angul, and on the publication of such notification such enactment shall be deemed to be comprised in the schedule

Power to construe enactments with necessary alterations

6 For the purpose of facilitating the application of any enactment for the time being in force in the district of Angul, any Court may construe such enactment with such alterations not affecting the substance thereof as may be necessary or proper to adapt it to the matter before the Court

Proceedings under Regulation not vitiated for irregularities

7 Notwithstanding anything in this Regulation or in the enactments comprised in the schedule, no finding, sentence, judgment, decree or order of any Court shall be revised, set aside or altered, either in appeal or on revision or otherwise, by reason of any irregularity in procedure, unless such irregularity has in the opinion of a higher Court, caused a failure of justice

Indemnification of previous acts of the executive authorities

8 All acts of executive authority, proceedings decrees and sentences which have been done, taken or passed in or with respect to the district of Angul before the commencement of this Regulation by any officer of the Government, or by any person acting under his authority, or otherwise in pursuance of an order of the Government and which have been, or shall hereafter be, ratified by the Lieutenant-Governor of Bengal, shall be as valid and operative as if they had been duly done, taken or passed in accordance with law, and no suit or other proceeding shall be commenced, maintained or continued against any person whatsoever on the ground that any such acts, proceedings, decrees or sentences were not duly done, taken or passed in accordance with law

Sentences passed in Angul may be carried out in any jail and beyond the sea

9 Any person liable to be imprisoned in any civil or criminal jail in the district of Angul, or to be transported beyond the sea under any order or sentence passed by any officer or Court duly empowered under this Regulation, may be imprisoned in any other civil or criminal jail in British India, or may be transported to any other place which the Local Government may, from time to time, select.

45. Every village-chaukidar who shall (a) withdraw from the duties of his office without the express permission of the District Superintendent of Police, or of some other officer duly authorized by him to grant such permission, (b) resign his office without the permission of the District Superintendent of Police, unless he has given at least two months' notice of his intention to resign, or (c) be guilty of cowardice, shall be liable, on conviction before a Magistrate, to a fine not exceeding ten rupees

Provided that no prosecution shall be instituted against any village-chaukidar under this section without the previous sanction of the Deputy Commissioner

Power to fine village chaukidars

46 Any village chaukidar who is guilty of any wilful misconduct in his office or neglect of his duty, such misconduct or neglect not being an offence within the meaning of the Indian Penal Code (XLV of 1860) or of section 45 of this Regulation, and not being of so grave a character as, in the opinion of the District Superintendent of Police, to require his dismissal from his office, shall be liable under the orders of the District Superintendent to a fine not exceeding three rupees, and such fine may be recovered as if it were a fine leviable under the provisions of the Code of Criminal Procedure, 1882 (X of 1882)

Duties of village chaukidar

47 Every village chaukidar appointed under this Regulation shall perform the following duties —

first, he shall give immediate information to the officer in charge of the police-station within the limits of which the village of which he is a chaukidar is situated of every unnatural, suspicious or sudden death which may occur, and of every murder, culpable homicide, rape, dacoity, robbery, theft, mischief by fire, house-breaking, counterfeiting coin, causing grievous hurt, riot, and all attempts and preparations to commit, and abetments of, all the said offences which may be committed within such village, or which may come to his notice otherwise, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray,

second, he shall arrest all proclaimed offenders and all persons whom he may find in the act of committing any of the offences above specified,

third, he shall observe, and from time to time report to the officer in charge of the police station within the limits of which such village is situated, the movements of all bad characters in such village,

fourth, he shall report to the officer in charge of such police station the arrival of any suspicious characters in the neighbourhood,

fifth, he shall present himself at such police-station at such intervals as the Deputy Commissioner may direct,

sixth, he shall supply any local information which the Deputy Commissioner or the District Superintendent of Police may require, and

seventh, he shall obey the orders of the Deputy Commissioner and of the District Superintendent of Police with respect to the place where he is to reside and in regard to keeping watch in the village and other matters connected with his duties as village chaukidar

Procedure on arrest by village chaukidar

48 Whenever a village chaukidar arrests any person, he shall forthwith take the person so arrested to the police station within the limits of which the village of which he is a chaukidar is situated

Provided that, if the arrest is made at night, such person shall be so taken as soon as convenient on the following morning

Appeal from the District Superintendent's order

49 An appeal shall lie to the Deputy Commissioner from every order of the District Superintendent of Police punishing a village-chaukidar with fine or dismissal, and, subject to the general power of revision of the Superintendent, the order which the Deputy Commissioner may pass on such appeal shall be final

CHAPTER VII

REGISTRATION OF DOCUMENTS

Power of Local Government to appoint Sub Registrars

O T BARROW,

Accountant-General, Bengal.

LIBERALITY OF BABU HARI LALL SHAHA CHAUDHURI OF TANGAIL IN THE DISTRICT OF MYMENSINGH

No 337M, dated Calcutta, the 25th January 1894

From—J A BOURDILLON, Esq, Offg Secy to the Govt of Bengal, Municipal Department

To—The Commissioner of the Dacca Division

I AM directed to acknowledge the receipt of your memorandum No 56G, dated the 8th January 1894, and its enclosure, reporting that Babu Hari Lall Shaha Chaudhuri, an Honorary Magistrate on the Tangail Independent Bench and a merchant living in Nagarpur, has paid Rs 3,000 into the Tangail Sub-Treasury towards the cost of excavating a tank in the Tangail Municipality

2 In reply, I am to say that the Lieutenant-Governor has much pleasure in accepting the donation, and to request that you will be so good as to convey to Babu Hari Lall Shaha Chaudhuri the thanks of His Honour for his liberality and public spirit The tank after it has been excavated will remain the property of the Municipal Commissioners of Tangail
